Privilege Through the Looking-Glass Patricia Leavy, 2017-10-10 Privilege Through the Looking Glass is a collection of original essays that explore privilege and status characteristics in daily life This collection seeks to make visible that which is often invisible It seeks to sensitize us to things we have been taught not to see Privilege power oppression and domination operate in complex and insidious ways impacting groups and individuals And yet these forces that affect our lives so deeply seem to at once operate in plain sight and lurk in the shadows making them difficult to discern Like water to a fish environments are nearly impossible to perceive when we are immersed in them This book attempts to expose our environments With engaging and powerful writing the contributors share their personal stories as a means of connecting the personal and the public This volume applies an intersectional perspective to explore how race class gender sexuality education and ableness converge creating the basis for privilege and oppression Privilege Through the Looking Glass encourages readers to engage in self and social reflection and can be used in a range of courses in sociology social work communication education gender studies and African American studies Each chapter includes discussion questions and or activities for further engagement Privilege Through the Looking

The Law of the Looking Glass Sheila Skaff, 2008. The Law of the Looking Glass Cinema in Poland 1896-1939 reveals the complex relationship between nationhood, national language and national cinema in Europe before World War II. Author Sheila Skaff describes how the major issues facing the region before World War I, from the relatively slow pace of modernization to the desire for national sovereignty, shaped local practices in film production, exhibition and criticism. She goes on to analyze local film production practices, of spectatorship in large cities and small towns, clashes over language choice in intertitles and controversy surrounding the first synchronized sound experiments before World War I. Skaff depicts the creation of a national film industry in the newly independent country, the golden years of the silent cinema, the transition from silent to sound film and debates in the press over this transition as well as the first Polish and Yiddish talkies. She places particular importance on conflicts in majority-minority relations in the region and the types of collaboration that led to important films such as *The Dybbuk* and *The Ghosts*. The Law of the Looking Glass Cinema in Poland 1896-1939 is the first comprehensive history of the country's film industry before World War II. This history is characterized by alternating periods of multilingual, multiethnic production on the one hand and rejection of such inclusiveness on the other. Through it all, however, runs a single unifying thread: an appreciation for visual imagery.
