Textbook of Herbal Drug Technology is a detailed and structured guide that explores the science tradition and modern applications of herbal medicines. It begins by defining herbs, herbal drugs, and herbal medicinal products while also explaining the selection, identification, and processing of herbal raw materials. The book highlights biodynamic agriculture and good agricultural practices including organic farming and pest management using eco-friendly methods. It offers insights into the principles of Indian systems of medicine like Ayurveda, Siddha, Unani, and Homeopathy and discusses the preparation and standardization of traditional Ayurvedic formulations. The growing field of nutraceuticals is explored with focus on their health benefits in managing diseases like diabetes, cardiovascular disorders, and gastrointestinal issues. Key herbs such as garlic, ginger, ashwagandha, and spirulina are discussed for their therapeutic roles. The book also covers herbal drug and herb-food interactions, emphasizing possible side effects and safety concerns. Herbal cosmetics and excipients of natural origin are included, showing their applications in personal care products. Various herbal formulations and advanced dosage forms like phytosomes are presented. Evaluation of herbal drugs based on WHO and ICH guidelines, including stability testing, is thoroughly discussed. The book explores intellectual property rights, patenting issues, and the global significance of traditional knowledge with case studies on turmeric and neem. It also examines regulatory frameworks in India such as ASU, DTAB, ASU DCC, and Schedule Z of the Drugs and Cosmetics Act. Furthermore, it introduces the herbal industry's present scope and future prospects. Details on GMP requirements under Schedule T are included, covering infrastructure, hygiene, and documentation practices. The book offers a balanced approach combining ancient wisdom with modern science, making it a valuable resource for students, professionals, and researchers in the field of herbal drug technology.
