Essential Scots and the Idea of Unionism in Anglo-Scottish Literature, 1603-1832 Rivka Swenson, 2015-12-30 John Locke asked since all things that exist are merely particulars how come we by general terms Essential Scots and the Idea of Unionism in Anglo Scottish Literature 1603 1832 tells a story about aesthetics and politics that looks back to the 1603 Union of Crowns and James VI I s emigration from Edinburgh to London Considering the emergence of British unionism alongside the literary rise of both description and the individual Rivka Swenson builds on extant scholarship with original close readings that illuminate the inheritances of 1603 a date of considerable but untraced importance in Anglo Scottish literary and cultural history whose legacies are still being negotiated today The 1603 Union of Crowns spurred interest in exploring the aesthetic politics of unionism in relation to an alleged Scottish essence that could be manipulated to resist or support Britishness even as the king s emigration generated a legacy of gendered representations of traveling Scots and Scotlands left behind Discussing writers such as Bacon Defoe Smollett Johnson Macpherson Ferrier and Scott along with lesser known or forgotten popular authors and ballads transparencies newspapers joke books cant dictionaries political speeches histories travel narratives engravings material artifacts such as medals and snuffboxes Essential Scots describes the years 1603 to 1832 as a crucial period in British history Paradoxically the political and cultural exploration of ideas about unionism in relation to a supposed essential Scottishness participated in the increasing prominence of both description and the individual in nineteenth century Scottish literature Swenson persuasively concludes that essential Scottishness as both identity and symbolism was refigured to mediate a national synthesis between the emergent individual and the nascent British nation as well as the naturalized even de politicized literary synthesis of particulars within putatively analogous narrative wholes

Scottish Gothic Carol Margaret Davison, 2017-03-08 Written from various critical standpoints by internationally renowned scholars Scottish Gothic An Edinburgh Companion interrogates the ways in which the concepts of the Gothic and Scotland have intersected and been manipulated from the mid eighteenth century to the present day This interdisciplinary collection is the first ever published study to investigate the multifarious strands of Gothic in Scottish fiction poetry theatre and film Its contributors all specialists in their fields combine an attention to socio historical and cultural

contexts with a rigorous close reading of works both classic and lesser known produced between the eighteenth and twenty first centuries Idea of Commercial Society in the Scottish Enlightenment Christopher J Berry,2015-04-08 Christopher Berry explains why Enlightenment thinkers considered commercial society to be wealthier and freer than earlier forms looking at key works from Adam Smith David Hume and Adam Ferguson alongside lesser known figures The Glenbuchat Ballads David Buchan,James Moreira,2011-01-05 Sometime in the early nineteenth century most likely in the year 1818 the Reverend Robert Scott minister of the parish of Glenbuchat in Aberdeenshire Scotland compiled a collection of traditional ballads that until now has not been published Most of the ballad collections produced during the Scottish Romantic Revival were eventually anthologized in Francis James Child s seminal English and Scottish Popular Ballads five volumes 1882-96 Yet the Glenbuchat manuscripts containing sixty eight ballads in four folio volumes were not included in Child s volumes The complete work only came to light in 1949 when it was donated to the Special Collections of the Aberdeen University Library by a descendent of the original compiler Scott did not give the precise locations of where he collected his ballads or name the performers but the texts are unique and appear to have been drawn from oral sources As such the ballads reveal a great deal about the nature of traditional music at the time they were collected The Glenbuchat Ballads were originally prepared for publication by David Buchan one of the leading ballad scholars of the twentieth century Upon Buchan s death his former student James Moreira took up and completed his work and wrote the detailed introductory essay and annotations in this volume **The Material Landscapes of Scotland's Jewellery Craft, 1780-1914** Sarah Laurenson,2023-06-29 Shortlisted for the History Book Award in Scotland s National Book Awards 2023 During the long 19th century Scotland was home to an established body of skilled jewellers who were able to access a range of materials from the country s varied natural landscape precious gold and silver sparkling crystals and colourful stones freshwater pearls shells and parts of rare animals Following these materials on their journey from hill and shore across the jeweller s bench and on to the bodies of wearers this book challenges the persistent notion that the forces of industrialisation led to the decline of craft It instead reveals a vivid picture of skilled producers who were driving new and revived areas of hand skill and who were key to fostering a focused cultural engagement with the natural world among both producers and consumers through the things they made By placing producers and their skill in cultural context the book reveals how examining the materiality of even the smallest of objects can offer new and multifaceted insights into the wider transformations that marked British history during the long 19th century Uniting a vast array of jewellery objects with a range of other sources including paintings engravings newspaper reports letters inventories of big houses and small workshops sketchbooks novels works of literary geology and early travel writings this book provides a deep dive into the cultural history of jewellery production through accessible thematic studies In doing so it sets out innovative methodologies for writing about the histories of craft production the natural environment and the material world Now available in a paperback edition it will be an important addition to the

bookshelf of cultural historians and those interested in Scotland's wild landscapes and natural objects **Enlightenment in a Smart City** Pittock Murray Pittock, 2018-11-14 This is a study of Enlightenment in Edinburgh like no other Using data and models provided by urban innovation and Smart City theory it pinpoints the distinctive features that made Enlightenment in the Scottish capital possible In a journey packed with evidence and incident Murray Pittock explores various civic networks such as the newspaper and printing businesses the political power of the gentry and patronage networks as well as the pub and coffee house life as drivers of cultural change His analysis reveals that the attributes of civic development which lead to innovation and dynamism were at the heart of what made Edinburgh a smart city of 1700 *Plantation and Civility in the North Atlantic World* Aonghas MacCoinnich, 2015-09-17 The settlement of the Hebrides is usually considered in terms of the state formation agenda Yet the area was subject to successive attempts at plantation largely overlooked in historical narrative Aonghas MacCoinnich's study *Plantation and Civility* explores these plantations against the background of a Lowland Highland cultural divide and competition over resources The Macleod of Lewis clan uncivil Gaelic Highlanders were dispossessed by the Lowland civil Fife Adventurers 1598 1609 Despite the collapse of this Lowland Plantation however the recourse to the Mackenzie clan often thought a failure of policy was instead a pragmatic response to an intractable problem The Mackenzies also pursued the civility agenda treating with Dutch partners and fending off their English rivals in order to develop their plantation
