Caruso, 2021-01-14 The concept of free will is profoundly important to our self understanding our interpersonal relationships and our moral and legal practices If it turns out that no one is ever free and morally responsible what would that mean for society morality meaning and the law Just Deserts brings together two philosophers Daniel C Dennett and Gregg D Caruso to debate their respective views on free will moral responsibility and legal punishment In three extended conversations Dennett and Caruso present their arguments for and against the existence of free will and debate their implications Dennett argues that the kind of free will required for moral responsibility is compatible with determinism for him self control is key we are not responsible for becoming responsible but are responsible for staying responsible for keeping would be puppeteers at bay Caruso takes the opposite view arguing that who we are and what we do is ultimately the result of factors beyond our control and because of this we are never morally responsible for our actions in the sense that would make us truly deserving of blame and praise punishment and reward Just Deserts introduces the concepts central to the debate about free will and moral responsibility by way of an entertaining rigorous and sometimes heated philosophical dialogue between two leading thinkers
