An Index to Music in Selected Historical Anthologies of Western Art Music, Part 1 Mara Parker, 2019-01-01 An Index to Music in Selected Historical Anthologies of Western Art Music is the essential reference for music history and music theory instructors for finding specific listings and details for all the pieces included in more than 140 anthologies published between 1931 and 2016. Containing over 5 000 individual listings, this concise book is an indispensable tool for teaching music history and theory. Since many anthologies exist in multiple editions, this Index provides instructors, students, and researchers with the means to locate specific compositions in both print and online anthologies. This book includes listings by composer and title, as well as indexes of authors, titles, and first lines of text for music from antiquity through the early twenty-first century.

A Charles Ives Omnibus Michael J. Budds, 2008 Central to the evolution of American music is the legacy of Charles Ives. This grand-scale reference work provides details surrounding the multifarious responses to the achievement of this singular businessman-musician for more than a century. Performances, recordings, journalistic reports, reviews, and scholarly studies of all kinds, as well as assorted Ivesiana in the form of literature, art, film, dance, and other expressions of homage, are included. Many of the entries are amplified with contextual information or carefully selected excerpts. Professor Burk has been an enthusiastic connoisseur of Ives's music and a thoughtful student of the Ives literature for many years; his systematic presentation results in much more than a glorified work list or another ambitious bibliography.
