perception of Gentile's portraits and finally takes us step by step through the works of Giovanni where fantasy combines with the play of colour and light in creating compositions devotional images and landscape settings of perfect harmony and beauty

Italian Renaissance Painting James H. Beck, 1999 This up to date survey of the finest moments in Western painting from Masaccio through Michelangelo and Titian covers some fifty artists and their work and includes 450 color illustrations Beck divides the period into three generations covering over one hundred years The art is then distinguished between a more lyric or a more monumental vision thereby giving a framework for the study and appreciation of the complex but rewarding material which has formed the basis of painting ever since Attention is given to the lives of the artists in addition to their works set in the historical context The book is accompanied by a bibliography and a glossary as well as an index for easy reference From publisher's description **Library Catalog of the Metropolitan Museum of Art, New York** Metropolitan Museum of Art (New York, N.Y.).
