Love And Marriage In Late Medieval London:

Love & Marriage in Late Medieval London, 1995-05-01 Depositions or testimony in marriage cases brought before fifteenth century English church courts reveal the attitudes and feelings of medieval people towards the marital bond

Marriage, Sex, and Civic Culture in Late Medieval London Shannon McSheffrey, 2013-04-23 Awarded honorable mention for the 2007 Wallace K Ferguson Prize sponsored by the Canadian Historical Association How were marital and sexual relationships woven into the fabric of late medieval society and what form did these relationships take Using extensive documentary evidence from both the ecclesiastical court system and the records of city and royal government as well as advice manuals chronicles moral tales and liturgical texts Shannon McSheffrey focuses her study on England's largest city in the second half of the fifteenth century Marriage was a religious union one of the seven sacraments of the Catholic Church and imbued with deep spiritual significance but the marital unit of husband and wife was also the fundamental domestic social political and economic unit of medieval society As such marriage created political alliances at all levels from the arena of international politics to local neighborhoods Sexual relationships outside marriage were even more complicated McSheffrey notes that medieval Londoners saw them as variously attributable to female seduction or to male lustfulness as irrelevant or deeply damaging to society and to the body politic as economically productive or wasteful of resources Yet like marriage sexual relationships were also subject to control and influence from parents relatives neighbors civic officials parish priests and ecclesiastical judges Although by medieval canon law a marriage was irrevocable from the moment a man and a woman exchanged vows of consent before two witnesses in practice marriage was usually a socially complicated process involving many people McSheffrey looks more broadly at sex governance and civic morality to show how medieval patriarchy extended a far wider reach than a father's governance over his biological offspring By focusing on a particular time and place she not only elucidates the culture of England's metropolitan center but also contributes generally to our understanding of the social mechanisms through which premodern European people negotiated their lives

Household Goods and Good Households in Late Medieval London Katherine L. French, 2021-08-20 The Black Death that arrived in the spring of 1348 eventually killed nearly half of England's population In its long aftermath wages in London rose in response to labor shortages many survivors moved into larger quarters in the depopulated city and people in general spent more money on food clothing and household furnishings than they had before Household Goods and Good Households in Late Medieval London looks at how this increased consumption reconfigured long held gender roles and changed the domestic lives of London's merchants and artisans for years to come Grounding her analysis in both the study of surviving household artifacts and extensive archival research Katherine L French examines the accommodations that Londoners made to their bigger houses and the increasing number of possessions these contained The changes in material circumstance reshaped domestic hierarchies and produced new routines and expectations Recognizing that the greater number of possessions required a

different kind of management and care French puts housework and gender at the center of her study Historically the task of managing bodies and things and the dirt and chaos they create has been unproblematically defined as women s work Housework however is neither timeless nor ahistorical and French traces a major shift in women s household responsibilities to the arrival and gendering of new possessions and the creation of new household spaces in the decades after the plague

The Visual Object of Desire in Late Medieval England Sarah Stanbury, 2008 Stanbury explores the lost traffic in images in late medieval England and its impact on contemporary authors and artists

The Good Women of the Parish Katherine L. French, 2013-02-12 There was immense social and economic upheaval between the Black Death and the English Reformation and contemporary writers often blamed this upheaval on immorality singling out women s behavior for particular censure Late medieval moral treatises and sermons increasingly connected good behavior for women with Christianity and their failure to conform to sin Katherine L French argues however that medieval laywomen both coped with the chaotic changes following the plague and justified their own changing behavior by participating in local religion Through active engagement in the parish church the basic unit of public worship women promoted and validated their own interests and responsibilities Scholarship on medieval women s religious experiences has focused primarily on elite women nuns and mystics who either were literate enough to leave written records of their religious ideas and behavior or had access to literate men who did this for them Most women however were not literate were not members of religious orders and did not have private confessors As *The Good Women of the Parish* shows the great majority of women practiced their religion in a parish church By looking at women s contributions to parish maintenance the ways they shaped the liturgy and church seating arrangements and their increasing opportunities for collective action in all women s groups the book argues that gendered behavior was central to parish life and that women s parish activities gave them increasing visibility and even on occasion authority In the face of demands for silence modesty and passivity women of every social status used religious practices as an important source of self expression creativity and agency

Women, Identities and Communities in Early Modern Europe Stephanie Tarbin, Susan Broomhall, 2016-12-05 Addressing a key challenge facing feminist scholars today this volume explores the tensions between shared gender identity and the myriad social differences structuring women s lives By examining historical experiences of early modern women the authors of these essays consider the possibilities for commonalities and the forces dividing women They analyse individual and collective identities of early modern women tracing the web of power relations emerging from women s social interactions and contemporary understandings of femininity Essays range from the late medieval period to the eighteenth century study women in England France Germany Ireland Italy and Sweden and locate women in a variety of social environments from household neighbourhood and parish to city court and nation Despite differing local contexts the volume highlights continuities in women s experiences and the gendering of power relations across the early modern world Recognizing the critical power of gender to structure identities

and experiences this collection responds to the challenge of the complexity of early modern women's lives. In paying attention to the contexts in which women identified with other women or were seen by others to identify contributors add new depth to our understanding of early modern women's senses of exclusion and belonging. The Fires of Lust Katherine

