Tesla: Wizard at War Marc Seifer, 2022-08-30 In this insightful and revelatory new book the author of the highly acclaimed award winning international bestseller *Wizard The Life and Times of Nikola Tesla* delves deeper into the groundbreaking ideas and astonishing mind of one of the greatest geniuses of modern times The culmination of more than four decades of research *Tesla Wizard at War* explores the historical impact of Tesla's particle beam weapon and other brilliant work and how it continues to shape global military technology and diplomatic strategies even today In a few years hence it will be possible for nations to fight without armies ships or guns by weapons far more terrible to the destructive action and range of which there is virtually no limit Any city at any distance whatsoever from the enemy can be destroyed by him and no power on Earth can stop him from doing so Nikola Tesla circa 1925 Drawing on forty years of research and a treasure trove of new information *Tesla Wizard at War* provides a comprehensive view of Tesla's discoveries which continue to influence today's military technology and diplomatic strategies One of the world's leading Tesla experts Marc J Seifer offers new insight into the brilliant scientist's particle beam weapon aka the Death Ray and explores his military negotiations with pivotal historical figures including his links to Joseph Stalin Vannevar Bush General Andrew McNaughton and Franklin Delano Roosevelt From Tesla's role in the origins of Star Wars technology and his dynamic theory of gravity to the real purpose behind the iconic tower at Wardencliff this is an eye opening account of Tesla's projects passions and ambitions and an illuminating important study of one of history's most intriguing figures **Radar Development in**

Canada W.E. Knowles Middleton, 1981-03-16 This volume continues the story of the National Research Council begun by Physics at the National Research Council of Canada also written by Middleton and Biological Sciences at the National Research Council of Canada by N T Gridgeman Technical enough to interest the scientifically informed reader yet comprehensible to the general reader this history of the development of radar in Canada by the N R C in the years of the Second World War explains what radar is and how it functions and briefly describes at the problems which led to the development of new equipment such as the need to detect mortar bombs and the danger of airborne attacks on Canadian coasts The author describes how personality clashes tensions between co operating organizations and difficulty administrative puzzles were overcome allowing scientific expertise to triumph in the speedy and valuable development of new radar devices an important contribution by Canada to the war effort The volume is well organized and includes illustrations Documentation from government sources use of quotations from correspondence and interviews personal reminiscences of the author and informed opinion and interpretation combine to make the volume easy and information reading **Margaret and Charley** Henry B.M. Best, 2003-06-01 Although Charles Best is known for discovering insulin the

story of his life neither begins nor ends with that one moment Not only did he make many other discoveries he was also one half of an extraordinary couple who during their almost sixty years together were involved in many of the significant events of the twentieth century Margaret Charley is the story of these two people from their beginnings on the east coast at the turn of the century through the years that followed Through diaries scrapbooks photograph albums and other documentation the details of their lives are shared with the reader

Mechanical Engineering at the National Research Council of Canada W.E. Knowles Middleton, 1984-04-12 W E Knowles Middleton continuing his series of books on the history of the National Research Council of Canada here presents a history of the challenges defeats and triumphs of mechanical engineering at the Council Throughout much of the history of the National Research Council the Division of Mechanical Engineering has been mostly preoccupied with problems of aeronautics During World War II the Division constituted an aeronautical laboratory The influence of individuals government departments and individuals all involved in supporting and demanding research into problems of mechanical engineering in Canada makes intriguing reading The volume will be of interest to those investigating the history of science and technology in Canada It will also be crucial to those interested in Canada s contribution to World War II on the fronts of technology and aeronautics

The Science of War Donald Avery, 1998-01-01 The Second World War with its emphasis on innovative weapons and defence technology brought about massive changes in the role of scientists in Canada the United States and Great Britain Canadian scientists working through the auspices of the National Research Council and the Department of National Defence made important contributions to the development of alliance warfare Before 1939 Canada had only a minute military establishment and a limited industrial and academic capacity for research and development With the outbreak of war all this changed dramatically This book explains how and why Canada was able to play in the big leagues of military technology including the development of radar RDX explosives proximity fuses chemical and biological warfare and the atomic bomb It also investigates the evolution of the Canadian national security state which attempted to protect defence secrets both from the Axis powers and from Canada s wartime ally the Soviet Union The Science of War provides both a cross disciplinary overview of the scientific and military activity of this period in several countries and a fascinating analysis of what the author calls Big Science in Canada

