**Maconochie's Gentlemen** Norval Morris, 2003-09-11 In 1840 Alexander Maconochie a privileged retired naval captain became at his own request superintendent of two thousand twice convicted prisoners on Norfolk Island a thousand miles off the coast of Australia In four years Maconochie transformed what was one of the most brutal convict settlements in history into a controlled stable and productive environment that achieved such success that upon release his prisoners came to be called Maconochie's Gentlemen Here Norval Morris one of our most renowned criminologists offers a highly inventive and engaging account of this early pioneer in penal reform enhancing Maconochie's life story with a trenchant policy twist Maconochie's life and efforts on Norfolk Island Morris shows provide a model with profound relevance to the running of correctional institutions today Using a unique combination of fictionalized history and critical commentary Morris gives this work a powerful policy impact lacking in most standard academic accounts In an era of mass incarceration that rivals that of the settlement of Australia Morris injects the question of humane treatment back into the debate over prison reform Maconochie and his Marks system played an influential role in the development of prisons but for the last thirty years prison reform has been dominated by punitive and retributive sentiments the conventional wisdom holding that we need supermax prisons to control the worst of the worst in solitary and harsh conditions Norval Morris argues to the contrary holding up the example of Alexander Maconochie as a clear cut alternative to the living hell of prison systems today *Arctic Circles and Imperial Knowledge* Annaliese Jacobs Claydon, 2023-12-28 In 1845 an expedition led by Sir John Franklin vanished in the Canadian Arctic The enduring obsession with the Franklin mystery and in particular Inuit information about its fate is partly due to the ways in which information was circulated in these imperial spaces This book examines how the Franklins and other explorer families engaged in science exploration and the exchange of information in the early to mid 19th century It follows the Franklins from the Arctic to Van Diemen's Land charting how they worked with intermediaries imperial humanitarians and scientists and shows how they used these experiences to claim a moral right to information *Arctic Circles and Imperial Knowledge* shows how the indigenous peoples translators fur traders whalers convicts and sailors who explorer families relied upon for information were both indispensable and inconvenient to the Franklins It reveals a deep entanglement of polar expedition with British imperialism and shows how geographical knowledge intertwined with convict policy humanitarianism genocide and authority In these imperial spaces families such as the Franklins negotiated their tenuous authority over knowledge to engage with the politics of truth and question the credibility and trustworthiness of those they sought to silence **De fatale kust** Robert Hughes, 2018-08-15 *De fatale kust* is een historisch en literair meesterwerk een instant klassieker Oorspronkelijk verschenen in 1988 wordt het nog altijd gezien als een van de beste non fictieboeken van de twintigste eeuw Het won tal van prijzen en groeide uit tot een wereldwijde bestseller Robert Hughes vertelt aan de hand van unieke documenten dagboeken en brieven de fascinerende geschiedenis van de geboorte van Australië
