Continuities in Sociological Human Ecology Michael Micklin, Dudley L. Poston, 2013-11-11 The completion of this volume would not have been possible without the generous and dedicated help of numerous people The book had its genesis in a conference held at Cornell University in the fall of 1990 that was organized by Dudley Poston Paul Eberts and Michael Hannan all professors at the time at Cornell With the very generous financial assistance of David Call then the dean of Cornell's College of Agriculture

and Life Sciences Poston Eberts and Hannan put together a two day conference of lectures and papers by human ecologists from Cornell University and elsewhere The conference focused on sociological human ecology and celebrated the fortieth anniversary of the publication of Amos Hawley's Human Ecology Ronald Press 1950 Professor Hawley was the keynote speaker at the conference Many of the authors of the chapters in this volume presented earlier versions at the Cornell conference in 1990 Cornell's Departments of Rural Sociology and Sociology also contributed financial assistance however without Dean Call's very generous support the conference would not have been possible A few months after the conference Poston and Michael Micklin discussed the possibility of asking the various authors of the Cornell conference papers to revise them for publication in a volume on sociological human ecology Many opted to do so but others did not because of time and other kinds of commitments and constraints

Raised Up Down Yonder Angela

McMillan Howell,2013-11-01 *Raised Up Down Yonder* attempts to shift focus away from why black youth are problematic to explore what their daily lives actually entail Howell travels to the small community of Hamilton Alabama to investigate what it is like for a young black person to grow up in the contemporary rural South What she finds is that the young people of Hamilton are neither idly passing their time in a stereotypically languid setting nor are they being corrupted by hip hop culture and the perils of the urban North as many pundits suggest Rather they are dynamic and diverse young people making their way through the structures that define the twenty first century South Told through the poignant stories of several high school students *Raised Up Down Yonder* reveals a group that is often rendered invisible in society Blended families football sagas crunk music expanding social networks and a nearby segregated prom are just a few of the fascinating juxtapositions

individual residential attainments This unifies separate research traditions in the field by joining the analysis of segregation at the aggregate level with the analysis of residential attainments for individuals Next it shows how segregation analysis can be extended by using multivariate attainment models to assess the impact of group membership i e the level of segregation for a city while including controls for other relevant individual characteristics e g income education language nativity etc It then illustrates how one can use these models to quantitatively assess the extent to which segregation traces to impacts of group membership on residential attainments versus other factors such as group differences in income The book then shows how micro level attainment models can be used to study macro level variation in segregation specifically by estimating multi level models of individual residential attainments to assess how the effect of group membership i e segregation index scores vary with city characteristics Finally the book introduces refined versions of popular indices that are free of the vexing problem of upward bias This improves the quality of segregation measurement directly at the level of individual cases and expanding the number of cases that can be safely included in empirical studies White Logic, White Methods Tukufu Zuberi, Eduardo Bonilla-Silva, 2008-05-02 In this collection of essays the authors examine how racial considerations have affected the way social science is conducted how issues are framed and data is analyzed With an assemblage of leading scholars White Logic White Methods explores the possibilities and necessary dethroning of current social research practices and demands a complete overhaul of current methods towards multicultural and pluralist approach to what we know think and question **Family Life in Black America** Robert Joseph Taylor, James S. Jackson, Linda M. Chatters, 1997-08-13 Most studies of Black families have had a problem focus offering a narrow view of important issues such as out of wedlock births single parent families and childhood poverty Family Life in Black America moves away from this negative perspective and instead deals with a wide range of issues including sexuality procreation infancy adulthood adolescence cohabitation parenting grandparenting and ageing A fresh aspect of this book is the amount of diversity it reveals within black families and the forces that shape limit and enhance them Rural Sociology ,2000 **Handbook of Population** Dudley L.
