By: Aurelio Locsin

Updated September 26, 2017

Text produced at the office used to come only from careful penmanship or fast typing. This required much care in creating a document and much time when corrections were needed. Today, business text is easy to change and quick to produce because of word processing software and computers, both of which

of the thinking of the computer scientists and the electronic engineers On the contrary she insisted that she was an educated woman dealing with other educated people and that they would all speak in the language of everyday discourse It worked One consequence of her experience and her thought is this remarkably lucid and readable book It will prove to be of immense value to many in the world of adult and community education But the beneficiaries will run beyond those sectors of society Other people with a nonscience nonquantitative background will surely find it of immense value in their early inevitably hesitant and faulty grappling with the world of new technology *New York Court of Appeals.
