Alan Burton, 2018-01-31 Looking Glass Wars Spies on British Screens since 1960 is a detailed historical and critical overview of espionage in British film and television in the important period since 1960 From that date the British spy screen was transformed under the influence of the tremendous success of James Bond in the cinema the spy thriller and of the new style spy writing of John le Carr and Len Deighton the espionage story In the 1960s there developed a popular cycle of spy thrillers in the cinema and on television The new study looks in detail at the cycle which in previous work has been largely neglected in favour of the James Bond films The study also brings new attention to espionage on British television and popular secret agent series such as Spy Trap Quiller and The Sandbaggers It also gives attention to the more realistic representation of spying in the film and television adaptations of le Carr and Deighton and other dramas with a more serious intent In addition there is wholly original attention given to nostalgic spy fictions on screen adaptations of classic stories of espionage which were popular in the late 1970s and through the 1980s and to historical spy fiction dramas which treated real cases of espionage and their characters most notably the notorious Cambridge Spies Detailed attention is also given to the secret state thriller a cycle of paranoid screen dramas in the 1980s which portrayed the intelligence services in a conspiratorial light best understood as a reaction to excessive official secrecy and anxieties about an unregulated security service The study is brought up to date with an examination of screen espionage in Britain since the

end of the Cold War The approach is empirical and historical The study examines the production and reception literary and historical contexts of the films and dramas It is the first detailed overview of the British spy screen in its crucial period since the 1960s and provides fresh attention to spy films series and serials never previously considered **Screens** Dominique Chateau, José Moure, 2025-10-01 We live in an era of screens No longer just the place where we view movies or watch TV at night screens are now ubiquitous the source of the majority of information we consume daily and a crucial component of our basic interactions with colleagues friends and family This transformation has happened almost without us realizing it and certainly without the full theoretical and intellectual analysis it deserves Screens brings together scholars from a variety of disciplines to analyse the growing presence and place of screens in our lives today They tackle such topics as the archaeology of screens film and media theories about our interactions with them their use in contemporary art and the new avenues they open up for showing films and other media in non traditional venues **The Oxford History of World Cinema** , 1996-10-17 From its humble beginnings as a novelty in a handful of cities cinema has risen to become a billion dollar industry and the most spectacular and original contemporary art form It has spread to all parts of the globe and is enjoyed by audiences that cut across all sections of society The Oxford History of World Cinema traces the history of this enduringly popular entertainment medium Covering all aspects of its development stars studios and cultural impact the book celebrates and chronicles over one hundred years of diverse achievement from westerns to the New Wave from animation to the Avant Garde and from Hollywood to Hong Kong An international team of distinguished film historians tells the story of the major inventions and developments in the cinema business its institutions genres and personnel other chapters outline the evolution of national cinemas round the world the varied and distinctive filmic traditions that have developed alongside Hollywood A unique aspect of the book are the special inset features on the film makers and personalities Garbo and Godard Keaton and Kurosawa Bugs Bunny and Bergman who have had an enduring impact in popular memory and cinematic lore With over 300 illustrations a full bibliography and an extensive index this is the buff s ultimate guide to cinema worldwide
