Looking Back And Forth Reflections Of An Old Fashioned Doctor:

Looking Back (and Forth) Herbert L. Fred, 2003 **Automate This** Christopher Steiner, 2012-08-30 The rousing story of the last gasp of human agency and how today's best and brightest minds are endeavoring to put an end to it. It used to be that to diagnose an illness, interpret legal documents, analyze foreign policy or write a newspaper article, you needed a human being with specific skills and maybe an advanced degree or two. These days, high-level tasks are increasingly being handled by algorithms that can do precise work not only with speed but also with nuance. These bots started with human programming and logic but now their reach extends beyond what their creators ever expected. In this fascinating, frightening book, Christopher Steiner tells the story of how algorithms took over and shows why the bot revolution is about to spill into every aspect of our lives, often silently without our knowledge. The May 2010 Flash Crash exposed Wall Street's reliance on trading bots to the tune of a 998-point market drop and 1 trillion in vanished market value. But that was just the beginning. In **Automate This**, we meet bots that are driving cars, penning haiku and writing music mistaken for Bach's. They listen in on our customer service calls and figure out what Iran would do in the event of a nuclear standoff. There are algorithms that can pick out the most cohesive crew of astronauts for a space mission or identify the next Jeremy Lin. Some can even ingest statistics from baseball games and spit out pitch-perfect sports journalism indistinguishable from that produced by humans. The interaction of man and machine can make our lives easier. But what will the world look like when algorithms control our hospitals, our roads, our culture, and our national security? What happens to businesses when we automate judgment and eliminate human instinct? And what role will be left for doctors, lawyers, writers, truck drivers, and many others? Who knows, maybe there's a bot learning to do your job this minute. **American Book Publishing Record**, 2003 **Forthcoming Books** Rose Arny, 2003 *Reflections of Becca* Lynda Trent, 1993 *Reflections Of Becca* by Lynda Trent released on Dec 25 1992 is available now for purchase **Women in Medicine** Anne Walling, 2025-06-30 In telling the history of women in medicine, the pioneers, especially the turbulent ones, are rightly remembered and celebrated in books, articles, memorials, awards, names of buildings and organizations, even in stone statues and memorials. In contrast, the generation who began the transition from minority status to the current numerical equity are seldom memorialized, yet without the efforts of these few determined women in what was unambiguously a male profession, the achievements of these pioneers could easily have withered. This book is written to celebrate this unique generation of women who entered medicine between the Second World War and the early 1970s, determined women who just wanted to be doctors but ended up fundamentally changing the profession. Utilizing oral histories from 37 women who became physicians between 1948 and 1975, these women tell their stories in their own words and provide a valid picture of their experiences throughout their careers that has much resonance for those entering or practicing medicine today. *Women in Medicine: Stories from the Girls in White* will be of interest to all health professionals or those considering entering health professions, particularly women and their advisers and supporters.
