Gregersen Aia Ncarb, 2013 Although the world famous architect Louis Sullivan praised John Edelmann at length as a friend philosopher gifted draftsman and above all as his benefactor in his *The Autobiography of an Idea* he avoided any mention of having worked for two years as an apprentice in Edelmann's architectural office and the influence that experience obviously had on his future work This book corrects that deficiency in Sullivan's narrative Through a comparison of their buildings and ornamental designs the differences in the approaches of these two men to architectural planning and the debt Sullivan owed

to Edelman's unique ornamental style in the development of his own world renowned ornament is demonstrated Edelman is also revealed as the young architect who not only took Sullivan on as an apprentice but in time introduced him to his future partner Dankmar Adler only to be betrayed in the end by Sullivan for having done so **Louis Sullivan** Robert C. The Architecture of Use Stephen Grabow, Kent Spreckelmeyer, 2014-10-03 By analyzing ten examples of buildings that embody the human experience at an extraordinary level this book clarifies the central importance of the role of function in architecture as a generative force in determining built form Using familiar twentieth century buildings as case studies the authors present these from a new perspective based on their functional design concepts Here Grabow and Spreckelmeyer expand the definition of human use to that of an art form by re evaluating these buildings from an aesthetic and ecological view of function Each building is described from the point of view of a major functional concept or idea of human use which then spreads out and influences the spatial organization built form and structure In doing so each building is presented as an exemplar that reaches beyond the pragmatic concerns of a narrow program and demonstrates how functional concepts can inspire great design evoke archetypal human experience and help us to understand how architecture embodies the deeper purposes and meanings of everyday life
