After World War II Berlin became one of the playgrounds of the Cold War the Berlin Wall made the division between East and West between capitalism and communism in 1961 highly visible though it did remove Berlin from front line politics East and West Berlin had turned into shop windows of ideologies West Berlin representing the lure of a market economy East Berlin the promise of socialism It is then fitting that the fall of the Wall in 1989 awarded Berlin such a prominent role It was here that the development after Reunification of East and West became a closely observed event and well beyond Germany Berlin appeared to represent fundamental developments throughout Europe at the time Today Berlin is the capital of reunified Germany and therefore one of the key political players in the European Union EU and it s now a desirable destination for young entrepreneurs The Historical Dictionary of Berlin contains a chronology an introduction and an extensive bibliography The dictionary section has more than 300 cross referenced entries on important personalities places institutions and events This book is an excellent resource for students researchers and anyone wanting to know more about Berlin *Sport, Memory and Nationhood in Japan* Andreas Niehaus, Christian Tagsold, 2013-09-13 This book clarifies and verifies the role sport has as an alternative marker in understanding and mapping memory in Japan by applying the concept of lieux de mmoire realms of memory to sport in Japan Japanese history and national construction have not been short of sports landmarks since the end of the nineteenth century Western style sports were introduced into Japan in order to modernize the country and develop a culture of consciousness about bodies resembling that of the Western world Japan s modernization has been a process of embracing Western thought and culture while at the same time attempting to establish what distinguishes Japan from the West In this context sports functioned as sites of contested identities and memories The Olympics baseball and soccer have produced memories in Japan but so too have martial arts which by their very name signify an attempt to create traditions beyond Western sports Because modern sports form bodies of modern citizens and at the same time offer countless opportunities for competition with other nations they provide an excellent ground for testing and contesting national identifications By revealing some of the key realms of memory in the Japanese field of sports this book shows how memories and counter memories of sport moments places and heroes constitute an inventory for identity This book was originally published as a special issue of Sport in Society Bunker, Banken, Reichskanzlei Matthias Donath, 2005 Die Staatsarchitektur der Weimarer Republik Christian Welzbacher, 2006 **ZeitRäume** Frank Bösch, Martin Sabrow, 2020-11-30 ZeitRäume versammelt j hrlich eine Auswahl von zeitgeschichtlichen Analysen die am Zentrum f r Zeithistorische Forschung in Potsdam ZZF vorgestellt wurden oder aus der Arbeit des Instituts entstanden sind Die Zusammenstellung hat nicht den Anspruch die am ZZF betriebenen Forschungen repr sentativ zu spiegeln Aber sie vermittelt einen Eindruck von der Vielfalt und Vielgestalt der Wege die uns zum Verst ndnis unserer zugleich so nahen und so fernen Zeitgeschichte im 20 und beginnenden 21 Jahrhundert f hren k nnen **Erinnerungskultur im Sport. 2.**
