beautiful so is love beautiful even more so for the Creator is more beautiful than the thing He has created All things that we make are the work of our hands We are their creator and we are greater than our hands So it is with love Love is greater than beauty because love is the creator of the beauty that love loves in its life No doubt by loving love becomes limited limited as beauty but then that is the purpose of love If there were no beauty His love could not have realized the latent joy of its own nature The joy of its existence would die out As soon as we can think in this way we come to see that the lover is vaster incomparably vaster than the object he loves The real love the real beauty is in the lover The object that he loves is much smaller although for the moment the lover is not aware of the difference The lover thinks You are the object before which I bow You are the object of which I think day and night before which I am helpless You are the object that I admire that I adore Yet he does not realize the vastness of his love and indeed strictly speaking love is vaster than the lover
