Laura Nader

Science Without Unity Reconciling The Human And Natural Sciences The Persistence Of Reality Volume :

Naked Science Laura Nader,2014-01-02 Naked Science is about contested domains and includes different science cultures physics molecular biology primatology immunology ecology medical environmental mathematical and navigational domains While the volume rests on the assumption that science is not autonomous the book is distinguished by its global perspective Examining knowledge systems within a planetary frame forces thinking about boundaries that silence or affect knowledge building Consideration of ethnoscience and technoscience research within a common framework is overdue for raising questions about deeply held beliefs and assumptions we all carry about scientific knowledge We need a perspective on how to regard different science traditions because public controversies should not be about a glorified science or a despicable science **The Persistence of Reality** Joseph Margolis,1986 **Mead and Merleau-Ponty** Sandra B. Rosenthal,Patrick L. Bourgeois,1991-10-04 This book unites George Herbert Mead and Maurice Merleau Ponty in a shared rejection of substance philosophy as well as spectator theory of knowledge in favor of a focus on the ultimacy of temporal process and the constitutive function of social praxis Both Mead and Merleau Ponty return to the richness of lived experience within nature and both lead to radically new insightful visions of the nature of selfhood language freedom and time itself as well as of the nature of the relation between the so called tensions of appearance and reality sensation and object the individual and the community freedom and constraint and continuity and creativity **Human Ecology And Climatic Change** David L. Peterson,Darryll R. Johnson,2020-03-06 The Far North a land of extreme weather and intense beauty is the only region of North America whose ecosystems have remained reasonably intact Humans are newcomers there and nature predominates As is widely known recent changes in the Earth s atmosphere have the potential to create rapid climatic shifts in our life time and well into the future These changes a product of southern industrial society will have the greatest impact on ecosystems at northern latitudes which until now have remained largely undisturbed In this fragile balance as terrestrial and aquatic habitats change animal and human populations will be irrevocably altered **Merleau-Ponty Vivant** Martin C. Dillon,1991-01-01 Situates Merleau Ponty s thinking in the last decade of the twentieth century both with regard to general context and specific themes The Persistence of Reality Joseph Margolis,1987 Antifoundationalism Beth J. Singer,Tom Rockmore,1991 Essays that follow and expound on the foundationalism antifoundationalism debate throughout the history of philosophy *Person-Centred Counselling* David L Rennie,1998-05-21 This book offers a truly engaging read The writing style is good and it gives the reader a wide range of perspectives from the meta theoretical to the concrete practical experience of clients and counsellors David Rennie s book serves to continue the development as well as the exposition of the person centred approach to counselling British Journal of Guidance and Counselling This is a very good book clearly within the humanistic experiential tradition It seems to me to be very important that this kind of research continues it is the raw data of the counselling profession Person Centred PracticeThis book contains powerful new ideas about person centred

theory and practice Supported by intensive qualitative research into the client s experience of counselling the book highlights the significance and pervasiveness of reflexivity defined as self awareness and agency within that self awareness and explores surprising ways in which clients contribute reflexively to the counselling process Vivid examples highlight activities show the therapy in action and illustrate how counsellors can use their own experiences creatively to facilitate their attunement to themselves their clients and their relationships with them The theoretical framework covers matters such as the use of images and metaphor counsellor transparency and the assistance of clients agency Emphasis is placed on the client counsellor relationship through such crucial areas as the working alliance power dynamics and metacommunication
