Macmillan Of Orchids:

The Macmillan Book of Orchids Jörn Pinske, 1986 **Orchids of Trinidad and Tobago** J. S. Kenny, 2008 *The New Encyclopedia of Orchids* I. F. La Croix, 2008-01-01 The Infinitely Varied Orchid Family provides a never ending source of unusual plants in a range of shapes colors fragrances and sizes As the demand for interesting and unusual species increases so too does the need for a comprehensive reference on how to grow them This encyclopedia written by respected botanist Isobyl la Croix offers detailed descriptions of 1500 cultivated species in 350 genera from Acampe to Zygostates More than 1000 photographs will aid enthusiasts in choosing new plants for their collections as well as provide accurate ID *Growing South African Indigenous Orchids* Karsten Wodrich, 2020-08-26 Providing a guide to the cultivation of both the terrestrial and epiphytic orchid species growing in South Africa this volume includes numerous hints illustrations and photographs to help simplify the process Detailed growing notes are given for over 60 terrestrial and over 40 epiphytic species Orchid Biology: Reviews and Perspectives X Tiiu Kull, J. Arditti, Sek Man Wong, 2009-01-21 As stated many times before the purpose of Orchid Biology Reviews and Perspectives OB is to present reviews on all aspects of orchids The aim is not to balance every volume but to make a balanced and wide ranging presentation of orchids in the series as a whole The chapters in this the last volume of the series range over a number of topics which were not covered before Singapore is justly famed for its orchids They can be seen on arrival or dep ture in its modern highly efficient and comfortable Changi Airport and on the way from it to town Vanda Miss Joaquim the first hybrid to come from Singapore became its National Flower This natural hybrid can be seen on its currency stamps and public and private decorations Many excellent breeders starting with Prof Eric Holttum who bred the first man made hybrid Spathoglottis Primrose produced numerous magnificent hybrids and won countless awards in Singapore and elsewhere These hybrids served to enrich the country s orchid mystique In the opening chapter of this volume Dr Teoh Eng Soon Western style Eng Soon Teoh himself a prize winning orchid breeder grower and author writes about some of the breeders who contributed to the Singapore orchid fame Prof Hans Fitting was one of the best known plant physiologists of his time As a young man he studied the effects of pollen on orchid flowers Orchid Biology VIII T. Kull, J. Arditti, 2013-03-14 Note Not long after publication of Orchid Biology Reviews and Perspectives OB volume VII my co editor Dr Alec M Pridgeon informed me that the pressure of other duties especially the editing of Genera Orchidacearum GO will make it impossible for him to continue as co editor and eventually editor of the series Alec is an excellent orchid scientist and editor I was sorry to that he had to leave OB but glad that GO will be in his able hands The first volume of GO attests to his considerable abilities and I wish him much success in the future Editors of orchid publications are not the most common of species to use a botanical analogy and finding a replacement for Alec was not easy However I was fortunate that Dr Tiiu Kull agreed to become my co editor and eventually take over the series As is obvious from the Contributors section Dr Kull has extensive experience as both writer and editor My interactions with her while editing this volume have convinced me she is

an excellent choice Scientifically she brings to OB an appreciation and understanding of northern terrestrial orchids a group which has not received as much attention as it deserves Another addition to OB is Dr Tim Wing Yam who agreed to become an associate editor Tim who holds a position at the Singapore Botanic Gardens will provide expertise on seed germination hybridization tissue culture species and conservation

Orchids IUCN/SSC Orchid Specialist Group,1996 This action plan chronicles the threats faced by wild orchids but more importantly to critical habitats that host extraordinarily high orchid diversity and endemism It explores and recommends specific ways that national and local government legislators scientists and orchid conservationists as well as growers can all help to reverse present trends The facts and viewpoints presented in this comprehensive document update and supplement the information available to conservation organizations and agencies through the world so that they can lobby their appropriate government offices more effectively