Physics at the National Research Council of Canada, 1929-1952 W E K Middleton, 1979-03-20

Politics of Command John Nelson Rickard, 2010-03-20 In December 1943 Lieutenant General A G L McNaughton resigned from command of the 1st Canadian Army amidst criticism of his poor generalship and of his abrasive personality Despite McNaughton s importance to the Canadian Army during the first four years of the Second World War little has been written about the man himself or the circumstances of his resignation In The Politics of Command the first full length study of the subject since 1969 John Nelson Rickard analyses McNaughton s performance during Exercise SPARTAN in March 1943 and assesses his relationships with key figures such as Sir Alan F Brooke Bernard Paget and Harry Crerar This detailed re examination of McNaughton s command argues that the long

accepted reasons for his relief of duty require extensive modification Based on a wide range of sources The Politics of Command will redefine how military historians and all Canadians look at not only Andy McNaughton but also the Canadian Army itself *Science, Politics and the Public Good* Nicolaas A. Rupke,1988-06-18 An exploration of the relationship between scientific ideas technology government and politics demonstrated by examples from the last 150 years including the birth of the NHS the Channel Tunnel radiation protection the atomic bomb and power and nuclear power in the US and USSR **Maestro of Science** Jason S. Ridler,2015-01-01 Jason S Ridler draws on interviews and declassified records to paint a vivid picture of the influence and achievements of a Canadian leader in Cold War military research *The Rinderpest Campaigns* Amanda Kay McVety,2018-08-23 Amanda Kay McVety has written the first history of the international effort to eradicate rinderpest a devastating cattle disease which began in the 1940s and ended in 2011 Rinderpest is the only other disease besides smallpox to have been eradicated but very few people in the United States know about it because it did not infect humans and never broke out in North America In other parts of the world however rinderpest was a serious economic and social burden and the struggle against it was a critical part of the effort to fight poverty and hunger globally McVety follows the deployment of rinderpest vaccines around the globe exploring the role of the environment in the understanding of development internationalism and national security She expands the standard Cold War narratives to show how these concepts were framed not only by economic and political concerns but also by biological ones *Physics at the National Research Council of Canada* W.E. Knowles Middleton,2006-01-01 No detailed description available for Physics at the National Research Council of Canada **A Perfect Hell** John Nadler,2007-12-18 It s 1942 and Hitler s armies stand astride Europe like a colossus Germany is winning on every front This is the story of how one of the world s first commando units put together for the invasion of Norway helped turn the tide in Italy 1942 When the British generals recommend an audacious plan to parachute a small elite commando unit into Norway in a bid to put Nazi Germany on the defensive Winston Churchill is intrigued But Britain fighting for its life can t spare the manpower to participate So William Lyon MacKenzie King is contacted and asked to commit Canadian troops to the bold plan King determined to join Roosevelt and Churchill as an equal leader in the Allied war effort agrees One of the world s first commando units the First Special Service Force or FSSF is assembled from hand picked soldiers from Canadian and American regiments Any troops sent into Norway will have to be rugged self sufficient brave and weather hardened Canada has such men in ample supply The all volunteer FSSF comprises outdoorsmen trappers rangers prospectors miners loggers Assembled at an isolated base in Helena Montana and given only five months to train before the invasion they are schooled in parachuting mountain climbing cross country skiing and cold weather survival They are taught how to handle explosives how to operate nearly every field weapon in the American and German arsenals and how to kill with their bare hands After the Norway plan is scrapped the FSSF is dispatched to Italy and given its first test to seize a key German mountain top position which had repelled the brunt of the Allied armies for over a

month In a reprise of the audacity and careful planning that won Vimy Ridge for the Canadians in WWI the FSSF takes the twin peaks Monte la Difensa and Monte la Remetanea by storming the supposedly unscalable rock face at the rear of the German position and opens the way through the mountains Later the FSSF will hold one quarter of the Anzio beachhead against a vastly superior German force for ninety nine days a force of only 1 200 commandos does the work of a full division of over 17 000 troops Though badly outnumbered the FSSF takes the fight to the Germans sending nighttime patrols behind enemy lines and taking prisoners It is here that they come to be known among the dispirited Germans as Schwartzers Teufel Black Devils for their black camouflage face paint and their terrifying tactic of appearing out of the darkness John Nadler vividly captures the savagery of the Italian campaign fought as it was at close quarters and with desperate resolve and the deeply human experiences of the individual men called upon to fight it Based on extensive archival research and interviews with veterans A Perfect Hell is an important contribution to Canadian military history and an indispensable account of the lives and battlefield exploits of the men who turned the tide of the Second World War

