Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns

Brigitte Geissel, Kenneth Newton

Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns:

Referendum Democracy M. Mendelsohn, A. Parkin, 2001-09-25 As the referendum becomes a more regular component of decision making it leaves few if any institutions processes and values of democracy untouched Political actors of all kinds including political parties and interest groups seek to use the referendum device to further their own objectives The end result is a different kind of democracy than existed before This book lays out the comparative research agenda on the impact of referendums on the practice of liberal democracy

Constitutional Change and Popular Sovereignty Maria Cahill, Colm Ó Cinnéide, Seán Ó Conaill, Conor O'Mahony, 2021-07-15 This collection focuses on the particular nexus of popular sovereignty and constitutional change and the implications of the recent surge in populism for systems where constitutional change is directly decided upon by the people via referendum It examines different conceptions of sovereignty as expressed in constitutional theory and case law including an in depth exploration of the manner in which the concept of popular sovereignty finds expression both in constitutional provisions on referendums and in court decisions concerning referendum processes While comparative references are made to a number of jurisdictions the primary focus of the collection is on the experience in Ireland which has had a lengthy experience of referendums on constitutional change and of legal political and cultural practices that have emerged in association with these referendums At a time when populist pressures on constitutional change are to the fore in many countries this detailed examination of where the Irish experience sits in a comparative context has an important contribution to make to debates in law and political science

Political Communication Carsten Reinemann, 2014-07-28 Against the background of an enormous expansion and diversification of both political communication itself and scientific research into its structures processes and effects this volume gives an overview of some of the key theories and findings accumulated by political communication research over the last decades In order to do so the volume provides readers with review articles by renowned international authors on various aspects of I the normative regulatory and conceptual foundations of political communication II different situations of political communication e g elections referendums social movements media hypes crisis and war III the activities of and part played by political actors IV mass media and journalism V characteristics and typical features of media messages VI the role played by citizens as well as VII various kinds of effects on citizens Each section includes several chapters that address specific issues and research problems in the form of comprehensive overviews articles

Handbook of Democratic Innovation and Governance Stephen Elstub, Oliver Escobar, 2019-12-27 Democratic innovations are proliferating in politics governance policy and public administration These new processes of public participation are reimagining the relationship between citizens and institutions This Handbook advances understanding of democratic innovations in theory and practice by critically reviewing their importance throughout the world The overarching themes are a focus on citizens and their relationship to these innovations and the resulting effects on political equality The Handbook therefore offers a definitive overview of existing research on

democratic innovations while also setting the agenda for future research and practice Comparative European Politics Rory Costello, Neil Robinson, 2020 This essential guide to comparative European politics provides the broadest range of coverage on Europe illustrated via the widest range of examples applied to contemporary events *Evaluating Democratic Innovations* Brigitte Geissel, Kenneth Newton, 2012 In the face of increasing political disenchantment many Western governments have experimented with innovations which aim to enhance the working and quality of democracy as well as increasing citizens political awareness and understanding of political matters This text is the most comprehensive account of these various democratic innovations Written by an outstanding team of international experts it examines the theories behind these democratic innovations how they have worked in practice and evaluates their success or failure It explains experiments with new forms of democratic engagement such as Direct Democracy Deliberative Democracy Co Governance E Democracy Drawing on a wide variety of theoretical perspectives and with a broad range of case studies this is essential reading for all students of democratic theory and all those with an interest in how we might revitalise democracy and increase citizen involvement in the political process The Limits and Legitimacy of Referendums Richard Albert, Richard Stacey, 2022 The possibility of democracy enhancing uses and anti democratic abuses of referendums reveals a paradox mechanisms of democracy can be exploited to do violence to the basic principles of democracy The Limits and Legitimacy of Referendums seeks to identify standards we might use to assess the democratic legitimacy of a referendum when we cannot rely on the norms of traditional liberal democracy This innovative book explores how referendums manage the tension between liberalism and democracy and whether this device holds promise for reconciling these two commitments A range of scholars from around the world expose how referendums may be abused on one hand to achieve short term political or even personal gains and how on the other they may aspire to reflect the best traditions of deliberative innovative democracy enhancing popular decision making Structured around three big questions this book seeks to identify what makes a referendum legitimate First why have referendums on issues of fundamental political importance become so frequent around the world Second who are or who should be the people that make decisions about a political community's future And third are referendums an effective and reliable mechanism of popular sovereignty or democratic choice These essays written for scholars public lawyers political actors and citizens bring together diverse perspectives on referendums constitutionalism liberalism and democracy in ways that challenge the conventional wisdom prompt new answers to enduring questions and urge reconsideration of how we evaluate the legitimacy of referendums **Reviewing European Union Accession** Tom Hashimoto, Michael Rhimes, 2017-09-25 The year 2017 has been an uneasy one for the EU with so called Brexit on the horizon and the rise of populist euroskepticism in a number of Member States This year with the tenth anniversary of the Romanian and Bulgarian accession to the Union is a good year to pause and reflect over the life and future of the Union In this work we envision the next decade with Europe 2020 strategy and review the fruits of the 2004 accession in Central and Eastern

