rather than attending to African demands for restitution restoration and reparations Noting that empire opposes African sovereignty autonomy and centralisation of power while paradoxically promoting transnational corporations centralisation of power over African economies the book challenges contemporary discourses about shared sovereignty distributed governance heterarchy heteronomy and onticology Arguing that colonialists similarly denied Africans of their human essence the tome problematises queer sexualities homosexuality ecosexuality cybersexuality and humanoid robotic sexuality all of which complicate supposedly fundamental distinctions between human beings and animals and machines Provocatively questioning queer sexuality and liberalised orifices that serve to divert African attention from the more serious unfinished business of repossessing material resources the book insightfully compares Robert Gabriel Mugabe Thomas Sankara and Julius Kambarage Nyerere who emphasised the imperatives of African autonomy ownership control and sovereignty over natural resources Observing Africans interest in repossessing ownership and control over their resources the book wonders why so much queer international attention is focused on foisting queer sexuality while downplaying more burning issues of resource repossession human dignity equality and equity craved by Africans for whom life is not confined to sexuality With insights for scholars in sociology development studies law politics African studies anthropology transformation decolonisation and decoloniality the book argues that liberal democracy is a faade in a world that is actually ruled through criminocracy

A History of Chinese Theatre in the 20th Century III Fu Jin,2021-07-19 The twentieth century was a dynamic period for the theatrical arts in China Booming urban theatres the interaction between commercial practice and theatre dramas staged during the War of Resistance against Japan and a healthy dialogue between Western and Eastern theatres all contributed to the momentousness of this period The four volumes of A History of Chinese Theatre in the 20th Century display the developmental trajectories of Chinese theatre over those hundred years This volume examines national policies developed for the culture industry and practice of Chinese theatre from 1949 to the period of the Great Leap Forward The author highlights the tension between the new nation s principle of letting one hundred flowers bloom and the theatrical industry as a tool for ideological propaganda He argues that the transition from war time conditions to the new social structure of peace time was far from thorough and stable Scholars and students in the history of the arts especially the history of Chinese theatre will find this book to be an essential guide