Biological Sciences at the National Research Council of Canada N. Gridgeman, 2006-01-01 This monograph describes the work of the Division of Biological Sciences of the National Research Council of Canada Part One deals with scientific research in agriculture and other areas from 1916 until 1939 The subject of Part Two is the solution of special problems connected with World War II including the preservation and packaging of food for long distance transportation Part Three records changes in emphasis following the war and establishment of branch laboratories in various parts of Canada Historians of science and students of Canadian history will find this a valuable reference work Written in nontechnical language it can be read easily by anyone interested in the development of biological sciences and in the work of the National Research Council

Top Secret Exchange David Zimmerman, 1996 The Tizard Mission was one of the key events in the forging of the Anglo American alliance in World War II Led by Sir Henry Tizard the mission visited the United States and Canada in the summer of 1940 to make available virtually all of Britain's technical and scientific military secrets Overwhelmed by British generosity the U S reciprocated David Zimmerman tells the story of that mission and examines the importance of technology in modern war and its crucial role in the defeat of the Axis powers

Pathogens for War Donald H. Avery, 2013-04-28 Pathogens for War explores how Canada and its allies have attempted to deal with the threat of germ warfare one of the most fearful weapons of mass destruction since the Second World War In addressing this subject distinguished historian Donald Avery investigates the relationship between bioweapons poison gas and nuclear devices as well as the connection between bioattacks and natural disease pandemics Avery emphasizes the crucially important activities of Canadian biodefence scientists beginning with Nobel Laureate Frederick Banting at both the national level and through cooperative projects within the framework of an elaborate alliance system Delving into history through a rich collection of declassified documents Pathogens for War also devotes several chapters to the contemporary challenges of bioterrorism and disease pandemics from both national and

international perspectives As such readers will not only learn about Canada s secret involvement with biological warfare but will also gain new insights into current debates about the peril of bioweapons one of today s greatest threats to world peace

The Neutron's Children Sean Johnston,2012-04-26 This account tracks the Allied atomic energy experts who emerged from the Manhattan Project to explore optimistic but distinct paths in the USA UK and Canada Characterized successively as admired atomic scientists mistrusted spies and heroic engineers their identities were ultimately shaped by nuclear accidents

Code Name Habbakuk L. D. Cross,2012 In late 1942 Britain was desperate to win the ongoing Battle of the Atlantic German U boats had sunk hundreds of Allied ships containing millions of tons of cargo that was needed to continue the war effort Prime Minister Churchill had to find a solution to the carnage or the Nazis would be victorious With the support of Churchill and Lord Louis Mountbatten eccentric inventor and amateur spy Geoffrey Pyke proposed a dramatic project to build invincible ships of ice massive unsinkable aircraft carriers that would roam the mid Atlantic servicing fighter planes and bombers on missions to protect shipping from predatory U boat wolf packs This is the fascinating story of the rise and fall of Project Habbakuk and how an outlandish inventor the British Navy the National Research Council of Canada and a workforce of conscientious objectors tested the bizarre concept in the Canadian Rocky Mountains far from the theatre of war

The Reader of Gentlemen's Mail David Kahn,2008-10-01 One of the most colorful and controversial figures in American intelligence Herbert O Yardley 1889 1958 gave America its best form of information but his fame rests more on his indiscretions than on his achievements In this highly readable biography a premier historian of military intelligence tells Yardley s story and evaluates his impact on the American intelligence community Yardley established the nation s first codebreaking agency in 1917 and his solutions helped the United States win a major diplomatic victory at the 1921 disarmament conference But when his unit was closed in 1929 because gentlemen do not read each other s mail Yardley wrote a best selling memoir that introduced and disclosed codemaking and codebreaking to the public David Kahn de scribes the vicissitudes of Yardley s career including his work in China and Canada offers a capsule history of American intelligence up to World War I and gives a short course in classical codes and ciphers He debunks the accusations that the publication of Yardley s book caused Japan to change its codes and ciphers and that Yardley traitorously sold his solutions to Japan And he asserts that Yardley s disclosures not only did not hurt but actually helped American codebreaking during World War II
