Music Stephanie Oade, 2024-08-24 One of the most famous voices to have survived from the Roman world Catullus's poetry is still amongst the most popular and widely read But what is it that makes this 2 000 year old voice so relevant so personal and so endlessly fascinating Reinvigorating discussions around the nature of Catullus's lyricism Catullus in Twentieth Century Music takes a completely new approach to Catullus and ideas of lyric It centres around four musical works from the

twentieth century each one capturing the essence of Catullus in musical retellings and showcasing a very personal response to the original text Considering how and why these musical composers used Catullus's poetry as their stimulus allows us to uncover new ideas about Catullus's poetry By considering the very process of reception Stephanie Oade takes a broader view of lyric identifying traits and characteristics that are common to both music and poetry thus transcending the boundaries of individual art forms in order to consider the genre in larger interdisciplinary terms It offers insights into compositional processes and challenges audiences to think about ways of engaging with music and poetry More than anything it shows how ancient voices continue to resound in modernity and offer everlasting expression for our own experiences and emotions

Catullus Through his Books John Kyrin Schafer, 2020-03-19 Modern readings of the Roman poet Catullus work have always been constrained by doubts about the surviving text Does the sequence of our corpus reflect the artistically coherent and meaningful arrangement of the poems Why are the various parts of the collection so jarringly different in content and emotional tone To what extent if at all can we explain these shifts by appealing to Catullus famously vivid portrayals of his emotions and life circumstances Catullus Through his Books argues that we possess three separate books of poems designed by the poet himself at key moments in these books the poems dramatise the creative activity of their own composition embedding apparent autobiographical details and purportedly revealing the poet's intentions and goals These dramas of composition direct us through the poems integrating our understanding of each part and generating a holistic vision of Catullus as poet of self destroying longing and irreparable loss

Catullan Provocations William Fitzgerald, 2023-04-28. Restoring to Catullus a provocative power that familiarity has tended to dim, this book argues that Catullus challenges us to think about the nature of lyric in new ways. Fitzgerald shows how Catullus's poetry reflects the conditions of its own consumption as it explores the terms and possibilities of the poet's license. Reading the poetry in relation to the drama of position played out between poet, poem and reader, the author produces a fresh interpretation of almost all of Catullus's oeuvre. Running through the book is an analysis of the ideological stakes behind the construction of the author Catullus in twentieth-century scholarship and of the agenda governing the interpreter's position in relation to Catullus. This title is part of UC Press's *Voices Revived* program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach and impact. Drawing on a backlist dating to 1893, *Voices Revived* makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1996. Restoring to Catullus a provocative power that familiarity has tended to dim, this book argues that Catullus challenges us to think about the nature of lyric in new ways. Fitzgerald shows how Catullus's poetry reflects the conditions of its own consumption. **Time & Tide** Helen A. Archdale, Margaret Haig Thomas Mackworth (Viscountess Rhondda), 1949.

The Cambridge History of Classical Literature: Volume 1, Greek Literature, Part 4, The Hellenistic Period and the Empire P. E. Easterling, B. M. W. Knox, 1989-05-04. The emphasis of this volume is on Greek literature produced in the period between the foundation of Alexandria late in the fourth century B.C. and the end of the high empire in the third century A.D. Here we see a shift away from the city-states of the Greek mainland to the new centres of culture and power: first Alexandria under the Ptolemies and then imperial Rome. Greek literature, being traditionally cosmopolitan, adapted to these changes with remarkable success and through the efficiency of the Hellenistic educational system, Greek literary culture became the essential mark of an educated person in the Graeco-Roman world.

Vergil in Russia Zara Martirosova Torlone, 2014-11-27. The Russian reception of the greatest Roman poet, Vergil, provided Russian thinkers with a way in which to define Russian-European features. This volume looks to uncover the nature of Russian reception of Vergil and argues that the best way to analyse his presence in Russian letters is to view it in the context of the formation and development of Russian national and literary identity. Russian reception of Vergil began to play an integral role

in the eighteenth century starting with the reforms of Peter the Great and continued to be an important point of reference for Russian writers well into the last part of the twentieth century At the beginning of the twentieth century it took on a spiritual almost messianic mission while towards the end of the millennium the post modernist Vergil of Joseph Brodsky contemplated the fate of a poet in the world However Russian reception of Vergil offers significantly more than mere foreign importation or imitation of the beliefs and attitudes towards Vergil developed in Europe It provides a gateway to understanding Russian eighteenth and nineteenth century thought about national identity and values and uncovers important sources of later thinking about the character and destiny of Russia Vergil in Russia reveals that at the centre of Russian reception of Vergil is Russia's challenge to define the character and validity of their own civilization Vergil's poems especially the Aeneid gave Russian men of letters an opportunity to think about and act upon national self determination in both political and cultural terms