Europe What has the Union achieved Which policy areas are likely to change and how How successful and by what measure has the accession of the 10 Member States in 2004 been Reviewing European Union Accession addresses a wide range of issues deliberately without any thematic constraints in order to explore EU enlargement from a variety of perspectives both scientific and geographical internal and external In contrast to the major works in this field we highlight the interrelated and often unexpected nature of the integration process hence the subtitle unexpected results spillover effects and externalities

Participatory Democratic Innovations in Europe Brigitte Geißel,Marko Joas,2013-11-20 Representative democracy is often seen as a stable institutional system insusceptible to change However the preferences of the broad public are changing and representative group based democracy has lost importance This development made it necessary to change established ways of decision making and to introduce participatory democratic innovations Many national and sub national governments followed this route and implemented various kinds of participatory innovations i e the inclusion of citizens into processes of political will formation and decisionmaking The authors analyse and evaluate the various effects of these innovations in Europe providing a bigger picture of the benefits and disadvantages different democratic innovations can result in

Democratic Innovations Graham Smith,2009-07-02 Can we design institutions that increase and deepen citizen participation in the political decision making process At a time when there is growing disillusionment with the institutions of advanced industrial democracies there is also increasing interest in new ways of involving citizens in the political decisions that affect their lives This book draws together evidence from a variety of democratic innovations from around the world including participatory budgeting in Brazil Citizens Assemblies on Electoral Reform in Canada direct legislation in California and Switzerland and emerging experiments in e democracy The book offers a rare systematic analysis of this diverse range of democratic innovations drawing lessons for the future development of both democratic theory and practice **Activating the Citizen** J. DeBardeleben,J. Pammett,2009-08-12 The decline of citizen involvement affects two key elements of democratic government elections and political parties Activating the Citizen examines the reasons underlying citizen withdrawal and explores and assesses innovative approaches on both sides of the Atlantic to try to counter these phenomena

Democratic Innovations in Central and Eastern Europe Sergiu Gherghina,Joakim Ekman,Olena Podolian,2020-05-21 Democratic Innovations in Central and Eastern Europe expands research on democratic innovations by looking specifically at different forms of democratic innovations in Central and Eastern Europe The book covers direct democracy referendums in particular deliberative democracy practices and e participation forms which are salient in practice because they match the political realities of our time Expert contributors show how the recent actions of ordinary citizens in several Central and Eastern European countries have challenged the contemporary political order and grassroots movements and diverse forms of mobilization have challenged the notion of weak civil societies in the East The empirical evidence presented attempts to deepen citizen involvement in political contexts sometimes quite different from the democratic political systems in the

