Creative Teaching for Creative Learning in Higher Music Education Elizabeth Haddon, Pamela Burnard, 2016-05-20 This edited volume explores how selected researchers students and academics name and frame creative teaching and learning as constructed through the rationalities practices relationships events objects and systems that are brought to educational sites and developed by learning communities The concept of creative learning questions the starting points and opens up the outcomes of curriculum and this frames creative teaching not only as a process of learning but as an agent of change Within the book the various creativities that are valued by different stakeholders teaching and studying in the higher music sector are delineated and processes and understandings of creative teaching are articulated both generally in higher music education and specifically through their application within the design of individual modules This focus makes the text relevant to scholars researchers and practitioners across many fields of music including those working in musicology composition performance music education and music psychology The book contributes new perspectives on our understanding of the role of creative teaching and learning and processes in creative teaching across the domain of music learning in higher music education sectors

A Head Start on Science William C. Ritz, 2007-06 For the littlest scientists the whole wide world can be a laboratory for learning Nurture their natural curiosity with A Head Start on Science a treasury of 89 hands on science activities specifically for children ages 3 to 6 The activities are grouped into seven stimulating topic areas the five senses weather physical science critters water and water mixture seeds and nature walks Because the activities have been field tested by more than a thousand Head Start teachers over 10 years you ll find this collection unusually easy to use in a variety of settings including elementary schools pre K programs and day care In addition to clear background and a helpful materials list you get step by step procedures and help preparing for comments and questions children may pose Each activity ends with a reproducible Family Science Connection in both English and Spanish to send

home so the whole family can share a learning experience that's both simple and pleasant. Thanks to a focus on the fun of exploration and discovery, children probably won't be the only ones who find these activities irresistible. As Editor Bill Ritz writes in the Introduction, "We hope your own sense of wonder will be heightened as you observe children and as their curiosity leads them to answer their own questions about everything they see, hear, smell, and touch."
