nineteenth century and continues into the twenty first century This form of socialism was aimed in the first instance not at institutional reform or the nationalization of the means of production but at what its proponents viewed as the moral rot that lay at the foundation of first industrial and then digital society They opposed what we call neoliberalism and what was then known as political economy because supporters of these ideologies believed that moral convictions had no proper place in the operation of markets This conviction rested upon the false belief that people are essentially selfish competitive individuals seeking personal happiness The aim of Christian Socialists was to replace this rotten moral foundation with another based on the view that people are social and cooperative by nature rather than competitive Their goal was nothing less than a new society built not upon selfishness and aggression but upon social virtues such as equality fellowship cooperation service and justice They did not deny the presence of selfishness however they believed that the social nature of humankind lies deeper than egotism and conflict and they sought a society built upon this belief *Drunken Rhetoric: Useful Bar Napkins* Brian Little, 2011-08-09 Humor rantings and unusual standpoints Charles Bukowski or Jim Morrison would have been proud of

Confucianism's Prospects Shaun O'Dwyer, 2019-08-01 In *Confucianism's Prospects* Shaun O'Dwyer offers a rare critical engagement with English language scholarship on Confucianism Against the background of historical and sociological research into the rapid modernization of East Asian societies O'Dwyer reviews several key Confucian ethical ideas and proposals for East Asian alternatives to liberal democracy that have emerged from this scholarship He also puts the following question to Confucian scholars what prospects do those ideas and proposals have in East Asian societies in which liberal democracy and pluralism are well established and individualization and declining fertility are impacting deeply upon family life In making his case O'Dwyer draws upon the neglected work of Japanese philosophers and intellectuals who were witnesses to Japan's pioneering East Asian modernization and protagonists in the rise and disastrous wartime fall of its own modernized Confucianism He contests a sometimes Sinocentric and ahistorical conception of East Asian societies as Confucian societies while also recognizing that Confucian traditions can contribute importantly to global philosophical dialogue and to civic and religious life