Harvey, 2022-11-28 An illuminating exploration of the surprisingly familiar sex lives of ordinary medieval people. The medieval humoral system of medicine suggested that it was possible to die from having too much or too little sex while the Roman Catholic Church taught that virginity was the ideal state. Holy men and women committed themselves to lifelong abstinence in the name of religion. Everyone was forced to conform to restrictive rules about who they could have sex with, in what way, how often, and even when, and could be harshly punished for getting it wrong. Other experiences are more familiar. Like us, medieval people faced challenges in finding a suitable partner or trying to get pregnant or trying not to. They also struggled with many of the same social issues such as whether prostitution should be legalized. Above all, they shared our fondness for dirty jokes and erotic images. By exploring their sex lives, the book brings ordinary medieval people to life and reveals details of their most personal thoughts and experiences. Ultimately, it provides us with an important and intimate connection to the past. **Medieval Affect, Feeling, and Emotion** Glenn D. Burger, Holly A. Crocker, 2019-04-11 Provides a new

intersectional investigation of affects, feelings, and emotions in late Middle English literature. **The Last Medieval Queens** J. L. Laynesmith, 2004-02-12 The last medieval queens of England were Margaret of Anjou, Elizabeth Woodville, Anne Neville, and Elizabeth of York, four very different women whose lives and queenship were dominated by the Wars of the Roses. This book is not a traditional biography but a thematic study of the ideology and practice of queenship. It examines the motivations behind the choice of the first English-born queens, the multi-faceted rituals of coronation, childbirth, and funeral, the divided loyalties between family and king, and the significance of a position at the heart of the English power structure that could only be filled by a woman. It sheds new light on the queens' struggles to defend their children's rights to the throne and argues that ideologically and politically, a queen was integral to the proper exercise of mature kingship in this period.

Medieval Women and Their Objects Jennifer Adams, Nancy Bradbury, 2021-03-11 The essays gathered in this volume present multifaceted considerations of the intersection of objects and gender within the cultural contexts of late medieval France and England. Some take a material view of objects, showing buildings, books, and pictures as sites of gender negotiation and resistance, and as extensions of women's bodies. Others reconsider the concept of objectification in the lives of fictional and historical medieval women by looking closely at their relation to gendered material objects, taken literally as women's possessions and as figurative manifestations of their desires. The opening section looks at how medieval authors imagined fictional and legendary women using particular objects in ways that reinforce or challenge gender roles. These women bring objects into the orbit of gender identity, employing and relating to them in a literal sense while also taking advantage of their symbolic meanings. The second section focuses on the use of texts both as objects in their own right and as mechanisms by

which other objects are defined The possessors of objects in these essays lived in the world their lives documented by historical records yet like their fictional and legendary counterparts they too used objects for instrumental ends and with symbolic resonances The final section considers the objectification of medieval women's bodies as well as its limits While this at times seems to allow for a trade in women authorial attempts to give definitive shapes and boundaries to women's bodies either complicate the gender boundaries they try to contain or reduce gender to an ideological abstraction This volume contributes to the ongoing effort to calibrate female agency in the late Middle Ages honoring the groundbreaking work of Carolyn P Collette

Medieval Maidens Kim M. Philips, 2003-06-28 The medieval landscape as viewed through the eyes of scholars was hardly populated by women Particularly young unmarried women or maidens have been paid little attention This book aims to fill that gap by examining the meaning experiences and voices of young womanhood The life phase of adolescence was different for maidens than for young men and as such merits study in its own right At the same time a study of young womanhood provides insights into ideals of feminine gender roles and identities at different social levels

Writing Masculinity in the Later Middle Ages Isabel Davis, 2007-02-22 Medieval discourses of masculinity and male sexuality were closely linked to the idea and representation of work as a male responsibility Isabel Davis identifies a discourse of masculine selfhood which is preoccupied with the ethics of labour and domestic living She analyses how five major London writers of the late fourteenth and early fifteenth centuries constructed the male self William Langland Thomas Usk John Gower Geoffrey Chaucer and Thomas Hoccleve These literary texts while they have often been considered for what they say about the feminine role and identity have rarely been thought of as evidence for masculinity this study seeks to redress that imbalance Looking again at the texts themselves and their cultural contexts Davis presents a genuinely fresh perspective on ideas about gender labour and domestic life in medieval Britain

Authority and Consent in Tudor England George Bernard, Steven Gunn, 2021-12-16 Brought together as a tribute to the distinguished Tudor historian C S L Davies the essays in this collection address key themes in the current historiography of the Tudor period These include the nature causes and consequences of change in English government society and religion the relationship of centre localities and peripheral areas in the Tudor state the regulation of belief and conduct and the dynamics of England's relations with her neighbours The contributors colleagues and students of Cliff Davies are all leading scholars who have provided fresh and interesting essays reflecting the wide ranging inquisitiveness characteristic of his own work They seek to cross as he has done the traditional boundaries between the medieval and early modern periods and between social political and religious history A coherent collection in their own right these essays by showing the many new directions open to those studying the Tudor period provide a fitting tribute to such an influential scholar
