rightly says Mark Labberton is the beginning of how our hearts are changed Through careful self examination in the Spirit we begin to bear the fruit of love toward others that can make a difference Here is a chance to reflect on why our ordinary hearts can be complacent about the evils in the world and how we can begin to see the world like Jesus *The Love of Jesus and the Love of Neighbour* Karl Rahner,1983 *The New International Lesson Annual 2015 - 2016* Nan

Curran,1999-04-05 The Catholic tradition has always tried to explain its theology in a coherent and systematic way but the great changes and tensions existing within Catholic moral theology today have made it difficult to develop systematic approaches to what was once called fundamental moral theology Now a leading scholar active in this field for forty years offers a synthesis of Catholic moral theology set in the context of the broader Catholic tradition and the significant developments that have occurred since the Second Vatican Council Charles E Curran s succinct coherent account of his wide ranging work in Catholic moral theology points out agreements disagreements and changes in significant aspects of the Catholic moral tradition His systematic approach explores major topics in a logical development the ecclesiological foundation and stance of moral theology the person as moral subject and agent virtues principles and norms conscience and decision making and the role of the church as a teacher of morality Curran s work condenses and organizes a large amount of material to show that the Catholic theological tradition is in dialogue with contemporary life and thought while remaining conscious of its rich history Of great interest to theologians for its broad synthetic scope this book is also a thorough introduction to the Catholic moral tradition for students and interested readers including non Catholics *Four Essential Loves* William R. McAlpine,2013-05-22 How does one determine the readiness of any candidate for leadership in ministry Whether considering vocational ministry leadership or a position on a local board of elders or deacons without question knowledge and skills are essential But an individual s readiness for leadership and ministry cannot be assessed solely on the basis of academic transcripts or impressive statistics found in a pastor or lay leader s annual report While embracing knowledge and skill as essential to effective leadership and ministry the author demonstrates how these dimensions are inadequate unless rooted in that which is less quantifiable namely heart readiness But what does heart readiness entail or look like in the life of a leader in ministry In a word that is grossly overused and profoundly misunderstood love and more specifically love for the right things in the right way for the right reasons This book is intended for those being trained in the bible college or seminary classroom but also for lay leaders already engaged in virtually any ministry context as well Readers are encouraged to consider and cultivate four essential loves love for God s Word for Christ s church for one s neighbor and for oneself **Cura Animarum** Ioan C. Veres,2025-04-25 As artificial intelligence advances healthcare faces a profound ethical question Can machines truly care This book critically examines the rise of AI driven social

robots carebots in patient care evaluating their benefits and potential harms through the lens of Christian ethics While AI may enhance efficiency and offer support in specific healthcare contexts it also risks dehumanizing care replacing genuine human presence with technological substitutes Grounded in a theology of covenant care this work builds its ethical argument around the biblical parable of the Good Samaritan emphasizing the irreplaceable nature of human compassion It presents theological and ethical criteria to guide the responsible use of AI in healthcare ensuring that technology serves rather than supplants the dignity of human relationships This book is essential reading for theologians ethicists healthcare professionals and AI developers navigating the intersection of faith ethics and emerging technology As healthcare increasingly integrates AI Cura Animarum challenges readers to consider where technology supports human dignity and where it threatens to erode the essence of genuine care Is AI merely a tool or does it risk redefining what it means to care 1 and 2 Thessalonians

Justice Nicholas Wolterstorff, 2010-05-02 Wide ranging and ambitious Justice combines moral philosophy and Christian ethics to develop an important theory of rights and of justice as grounded in rights Nicholas Wolterstorff discusses what it is to have a right and he locates rights in the respect due the worth of the rights holder After contending that socially conferred rights require the existence of natural rights he argues that no secular account of natural human rights is successful he offers instead a theistic account Wolterstorff prefaces his systematic account of justice as grounded in rights with an exploration of the common claim that rights talk is inherently individualistic and possessive He demonstrates that the idea of natural rights originated neither in the Enlightenment nor in the individualistic philosophy of the late Middle Ages but was already employed by the canon lawyers of the twelfth century He traces our intuitions about rights and justice back even further to Hebrew and Christian scriptures After extensively discussing justice in the Old Testament and the New he goes on to show why ancient Greek and Roman philosophy could not serve as a framework for a theory of rights Connecting rights and wrongs to God s relationship with humankind Justice not only offers a rich and compelling philosophical account of justice but also makes an important contribution to overcoming the present day divide between religious discourse and human rights
