Tobacco Among the Karuk Indians of California John Peabody Harrington, 1932 **The Land of Stories: Beyond the Kingdoms** Chris Colfer, 2015-07-07 Fairy tales are just the beginning The Masked Man is on the loose in the Land of Stories and it s up to Alex and Conner Bailey to stop him except Alex has been thrown off the Fairy Council and no one will believe they re in danger With only the help of the ragtag group of Goldilocks Jack Red Riding Hood and Mother Goose and her

gander Lester the Bailey twins discover the Masked Man's secret scheme He possesses a powerful magic potion that turns every book it touches into a portal and he is recruiting an army of literature's greatest villains So begins a race through the magical Land of Oz the fantastical world of Neverland the madness of Wonderland and beyond Can Alex and Conner catch up to the Masked Man or will they be one step behind until it's too late Fairy tales and classic stories collide in the fourth adventure in the bestselling Land of Stories series as the twins travel beyond the kingdoms

**Women and Magic in Medieval Romance** Jane Elizabeth Bonsall, 2025-04-08 Explores the conventions and contradictions inherent in archetypes of magical femininity from loathly ladies to monstrous mothers in a range of popular late medieval English romances The female characters in Middle English romances with particular power and agency are often portrayed as supernatural possessing either magical abilities or identities This book argues that a genre focused reading of these supernatural women reveals romance's strategies for working through and articulating anxieties about the changing world of the late medieval period as well as exposing their contemporary audiences unexpectedly flexible attitudes toward feminine authority and moral ambiguity It explores five distinct types of magical femininity the Tristan tradition's marvelously gifted healers the Muslim princess in Bevis of Hampton the endlessly wealthy fairy imagined by Sir Launfal and Partonope of Blois the monster mother Melusine and Morgan le Fay the prototypical witch By tracking the way each type first establishes then complicates generic patterns this study highlights the tension between romance's persistent fascination with feminine power and its simultaneous reiteration of the social and generic bounds on women's agency and authority Interrogating generic expectations from an intersectional feminist perspective it makes a case for a recuperative re-reading of romance one that asks us to revise our assumptions about the potentialities of women's power in the medieval imaginary

*Our Old Monsters* Brenda S. Gardenour Walter, 2015-07-22 The witch the vampire and the werewolf endure in modern horror These old monsters have their origins in Aristotle as studied in the universities of medieval Europe where Christian scholars reconciled works of natural philosophy and medicine with theological precepts They codified divine perfection as warm light male and associated with the ethereal world beyond the moon while evil imperfection was cold dark female and bound to the corrupt world below the moon All who did not conform to divine goodness including unholy women and Jews were considered evil and ascribed a melancholic blood hungry and demonic physiology This construct was the basis for anti woman and anti Jewish discourse that has persisted through modern Western culture Nowhere is this more evident than in horror films where the witch the vampire and the werewolf represent our fear of the inverted other

**In the Image: A Novel** Dara Horn, 2003-09-17 A young woman's coming of age a romantic love story and a spiritual journey each infused with the lessons of history In the Image is an extraordinary first novel illuminated by spiritual exploration one that remembers a language a literature a held hand an entire world lived and breathed in the image of God Bill Landsmann an elderly Jewish refugee in a New Jersey suburb with a passion for travel is

obsessed with building his slide collection of images from the Bible that he finds scattered throughout the world The novel begins when he crosses paths with his granddaughter's friend Leora and continues by moving forward through her life and backward through his revealing the unexpected links between his family's past and her family's future Not just a first novel but a cultural event a wedding of secular and religious forms of literature In the Image neither lives in the past nor seeks to escape it but rather assimilates it in the best sense of the word honoring what is lost and finding among the lost things the treasures that can renew the present Reading group guide included *The Lever of Riches* Joel Mokyr,1992-04-09 In a world of supercomputers genetic engineering and fiber optics technological creativity is ever more the key to economic success But why are some nations more creative than others and why do some highly innovative societies such as ancient China or Britain in the industrial revolution pass into stagnation Beginning with a fascinating concise history of technological progress Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome What emerges from this survey is often surprising the classical world for instance was largely barren of new technology the relatively backward society of medieval Europe bristled with inventions and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution What were the causes of technological creativity Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas He discusses a long list of such factors showing how they interact to help or hinder a nation's creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution He examines such aspects as the role of the state the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned large ocean going vessels the impact of science as well as religion politics and even nutrition He questions the importance of such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs Today an ever greater number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity The Lever of Riches with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential **The Witches of Lorraine** Robin Briggs,2007 Based on the richest archive of witchcraft trials found in Europe this book paints a vivid picture of life amongst the people of a small duchy on the border of France Robin Briggs examination of their beliefs in phenomena such as shapeshifting and werewolves proves a vital contribution to historical understanding of witchcraft Kerruish's New Illustrated Guide to the Isle of Man Thomas Booth,1850 Jung on Ignatius of Loyola's Spiritual Exercises C. G.

Jung, 2025-07-29 Jung's lectures on the psychology of Jesuit spiritual practice unabridged in English for the first time Between 1933 and 1941 C G Jung delivered a series of public lectures at the Swiss Federal Institute of Technology ETH in Zurich Intended for a general audience these lectures addressed a broad range of topics from yoga and meditation to dream analysis and the psychology of alchemy Here for the first time are Jung's complete lectures on Ignatius of Loyola's Spiritual Exercises delivered in the winter of 1939-1940 These illuminating lectures are the culmination of Jung's investigation into traditional forms of meditation and their parallels to his psychotherapeutic method of active imagination Jung presents Loyola's exercises as the prime example of a Christian practice comparable to yoga and Eastern meditation and gives a psychological interpretation of the visions depicted in the saint's autobiographical writings Offering a unique opportunity to encounter the brilliant psychologist as he shares his ideas with the general public the lectures reflect Jung's increasingly positive engagement with Roman Catholicism a development that would lead to his fruitful collaborations after the war with eminent Catholic theologians such as Victor White Bruno de Jesus Marie and Hugo Rahner Featuring an authoritative introduction by Martin Liebscher along with explanations of Jungian concepts and psychological terminology this splendid book provides an invaluable window on the evolution of Jung's thought and a vital key to understanding his later work

Shepherd's Awakening Pablo Andrés Wunderlich Padilla, The enemy has infiltrated the empire and gained enough political and military influence to subvert it from within The venom of darkness spills from the heart of the kingdom Politicians and civilians alike have been tamed and subdued rendered incapable of recognizing right from wrong good from evil Evil spreads like a terminal disease unchallenged unhindered and unrestrained In a small village on the outskirts of the kingdom an innocent young shepherd tends to his sheep and helps on the family farm His family's estate is hastening toward economic ruin due to the untimely death of his grandfather It all falls on him to honor his family's legacy When the young shepherd sets off on a seemingly dull journey to a nearby village he encounters a terrible darkness His quest will become an epic battle of survival love and ultimate sacrifice As he accepts the call to arms his innocence will be lost He must save his country and awaken his people from slumber Will he be in time to save them all **The History of Witchcraft in Europe**
