stagnate and created an appetite amongst the populace for solutions to help mitigate the negative effects of an unrestrained and increasingly plutocratic form of capitalism. This appetite gave rise to a popular new literary genre: the utopian socialist novel, of which *Looking Backward* is arguably one of the most famous examples. It is the story of young Julian West, who is induced by hypnosis into a deep 113-year sleep. When he awakes in the year 2000, he finds that America has been transformed into a socialist utopia. Upon waking, West readily encounters Doctor Leete, who explains to him what has transpired since he has slept. Society, through a combination of technological advancement and the nationalization of the productive capacity of the United States, has become a world in which people work together in mutual cooperation and harmony. *Looking Backward* was one of the best-selling novels of the 19th century, one which would inspire a large number of people to promote more socialistic public policies. This edition is printed on premium acid-free paper and includes an introduction by Sylvester Baxter.      *Looking Backward, 2000 to 1887: A Quick Read edition* Quick Read, Edward Bellamy, 2024-02-16. It quickly became a bestseller, with over a million copies sold in its first years. The book influenced intellectuals and sparked a political mass movement known as Nationalism. The story follows Julian West, who falls into a deep sleep in the 19th century and wakes up in the year 2000 to find a transformed socialist utopia. The novel explores themes of capitalism, nationalization of industry, and free cultural production. Bellamy's work was compared to actual economic and technological developments of the time. It had a significant impact on literature, politics, and urban planning, inspiring sequels, parodies, and debates. *Looking Backward* remains influential and has been translated into multiple languages.      *Looking Backward 2000 to 1887 (Large Print)* Edward Bellamy, 2014-09-12. I first saw the light in the city of Boston in the year 1857. What you say, eighteen fifty-seven? That is an odd slip. He means nineteen fifty-seven, of course. I beg pardon, but there is no mistake. It was about four in the afternoon of December the 26th, one day after Christmas in the year 1857, not 1957, that I first breathed the east wind of Boston, which I assure the reader was at that remote period marked by the same penetrating quality characterizing it in the present year of grace 2000. These statements seem so absurd on their face, especially when I add that I am a young man, apparently of about thirty years of age, that no person can be blamed for refusing to read another word of what promises to be a mere imposition upon his credulity. Nevertheless, I earnestly assure the reader that no imposition is intended and will undertake, if he shall follow me a few pages, to entirely convince him of this. If I may then provisionally assume, with the pledge of justifying the assumption, that I know better than the reader when I was born, I will go on with my narrative. As every schoolboy knows, in the latter part of the nineteenth century, the civilization of to-day or anything like it did not exist, although the elements which were to develop it were already in ferment. Nothing had, however, occurred to modify the immemorial

division of society into the four classes or nations as they may be more fitly called since the differences between them were far greater than those between any nations nowadays of the rich and the poor the educated and the ignorant I myself was rich and also educated and possessed therefore all the elements of happiness enjoyed by the most fortunate in that age Living in luxury and occupied only with the pursuit of the pleasures and refinements of life I derived the means of my support from the labor of others rendering no sort of service in return My parents and grand parents had lived in the same way and I expected that my descendants if I had any would enjoy a like easy existence
