Cities of Culture John R. Gold,2016-12-05 City authorities in recent years have competed vigorously to gain the right to host international festivals In doing so they are heirs to a long tradition since cities have always served as a natural location for festivals and fairs providing settings on a scale impossible elsewhere *Cities of Culture* examines the role of the Western city as the scene of staged cultural events over the last 150 years Adopting a lively

comparative perspective it highlights the development of international festivals since London's Great Exhibition of 1851. Making extensive use of case studies and illuminating examples it offers thought provoking insight into the material and symbolic significance of international festivals in urban affairs. The book opens with an historical analysis of the role of the city as centre for celebrations, rites and festivities from Antiquity to the French Revolution. The next three sections of the book each focus on a different form of international festival. The first deals with the history of staging the International Expositions with case studies of the Great Exhibition 1851, New York's World's Fair 1939-40 and Montreal's Expo 67 1967. The next part covers the Summer Olympic Games from their revival at Athens in 1896 to the Atlanta Games 1996, discussing the implications of their fluctuating fortunes for their host cities. The third section discusses the history of a recently founded event that is assuming ever greater importance, the European Cities of Culture programme. The conclusion provides an overview of the events that celebrated the Millennium and examines the prospects for international festivals as part of the urban agenda of the twenty-first century. Cities of Culture will appeal to students of cultural history, urban and cultural geography, specialists in arts and heritage, events management and anyone with an interest in the development of the contemporary Western city.

From title screen **The Scottish Educational Journal**, 1923 Scottish Art in the 20th Century Duncan Macmillan, 1994. This text tells the story of modern Scottish painting and sculpture. It sets out the claim of artists like Macintosh and Fergusson to be partners, not followers, in the early modern movement. It traces the impact of the ideas of the Scots Renaissance on the work of painters such as William Godstone, the evolution of a distinct Edinburgh School with Sir William Gillies, Anne Redpath and Sir Robin Philipson. It also details the important place that artists from Scotland such as Joan Eardley, Sir Eduardo Paolozzi and Alan Davie played in the post-war period in Britain. It examines the achievement of Ian Hamilton Finlay, the revolutionary impact of John Bellamy's work and finally artists such as Steven Campbell, Ken Currie and others who have marked a new flowering of Scottish art in the 1980s and 1990s.
