Rhodes,Susan Hodggett,2021-01-05 This book asks what are the implications of blurring genres for the discipline of Political Science and for Area Studies It argues novelists and playwrights provide a better guide for political scientists than the work of physicists It restates the intrinsic value of the Humanities and Social Sciences and builds bridges between the two territories The phrase blurring genres covers both genres of thought and of presentation Genres of thought refers to such theoretical approaches as post structuralism cultural studies and especially interpretive thought Part 1 explores genres of thought focusing on the use of narratives Specific examples include the narratives of post truth political cultures narratives in Canadian general elections autoethnography as a new research tool and novels as a way of understanding economic development Part 2 emphasises genres of presentation and focuses on the visual arts The chapters cover photography in British political history the architecture of American statehouses and city halls design comics and using the creative arts to improve policy practice This book is interdisciplinary and should have an appeal beyond political science

to area studies specialists and others in the humanities It is an advanced text so it is aimed primarily at academics and postgraduates Proceedings ,1994 Power Surge Ben Bova,2015-08-11 Six time Hugo winner Ben Bova brings us *Power Surge* a gripping political thriller on the cutting edge of science and technology Dr Jake Ross came to Washington D C to make a difference As the science advisor to a newly elected freshman senator Jake has crafted a comprehensive energy plan that employs innovative new technologies to make America the world s leader in energy production while simultaneously boosting the economy and protecting the environment The facts and the science are on Jake s side but his plan soon runs afoul of entrenched special interests well funded lobbies cynical bureaucrats pork barrel politics and one very powerful U S Senator To keep his plan alive and secure a sustainable future for America Jake needs a crash course in the way Washington really works Everyone keeps telling him that his plan has no hope of succeeding but Jake is determined to prove them wrong even if it kills him something that certain hostile parties may be all too happy to arrange At the Publisher s request this title is being sold without Digital Rights Management Software DRM applied *San Representation* Keyan Tomaselli,Michael Wessels,2017-12-22 The San or Bushmen of southern Africa have exerted a fascination over generations of writers and scholars from novelists and anarchists to ethnologists and geneticists and also occupy a special place in the popular imagination as the First People and the contemporary remnant of spiritual and natural man The ways in which particular groups of people from southern Africa have been traditionally categorised and positioned as objects of scrutiny by a range of academic disciplines is increasingly being contested and questioned There is a growing awareness of the cultural economic and genetic entanglement of the peoples of the region This book examines how San and Khoe people are represented by others as well as by those who identify as San or Khoe The book interrogates the ways in which disciplines through their methodologies and ways of authorising knowledge not only discover or reveal knowledge but produce it in ways that involve complex and often ambiguous relationships with power structures and forms of intellectual symbolic and cultural capital One major trend that emerges is that the San and Khoe can no longer be seen as people of the past but have to be acknowledged as contemporary and socially situated individuals and communities who are increasingly contesting the representations which others have imposed on them This book was originally published as a special issue of *Critical Arts A Journal of South North Cultural and Media Studies* **Theosophical Outlook** ,1918
