Louis Sue Architectures:

Louis Süe Susan Day,1986 *Louis Sue* Susan Day,1986 **Encyclopedia of Interior Design** Joanna Banham,1997-05 First published in 1997 Routledge is an imprint of Taylor Francis an informa company **Louis I. Kahn's Jewish Architecture** Susan G. Solomon,2015-05-01 In 1961 famed architect Louis I Kahn 1901 1974 received a commission to design a new synagogue His client was one of the oldest Sephardic Orthodox congregations in the United States Philadelphia s Mikveh Israel Due to the loss of financial backing Kahn s plans were never realized Nevertheless the haunting and imaginative schemes for Mikveh Israel remain among Kahn s most revered designs Susan G Solomon uses Kahn s designs for Mikveh Israel as a lens through which to examine the transformation of the American synagogue from 1955 to 1970 She shows how Kahn wrestled with issues that challenged postwar Jewish institutions and evaluates his creative attempts to bridge modernism and Judaism She argues that Kahn provided a fresh paradigm for synagogues one that offered innovations in planning decoration and the incorporation of light and nature into building design *The Visual Dictionary of Interior Architecture and Design* Michael Coates,Graeme Brooker,Sally Stone,2009-01-29 A guide to the many and varied terms used frequently within interior architecture and design *Archives d'architecture du XXe siècle* Institut français d'architecture,1991 *1st International Symposium 'Education in Interior Architecture' in the Year of German-Turkish Research, Education and Innovation* Pelin Yildiz,2016-06-22 This volume presents a multifaceted analysis of joint collaboration in German and Turkish institutes in the field of interior architecture It explores the importance of increasing and diversifying such joint endeavours and of ensuring the long term collaboration of the governments in both countries by giving support to high quality young scientists It also stresses the pivotal role to be played by binary collaboration between science and education As such the book will serve to build and strengthen the cooperative facilities between Germany and Turkey on behalf of research education and innovative studies In addition it discusses how future studies in this area can attract potential students through integrated studies hosted by both Germany and Turkey *The Design Encyclopedia* Mel Byars,2004 Design has an increasingly high profile figures like Philippe Starck are as venerated and well known as more traditional artists But where the literature on fine art is vast design is still comparatively ill served This encyclopedia provides an account of the still largely unknown story of design **The Musical Work of Nadia Boulanger** Jeanice Brooks,2013-04-25 Nadia Boulanger composer critic impresario and the most famous composition teacher of the twentieth century was also a performer of international repute Her concerts and recordings with her vocal ensemble introduced audiences on both sides of the Atlantic to unfamiliar historical works and new compositions This book considers how gender shaped the possibilities that marked Boulanger s performing career tracing her meteoric rise as a conductor in the 1930s to origins in the classroom and the salon Brooks investigates Boulanger s promotion of structurally motivated performance styles showing how her ideas on performance of historical repertory and new music relate to her teaching of music analysis

and music history The book explores the way in which Boulanger's musical practice relied upon her understanding of the historically transcendent masterwork in which musical form and meaning are ideally joined and shows how her ideas relate to broader currents in French aesthetics and culture The Architects: Louis Kahn Charles L. Mee Jr., 2018-03-21 Louis Kahn's monolithic buildings defied convention and defined an era Like the architect himself his structures were both complex and simplistic expressing an underlying strength while displaying a singularly bold vision Here in this short form book by award winning author Charles L Mee Jr is Kahn's extraordinary story *A History of Interior Design* John F. Pile, 2005 Delivers the inside story on 6 000 years of personal and public space John Pile acknowledges that interior design is a field with unclear boundaries in which construction architecture the arts and crafts technology and product design all overlap

Louis I Khan Beyond Time and Style Carter Wiseman, 2007-02-27 The first in depth biographical study of the brilliant but elusive architect who fundamentally redefined twentieth century architecture Now ranked with Frank Lloyd Wright Le Corbusier and Mies van der Rohe Louis I Kahn brought a reverence for history back into modern architecture while translating it into a uniquely contemporary idiom Drawing on more than one hundred interviews with colleagues coworkers clients and family members and illustrated with many previously unpublished photographs this book documents the uniquely American rise of a poor immigrant to the pinnacle of the international architectural world It illuminates the richly diverse personal relationships Kahn had with such clients as Jonas Salk and Paul Mellon and the romantic entanglements that mystified even those closest to him While celebrating the genius of Kahn's art the book provides an invaluable portrait of the man who created it *Journal of the American Institute of Architects*, 1920 *You Say to Brick* Wendy Lesser, 2017-03-14 Born in Estonia 1901 and brought to America in 1906 the architect Louis Kahn grew up in poverty in Philadelphia By the time of his mysterious death in 1974 he was widely recognized as one of the greatest architects of his era Yet this enormous reputation was based on only a handful of masterpieces all built during the last fifteen years of his life Wendy Lesser's *You Say to Brick* The Life of Louis Kahn is a major exploration of the architect's life and work Kahn perhaps more than any other twentieth century American architect was a public architect Rather than focusing on corporate commissions he devoted himself to designing research facilities government centers museums libraries and other structures that would serve the public good But this warm captivating person beloved by students and admired by colleagues was also a secretive man hiding under a series of masks Kahn himself however is not the only complex subject that comes vividly to life in these pages His signature achievements like the Salk Institute in La Jolla the National Assembly Building of Bangladesh and the Indian Institute of Management in Ahmedabad can at first seem as enigmatic and beguiling as the man who designed them In attempts to describe these structures we are often forced to speak in contradictions and paradoxes structures that seem at once unmistakably modern and ancient enormous built spaces that offer a sense of intimate containment designs in which light itself seems tangible a raw material as tactile as travertine or Kahn's beloved concrete This is where Lesser's talents as

