cultural influences that shape people's health. Divided clearly into three sections, this book sets out the general context of social change, consumption, and debate around the rise of public interest in CAM. It argues for and against different classifications of CAM, critically assesses the importance of ethics and values to CAM practice, and how these inform what practitioners do. It focuses on the question of what people want, the changing and contested nature of health, and the nature of personal and social factors associated with the use of CAM, leading to a focus on therapeutic relationships. It examines the diversity of settings in which CAM takes place and the social, political, and economic milieu in which CAM is provided and used. Together with its accompanying text, *Complementary and Alternative Medicine: Structures and Safeguards*, it forms the core text for the Open University course K221 *Perspectives on Complementary and Alternative Medicine*. Frederick Reklau, R. Scott Perry, 2010-05-01. The needs for and the benefits of holistic health care—care that extends to the physical, mental, emotional, and spiritual aspects of individuals—have been well known for 2,500 years or so. But still, to quote the late Rodney Dangerfield, some caregivers don't get no respect. Fred Reklau is out to change that. With this book offered as an exploration of the synergies possible among those who care for persons, in the 1980s he wrote the theses that formed the core of this book. Since then, they have helped many in groups and singly to see their work in a new light. Chaplains, pastors, parish nurses, lay caregivers, hospice workers—all will rejoice to read this heartfelt plea to elevate them to equal status with the vital care-giving services performed by physicians, psychologists, psychiatrists, and other members of the medical professions.

Co-Dependency Bruce Carruth, Warner Mendenhall, 2014-06-03. Co-dependency has finally become recognized in the late 1980s as a legitimate and a key issue in the chemical dependency field. Most of the literature available on the topic is addressed to the consumer, the co-dependent individual. In *Co-dependency*, leading therapists share some remarkable insights into the characteristics of the alcoholic, the home co-dependents' patterns of responding to the alcoholic, and the particular problems that family members experience as a result of the environment, including fear, shame, and guilt, anger, denial, and confusion. Clinical case material is used to illustrate the value of helping co-dependents through education, peer support, outpatient treatment, and psychotherapy. Creative solutions for working with lesbian and gay men and children of alcoholics are also featured.

Animals as Guides for the Soul Susan Chernak McElroy, 1999-08-31. In her New York Times bestseller *Animals as Teachers and Healers*, Susan Chernak McElroy movingly explored the wide and enriching horizons of human relationships with animals. In this new volume of reflections and true animal stories, she invites us to broaden and deepen that relationship. While living with her husband and animals on a farm in Oregon, McElroy pondered the ancient bonds that connect humans and animals, the healing gifts of animals, the genius of people who talk to them, and the power of animal messengers. She also asked herself the tough questions that engage every true animal lover: How can we soothe our anguish and guilt when a loved animal suffers or dies? How do we atone for our mistakes? When are animals prisoners, and when are they fulfilled? Is it moral to eat other beings? And how can we go about transforming our relationship

with animals Through daily experiences with the animals around her and those in her dreams along with compelling true stories sent to her by readers McElroy began to find answers She discovered that animals are guides in the development of our souls A frail llama teaches lessons of joy and unconditional love a barn cat proves that service need not be imprisonment but fulfillment a mortally injured hawk infuses a cancer patient with renewed strength and faith an attentive rabbit awakens an abused child from a trance of sadness and a skinny white horse does more for a damaged six year old boy in one hour than any human has done in six years In this deeply personal yet universal testament to the profound connection between animals and humans there is wisdom and blessing As the author reminds us the fingerprint of God is often a pawprint **Dr. and**
