Evidence-Based Geriatric Nursing Protocols for Best Practice
Marie Boltz, Marie P. Boltz, Elizabeth Capezuti, Terry T. Fulmer, 2024-09-26 Praise for previous editions The evidence based protocols are designed as a primary reference and are useful substantive and timely The broader contributions of useful format and succinct review of the evidence make it likely that this text will continue to be the leading resource in nursing education and practice The Gerontologist As a gerontological clinical educator research nurse I will often use this as a reference The format and the content are good and the explanations of how to best use the evidence simplify the process of sifting through mountains of information to figure the best practice Score 97 Doodys The result of a collaboration between expert practitioners and educators in geriatric nursing the seventh edition of this acclaimed reference has been updated and revised with new information on chronic conditions and emerging models of care presented in 10 completely new chapters It provides the most current evidence based protocols for improving both quality of care and patient outcomes when caring for older adults in multiple disciplines and settings As in past editions the seventh edition is distinguished by its use of a rigorous systematic method AGREE Appraisal of Guidelines for Research and Evaluation to improve the validity of the book s evidence based content Chapters provide assessment and management principles clinical interventions and information on specialty practice and models of care Included in most chapters are protocols developed for each clinical condition by experts in that specific area Evidence is current and derived from all settings of care including community primary acute and long term care Protocols include an overview and evidence based assessment and intervention strategies Illustrative case studies with discussion are presented in most chapters along with chapter objectives and references with evidence ratings Instructor s resources include an AACN Mapping Grid Course Cartridge Transition Guide PowerPoints and Test Bank New to the Seventh Edition Updated to encompass the latest trends in older adult care chronic conditions and emerging models of care New chapters on care and management of diabetes and respiratory care New chapters on issues surrounding nutrition and dementia and mental illness New chapter on care and comfort at the end of life New chapters on adopting principles of diversity equity and inclusion and an age friendly health system into practice New chapters on models of care in long term community based and primary care Key Features Delivers easy to follow geriatric protocols for best practices Updates evidence regularly to reflect current practice standards Encompasses a broad scope of content including detailed information rarely covered in professional literature Offers case studies and discussions to illustrate application of protocol to practice

Written by renowned leaders in geriatric nursing education and practice Use of AGREE Appraisal of Guidelines for Research and Evaluation to improve the validity of evidence throughout the text AAAS Science Book List, 1978-1986 Kathryn Wolff,Susan M. O'Connell,Valerie J. Montenegro,1986 A selected and annotated list of science and mathematics books which supplements the AAAS science book list 3rd ed 1970 and the AAAS science book list supplement 1978 Psychiatric-Mental Health Guidelines for Advanced Practice Nurses Brenda Marshall,Julie Bliss,Suzanne Drake,2024-11-20 Delivers a breadth of content encompassing all aspects of psych mental health care along the provider continuum This unique clinical reference supports APRNs and PMH NPs as they strive to provide high quality evidence based care to patients with mental health issues and conditions Designed to support the ongoing needs and changing practice requirements of these nursing professionals this new text provides a comprehensive examination of best practice psychiatric methods ethical concerns patient assessment and management strategies These accessible guidelines for clinicians in a variety of settings bring together scientific skills backed by theory and professional knowledge along with helpful recommendations to bolster the clinician s psychiatric skills With an easy to navigate format the book encompasses five distinct sections covering general psychiatric nursing guidelines diagnostic specific procedures and patient treatment planning cultural and other considerations for special populations the administrative basics for establishing an APRN practice and additional topics related to mental health Reflecting expertise from authors versed in varied practice fields and numerous subspecialties the resource combines evidence based practice advanced research and practical humanistic approaches Key Features Provides comprehensive psychiatric mental health guidelines to advanced practice nurses in easy to access format Delivers step by step coverage of conducting psychiatric assessments and making referrals Covers polypharmacy differential diagnosis and patient education Includes coverage of special populations including LGBTQ homeless and indigent veterans and survivors of war and many others **The Nurse Practitioner in Long-term Care** Barbara S. White,Deborah Truax,2007 A comprehensive reference The Nurse Practitioner in Long Term Care covers geriatric care provided by the nurse practitioner in the skilled nursing facility SNF It includes an introduction to nursing homes medication management practical health promotion and disease prevention and management of common clinical conditions specific to the skilled and long term care nursing home settings It also includes topics pertinent to everyday practice such as end of life care pain control and legal and regulatory issues This text is useful in graduate programs for nurse practitioners and clinical nurse specialists as well as for physician s assistant PA students It provides practical guidelines and is an excellent resource book for nurse practitioners and PAs new to nursing home practice or for seasoned professionals A Practical Guide to Geriatric Neuropsychology Susan McPherson,Deborah Koltai,2018-03-01 A Practical Guide to Geriatric Neuropsychology focuses on the skills required in testing and treating the older adult population Topics discussed include normal aging determining competency important factors to consider in conducting clinical interviews the importance of evaluating for depression and substance abuse