one of our most original and gifted cultural critics come into play Interspersed throughout her account of Kahn's life and career are exhilarating in situ descriptions of what it feels like to move through his built structures Drawing on extensive original research lengthy interviews with his children his colleagues and his students and travel to the far flung sites of his career defining buildings Lesser has written a landmark biography of this elusive genius revealing the mind behind some of the twentieth century's most celebrated architecture

Art Deco and Modernist Carpets Susan Day, 2002-10 In 1927 the critic Rene Chavance identified carpet production as the most successful of the decorative arts in achieving the more visionary aims of the times Susan Day's book a work of original scholarship accompanied throughout by illustrations both of the carpets themselves and of contemporary interiors demonstrates that these Art Deco carpets have lost none of their decorative power A significant number of the carpets are shown precisely as they were meant to be seen within the rooms for which they were made The fruits of the remarkable Art Deco efflorescence throughout Europe form the first part of the book In the second the focus turns to the reaction against the artistes decorateurs by the champions of modernism In France the designs of Sonia Delaunay Eileen Gray and Jean Lurcat evoked collage and Cubism the Bauhaus and Scandinavia provided different influences The fashion for abstract and modernist rugs was further stimulated by limited editions of rugs woven from works by such artists as Picasso Klee and Miro while in the USA designers developed a style that was distinctly American This visual feast of appeal not only to carpet collectors and textile specialists but to anyone with an interest in 20th century design ranges from the supremely imaginative achievements of Paul Poiret's unique weaving studio the Ecole Martine to the Scandinavian folk traditions of Marta Maas Fjetterstrom the innovations of Frank Lloyd Wright and Donald Deskey in the USA and Gunta Stolzl's handwoven carpets in Germany The book's invaluable reference section includes detailed information on artists manufacturers and retailers their signatures and monograms and a glossary and bibliography

Book Jacket **The Notebooks and Drawings of Louis I. Kahn**, 2005 **The Studio**, 1925 **Contemporary Architects** Muriel Emanuel, 2016-01-23 *Louis Kahn's Situated Modernism* Sarah Williams Goldhagen, Sarah Goldhagen Williams, Louis I. Kahn, 2001-01-01 She demonstrates instead that Kahn's architecture is grounded in his deeply held modernist political social and artistic ideals which guided him as he sought to rework modernism into a socially transformative architecture appropriate for the postwar world

Hut Pavilion Shrine: Architectural Archetypes in Mid-Century Modernism Miles David Samson, 2016-03-09 The phase of American architectural history we call mid century modernism 1940 1980 saw the spread of Modern Movement tenets of functionalism social service and anonymity into mainstream practice It also saw the spread of their seeming opposites Temples arcades domes and other traditional types occur in both modernist and traditionalist forms from the 1950s to the 1970s Hut Pavilion Shrine examines this crossroads of modernism and the archetypal and critiques its buildings and theory The book centers on one particularly important and omnipresent type the pavilion a type which was the basis of major work by Louis I Kahn Paul Rudolph Philip Johnson Minoru

Yamasaki and other eminent architects While focusing primarily on the architecture culture of the United States it also includes the work of British European Team X and Scandinavian designers and writers Making connections between formal analysis historical context and theory the book continues lines of inquiry which have been pursued by Neil Levine and Anthony Vidler on representation and by Sarah Goldhagen and Alice Friedman on modernism s forbidden elements of the honorific and the visually pleasurable It highlights the significance of pavilionizing mid century designers such as Victor Lundy John Johansen Eero Saarinen and Edward Durrell Stone and shows how frequently essentialist and traditionalist types appeared in the roadside vernacular of drive in restaurants gas stations furniture and car showrooms branch banks and motels The book ties together the threads in mid century architectural theory that addressed aspects of type essential structure and primal humanistic aspects of environment making and discusses how these concerns outlived the mid century moment and in the designs and writings of Aldo Rossi and others they paved the way for Post Modernism
