Learning Objective

Students reflect on the past school year before generating ideas for the kind of learning community and learning experiences they want to have this year. When students believe that they have agency over their learning experiences and are being taken seriously by their teacher, they feel valued and respected. This is

Individual and Organizational Vulnerability and Resilience Factors in the COVID-19 Pandemic Barbara Hildegard Juen,Eva-Maria Kern,Sigridur Thormar,2023-10-23 Vulnerability and resilience are concepts that have long been treated as individual and contradicting topics In recent times we have seen that vulnerabilities and resilience can go hand in hand and that vulnerabilities cannot be conceptualized only in simple terms because intersectionality must be considered as well as social organizational and systemic aspects and processes One example is that women are more vulnerable higher values in nearly all stress related measures in the COVID 19 pandemic This finding has to be analyzed from an intersectional perspective because socio economic factors cultural factors exposure to COVID 19 and the type of occupation e g healthcare sector frontline workers play an important role in how vulnerable or resilient women can be in a given society The large number of studies on COVID 19 vulnerabilities makes it necessary to take a closer look at the resilience factors that often go hand in hand with potential vulnerabilities As we see in the literature about pandemics in general and COVID 19 there are some individual organizational and systemic vulnerabilities that can be found in all pandemics From that we can assume that there will be resilience factors within the same concepts that may buffer vulnerabilities