screening tools for use in practice cognitive training and intervention and evaluation of the older adult in the workplace This book will be helpful for neuropsychologists interested in testing and providing recommendations for older adults and for psychologists interested in treating older adults *Health Planning Reports: Subject index. 4 v* United States. Health Resources Administration,1978 *Nursing Home Federal Requirements* James E. Allen,2010-11-24 The book lists all the federal requirements that are evaluated by state surveyors during the annual survey visit to nursing homes and for complaint visits The exhibit section contains forms used by surveyors to gather data during the survey visit Visually the format makes the regulations easy to read If nursing home staff used the book to prepare for a survey they would be well prepared Marcia Flesner PhD RN MHCA University of Missouri Columbia From Doody's Review The Federal government together with more than 50 advocacy groups has spent the past 40 years writing and refining the rules and guidelines in this manual This book presents the latest federal guidelines and protocols used by federal surveyors in certifying facilities for participation in Medicare and Medicaid funding It is an essential resource for long term care facilities to have on hand to be ready for a survey at any time It provides information straight from CMS's Internet Only Manual in print and at your fingertips for easy access Divided into four accessible and user friendly parts this manual includes Federal requirements and interpretive guidelines Rules for conducting the survey Summary of the requirements for long term care facilities and surveyors CMS forms commonly used by surveyors This newly updated and revised edition spans every aspect and service of a nursing home and represents the latest requirements to ensure that outstanding quality assurance and risk management programs are in place New to This Edition Section on how to use manual Summarization of federal requirements Updated definitions of Medicare and Medicaid Compliance requirements with Title VI of the Civil Rights Act of 1964 SNF Hospice requirements when SNF serves hospice patients SNF based home health agencies Life safety code requirements Changes in SNF provider status Surveyor qualifications standards Management of complaints and incidents New medical director guidelines

Evidence-Based Geriatric Nursing Protocols for Best Practice Elizabeth Capezuti,DeAnne Zwicker,Terry T. Fulmer,Marie Boltz,Marie P. Boltz,Ardis O'Meara,2011-11-18 Named a 2013 Doody's Core Title The evidence based protocols are designed as a primary reference and are useful substantive and timely The broader contributions of useful format and succinct review of the evidence make it likely that this text will continue to be the leading resource in nursing education and practice The Gerontologist Now more than ever nurses are called upon to lead efforts to embed evidence based practice in daily operations As the IOM report states nurses have key roles to play as team members and leaders for a reformed and better integrated patient centered health care system The process of implementing sweeping change in health care will likely take years however nurses must start pragmatically and focus on these critically important protocols that have demonstrated improved outcomes for older adults Simply stated Pick this book up and use it From the Foreword Susan L Carlson MSN APRN ACNS BC GNP BC FNGNA President National Gerontological Nursing Association As a gerontological clinical educator

research nurse I will often use this as a reference The format and the content are good and the explanations of how to best use the evidence simplify the process of sifting through mountains of information to figure the best practice Score 97 5 Stars

Doody s One of the premier reference books for geriatric nurses in hospital long term and community settings this 4th edition has been thoroughly updated to provide the most current evidence based protocols for care of common clinical conditions and issues in elderly patients Designed to improve the quality outcomes and cost effectiveness of health care these guidelines are the result of collaboration between leading practitioners and educators in geriatric nursing and New York University College of Nursing Protocols for each clinical condition have been developed by experts in that particular area and most have been systematically tested by over 300 participating hospitals in Nurses Improving Care for Health System Elders NICHE Evidence is derived from all levels of care including community primary and long term care A systematic method in compliance with the AGREE appraisal process was used to rate the levels of evidence for each protocol Protocols are organized in a consistent format for ease of use and each includes an overview evidence based assessment and intervention strategies and an illustrative case study with discussion Additionally each protocol is embedded within chapter text which provides the context and detailed evidence for the protocol Each chapter contains resources for further study Key Features Updated to provide a wide range of evidence based geriatric protocols for best practices Contains new chapters on function focused care catheter associated urinary tract infections mistreatment detection acute care models and transitional care Illustrates application of clinical protocols to real life practice through case studies and discussion Edited by nationally known leaders in geriatric nursing education and practice who are endorsed by the Hartford Institute for Geriatric Nursing and NICHE Encompasses the contributions of 58 leading practitioners of geriatric care Written for nursing students nurse leaders and practitioners at all levels including those in specialty roles

Coordinated Service Delivery Systems for the Elderly Ruth Bennett, 1984 Covers the gamut of services delivered to the elderly in the community
