[A History of States and Economic Policies in Early Modern Europe](#)  
Silvia A. Conca Messina, 2019-04-24. Why was early modern Europe the starting point of the economic expansion which led to the Industrial Revolution? What was the state's role in this momentous transformation? *A History of States and Economic Policies in Early Modern Europe* takes a comparative approach to answer these questions, demonstrating that wars, public finance, and state intervention in the economy were the key elements underlying European economic dynamics of the era. Structured in two parts, the book begins by examining the central issues of the state-economy relationship, including military revolution, the fiscal state, and public finance, mercantilism, the formation of commercial empires, and the economic war between Britain and France in the 1700s. The second part presents a detailed comparison between the different economic policies of the most important European states, looking at their unique demographic, economic, military, and institutional contexts. Taken as a whole, this work provides a valuable analysis of early modern economic history and a picture of Europe's global position on the eve of the Industrial Revolution. This book will be useful to students and researchers of economic history, early modern history, and European history.

[Richard Hakluyt and Travel Writing in Early Modern Europe](#)  
Claire Jowitt, 2016-03-23. *Richard Hakluyt and Travel Writing in Early Modern Europe* is an interdisciplinary collection of 24 essays which brings together leading international scholarship on Hakluyt and his work. Best known as editor of *The Principal Navigations, Voyages, Traffiques, and Discoveries of the Most Famous Sir Walter Raleigh* (1595), Hakluyt was a key figure in promoting English colonial and commercial expansion in the early modern period. He also translated major European travel texts, championed English settlement in North America, and promoted global trade and exploration via a Northeast and Northwest Passage. His work spanned every area of English activity and aspiration, from Muscovy to America, from Africa to the Near East, and from India to China and Japan, providing up-to-date information and establishing an ideological framework for English rivalries with Spain, Portugal, France, and the Netherlands. This volume resituates Hakluyt in the political, economic, and intellectual context of his time. The genre of the travel collection to which he contributed emerged from Continental humanist literary culture. Hakluyt adapted this tradition for nationalistic purposes by locating a purported history of English enterprise that stretched as far back as he could go in recovering antiquarian records. The essays in this collection advance the study of Hakluyt's literary and historical resources, his international connections, and his rhetorical and editorial practice. The volume is divided into 5 sections: Hakluyt's Contexts, Early Modern Travel Writing Collections, Editorial Practice, Allegiances and Ideologies, Politics, Religion, Nation, and

Hakluyt Rhetoric and Writing The volume concludes with an account of the formation and ethos of the Hakluyt Society founded in 1846 which has continued his project to edit travel accounts of trade exploration and adventure
