The Greenwood Encyclopedia of Homes through World History James M. Steele,2009-03-30 The house throughout history in every place in the world has been built to provide shelter from the elements The dwellings that have resulted are as different as the people that have built them the social norms that prevailed at the time and place in which they were built and the natural environment that they adapted to

Studying them now in a comprehensive way allows us to understand the social political economic and religious conditions that existed for their inhabitants They are a three dimensional record of culture Twenty four pages of color images along with black and white images through three volumes illustrate the homes of people throughout the world The volumes cover ancient times to the late Middle Ages the Renaissance to the Industrial Revolution and the Post Industrial Revolution to the Present

The Architect as Magician Albert C. Smith, Kendra Schank Smith, 2020-05-07 The Architect as Magician explores the connection between magic and architecture There is a belief that a greater understanding of the meaning of magic provides insights about architecture and architects design processes Architects influence the effects of nature through the making of their buildings In an analogous condition magicians perform rituals in an attempt to influence the forces of nature This book argues that architects could gain much by incorporating ideas from magic into their design process The book demonstrates through historical and current examples the important influence magic has had on the practice of architecture The authors explain how magic helps us to understand the way we infuse architecture with meaning and how magic affects and inspires architectural creation Aimed at architects students scholars and researchers The Architect as Magician helps readers discover the ambiguous and spiritual elements in their design process

Twenty Buildings Every Architect Should Understand Simon Unwin, 2010-02-25 Have you ever wondered how the ideas behind the world s greatest architectural designs came about What process does an architect go through to design buildings which become world renowned for their excellence This book reveals the secrets behind these buildings He asks you to read the building and understand its starting point by analyzing its final form Through the gradual revelations made by an understanding of the thinking behind the form you learn a unique methodology which can be used every time you look at any building