Western world Using lessons from a still largely underexplored part of Europe the book both complements and revises theoretical approaches or complements empirical results in existing studies on democratic innovations Democratic Innovations in Central and Eastern Europe will be of great interest to scholars working on democracy political systems political engagement and Central and Eastern European politics The chapters originally published as a special issue of Contemporary Politics Sovereignty, Civic Participation, and Constitutional Law Brecht Deseure,Raf Geenens,Stefan Sottiaux,2021-04-13 This book brings recent insights about sovereignty and citizen participation in the Belgian Constitution to scholars in the fields of law philosophy history and politics Throughout the Western world there are increasing calls for greater citizen participation Referendums citizen councils and other forms of direct democracy are considered necessary antidotes to a growing hostility towards traditional party politics This book focuses on the Belgian debate where the introduction of participatory politics has stalled because of an ambiguity in the Constitution Scholars and judges generally claim that the Belgian Constitution gives ultimate power to the nation which can only speak through representation in parliament In light of this direct democracy would be an unconstitutional power grab by the current generation of citizens This book critically investigates this received interpretation of the Constitution and by reaching back to the debates among Belgium s 1831 founding fathers concludes that it is untenable The spirit if not the text of the Belgian Constitution allows for more popular participation than present day jurisprudence admits This book is the first to make recent debates in this field accessible to international scholars It provides a rare source of information on Belgium s 1831 Constitution which was in its time seen as modern constitutionalism s greatest triumph and which became a model for countless other constitutions Yet the questions it asks reverberate far beyond Belgium Combining new insights from law philosophy history and politics this book is a showcase for continental constitutional theory It will be a valuable resource for academics and researchers in constitutional law political and legal philosophy and legal history **The Palgrave Handbook of European Referendums** Julie Smith,2021-03-02 This handbook provides an empirically rich analysis of referendums in Europe from the end of the Second World War to the present It addresses a range of perennial theoretical and legal questions that face policy makers when they offer citizens the chance to take or influence decisions by referendum not least whether to accept the will of the people Taking a multi disciplinary approach drawing on historical philosophical and political science perspectives the book includes a contextual section on the history of referendums the theoretical questions underpinning their use and on constitutional and legal questions about the use of referendums The empirical sections are divided into those referendums that focus on domestic issues such as constitutional matters or questions of social policy and those related to the European Union including membership referendums and treaty ratification **Social Movements and Referendums from Below** Donatella Della Porta,Francis O'Connor,Martin Portos,Anna Subirats Ribas,2017-09-27 Over recent years social movements formed in response to European neoliberal austerity measures have played an increasingly important role in referendums

This is the first book to bridge the gap between social movement studies and research on direct democracy. It draws on social movement theory to understand the nature of popular mobilisation in referendums. Co-authored by one of the world's leading authorities on social movements, the book uses unique case studies such as the referendum on independence in Scotland, the consultations on independence in Catalonia, the Italian referendum on water, the referendum on the Troika proposals in Greece, and the referendum on the debt repayment in Iceland to illustrate the ways the social movements that formed as a consequence of the 2008 financial crash have affected the referendums' dynamic and results. It also addresses the way in which participation from below has had a transformative impact on the organisational strategies and framing practices used in the campaigns. Looking at general issues of democracy as well as the political effects of neoliberalism, this topical book is ideally suited to understand the reasons for the Brexit result and will be read by a wide audience interested in social movements, referendums, and democratic innovation.

Handbook of Comparative Political Institutions Adrian Vatter, Rahel Freiburghaus, 2024-10-03. This comprehensive Handbook presents a broad range of theoretical, methodological, and empirical perspectives on the comparative study of political institutions. Exploring cutting-edge developments in the field, it provides new insight into the significant diversity and impact of political institutions across space and time. This title contains one or more Open Access chapters.

Radical Republicanism Bruno Leipold, Karma Nabulsi, Stuart White, 2020-03-05. Republicanism is a powerful resource for emancipatory struggles against domination. Its commitment to popular sovereignty subverts justifications of authority, locating power in the hands of the citizenry who hold the capacity to create, transform, and maintain their political institutions. Republicanism's conception of freedom rejects social, political, and economic structures subordinating citizens to any uncontrolled power from capitalism and wage labour to patriarchy and imperialism. It views any such domination as inimical to republican freedom. Moreover, it combines a revolutionary commitment to overturning despotic and tyrannical regimes with the creation of political and economic institutions that realise the sovereignty of all citizens' institutions that are resilient to threats of oligarchical control. This volume is dedicated to retrieving and developing this radical potential, challenging the more conventional, moderate conceptions of republicanism. It brings together scholars at the forefront of tracing this radical heritage of the republican tradition and developing arguments, texts, and practices into a critical and emancipatory body of political and social thought. The volume spans historical discussions of the English Levellers, French and Ottoman revolutionaries, and American abolitionists and trade unionists' explorations of the radical republican aspects of the thought of Machiavelli, Marx, and Rousseau, and theoretical examinations of social domination and popular constitutionalism. It will appeal to political theorists, historians of political thought, and political activists interested in how republicanism provides a robust and successful radical transformation to existing social and political orders. **Routledge**

