Women Psychol Puz Rohrbaugh, 1981-06-18 This book attempts to assess the scientific basis of the feminist challenge to male psychology's traditional view of women. The author relates the various issues raised by the women's movement to recent research findings about the female experience. Clearly distinguishing fact from popular speculation, Dr. Rohrbaugh weighs the prevailing myths about female psychology and considers how these myths distort the reality of women's everyday lives. From book jacket.

Issues in the Psychology of Women Maryka Biaggio, Michel Hersen, 2007-05-08 Over the past 15 years I have taught a graduate-level course in Psychology of Women to students in two different professional psychology programs. Because my students were at the doctoral level and often had some familiarity with the psychology of women, these courses focused on bringing a feminist analysis of psychology and integrating a feminist analysis into one's scholarly work and professional activities. Although I used several fine psychology of women textbooks during this time, I found none that was specifically designed for graduate students. Thus, I always augmented the textbook with journal articles on specific aspects of the topic, and these focused articles have typically been well received by the students. The students whom I have encountered in these courses have often expressed a wish for a textbook that is designed for their needs. I think what they are asking for is one that could serve as a foundation for their scholarly analysis of psychology as well as a springboard for thoughtful application of a feminist perspective to the profession of psychology. Therefore, *Issues in the Psychology of Women* has been designed to serve as a textbook for advanced undergraduate or

graduate courses including Psychology of Women or Feminist Analysis of Psychology This book is the collective work of authors with special expertise in their chapter topic      *Readings in Ethics* Louis F. Groarke, Paul V. Groarke, Paolo C. Biondi, 2021-04-21 *Readings in Ethics* offers a vast collection of carefully edited readings arranged chronologically across five historical periods The selections cover many major Western and non Western schools of thought including Daoism virtue ethics Buddhism natural law deontology utilitarianism contractarianism liberalism Marxism feminism and communitarianism In addition to texts from canonical philosophers such as Plato Mill Wollstonecraft and Rawls the volume draws from other sources of wisdom stories fables proverbs medieval mystical treatises literature and poetry The editors have also written substantial introductions annotations discussion questions and suggestions for further reading making for a thorough guided tour of our ethical past and present      Resources in Women's Educational Equity , 1977 Literature cited in AGRICOLA Dissertations abstracts international ERIC ABI INFORM MEDLARS NTIS Psychological abstracts and Sociological abstracts Selection focuses on education legal aspects career aspects sex differences lifestyle and health Common format bibliographical information descriptors and abstracts and ERIC subject terms used throughout Contains order information Subject author indexes      *Reading from the Underside of Selfhood* Lisa E. Dahill, 2009-01-01 Dietrich Bonhoeffer's example of self sacrificing discipleship has for over fifty years inspired Christians around the world in both their resistance to evil and their devotion to Jesus Christ Yet for some readers particularly those who suffer trauma abuse and other forms of violence Bonhoeffer's insistence on self sacrifice on becoming a person for others may prove more harmful than liberating For those already socialized into self abnegation uncritical applications of Bonhoeffer's teachings may reinforce submission rather than resistance to evil This study explores Bonhoeffer's understandings of selfhood and spiritual formation both in his own experience and writings and in light of the role of gender in psycho spiritual development The central constructive chapter creates a mediated conversation between Bonhoeffer and these feminist psychologists on the spiritual formation of survivors of trauma and abuse including not only dimensions of his thinking to be critiqued from this perspective but also important resources he contributes toward a truly liberating Christian spirituality for those on the underside of selfhood The book concludes with suggestions regarding the broader relevance of this study and implications for ministry The insights for spiritual formation developed here provide powerful proof of Bonhoeffer's continuing and concretely contextualized relevance for readers across the full spectrum of human selfhood