Handbook of Comparative Constitutional Change Xenophon Contiades, Alkmene Fotiadou, 2020-06-11. Comparative constitutional change has recently emerged as a distinct field in the study of constitutional law. It is the study of the way

constitutions change through formal and informal mechanisms including amendment replacement total and partial revision adaptation interpretation disuse and revolution The shift of focus from constitution making to constitutional change makes sense since amendment power is the means used to refurbish constitutions in established democracies enhance their adaptation capacity and boost their efficacy Adversely constitutional change is also the basic apparatus used to orchestrate constitutional backslide as the erosion of liberal democracies and democratic regression is increasingly affected through legal channels of constitutional change Routledge Handbook of Comparative Constitutional Change provides a comprehensive reference tool for all those working in the field and a thorough landscape of all theoretical and practical aspects of the topic Coherence from this aspect does not suggest a common view as the chapters address different topics but reinforces the establishment of comparative constitutional change as a distinct field The book brings together the most respected scholars working in the field and presents a genuine contribution to comparative constitutional studies comparative public law political science and constitutional history

Deliberative Democracy and the Environment

Graham Smith, 2003-08-29 Contemporary democracies are frequently criticized for failing to respond adequately to environmental problems and our political institutions are often charged with misrepresenting environmental values in decision making processes In this innovative volume Graham Smith argues that the enhancement and institutionalisation of democratic deliberation will improve reflection on the wide range of environmental values that citizens hold Drawing on theories of deliberative democracy Smith argues that institutions need to be restructured in order to promote democratic dialogue and reflection on the plurality of environmental values Deliberative Democracy and the Environment makes an important contribution to our understanding of the relationship between democratic and green political theory Drawing on evidence from Europe and the United States it systematically engages with questions of institutional design Division of Power: Continuity and Change Marcin Romanowski, Bogumił Szmulik, Jarosław Szymanek, The separation of powers doctrine is undoubtedly one of the key principles of contemporary constitutionalism Despite this it has not been framed into a single homogeneous and thus universal form The abundance of approaches and nuances found in legal and political doctrine makes it an extremely labile and meandering concept which can take on a variety of shapes Its legislative articulation is by no means uniform and thus reproducible either The separation of powers in constitutional law is therefore expressed in a broad array of formulas sometimes explicitly sometimes implicitly In addition it can take on a classic almost model form or it can be shaped in a significantly altered manner compared to what we used to call its model the dispersion of ideas about what the separation of powers is where it originates or how to best frame and apply it in legislation and practice does not deprive the separation of powers of the nature of a timeless general notion that underlies the very concept of the division of power After all the impulse to formulate the assumptions for the separation of powers was in each case triggered by the desire to eliminate the vesting of unlimited or excessive power in an individual or a narrow oligarchised group Therefore its essence

and also the main advantage is first of all protection against the despotism of power which translates into the specific benefit of consolidation of institutional guarantees of civil rights and liberties through the attribution of individual power functions to different branches of government and then their clear separation MARCIN ROMANOWSKI Separation of Powers Meanders of Doctrine and Legislation

As recognized, adventure as competently as experience very nearly lesson, amusement, as well as covenant can be gotten by just checking out a book **Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns** plus it is not directly done, you could agree to even more on the subject of this life, not far off from the world.

We present you this proper as with ease as simple quirk to get those all. We provide Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns and numerous ebook collections from fictions to scientific research in any way. among them is this Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns that can be your partner.

Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns Introduction

Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns Offers a diverse range of free eBooks across various genres. Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns, especially related to Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following

steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns books or magazines might include. Look for these in online stores or libraries. Remember that while Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns, sharing copyrighted material without permission is not legal. Always ensure you're either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns full book, it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns eBooks, including some popular titles.

FAQs About Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns is one of the best book in our library for free trial. We provide copy of Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns. Where to download Referendum Democracy Citizens Elites And Deliberation In Referendum
