Madagascar & Comoros Deanna Swaney, Robert Willox, 1994 Revised and expanded this guide will help travellers discover the beauty and secrets of these largely forgotten islands Unique wildlife varied terrain and the remnants of French colonialism have combined to produce a feeling of suspense and mystery for travellers to these islands *Madagascar & Comoros* Robert Willox, 1989 A complete guide to some of the world's most adventurous terrain Madagascar which has some of the most unique flora and fauna and is the fourth largest island in the world and the tiny volcanic Comoros islands which offer travelers the experience of a lifetime **Madagascar** Philip M. Allen, 2019-04-02 The world's fourth largest island with a unique biological and physical endowment Madagascar is home to an extraordinary insular civilization that has struggled for more than a century against external domination In this sensitive introduction to the Indian Ocean's great island Philip Allen shows how family affinities and community loyalties at the foundation of Madagascar's culture have influenced Malagasy nationalism and forged islandwide traditions These same principles have nonetheless engendered social cleavages and resistance to economic and political change In chapters on modern Madagascar Allen analyzes the inability of a series of regimes to maintain authority among a people deeply bound to rituals of communication with their spiritual environment He demonstrates how the first Malagasy Republic became stigmatized by its lingering identification with French colonialism and how the nationalist revolution in 1972 soon hardened into autocratic radicalism Allen explores the complex challenges facing Madagascar's resurgent democratic forces including a need to conserve the island's irreplaceable biodiversity and to facilitate authentic participation in public affairs without offending ancestral customs and local precedents Finally he discusses efforts to end Madagascar's economic and political dependence and to improve living conditions for its tragically impoverished population **Anderson's Travel Companion** Compiled by Sarah Anderson, 2016-12-05 A selection of the best in travel writing with both fiction and non fiction presented together this companion is for all those who like travelling like to think about travelling and who take an interest in their destination It covers guidebooks as well as books about food history art and architecture religion outdoor activities illustrated books autobiographies biographies and fiction and lists books both in and out of print Anderson's Travel Companion is arranged first by continent then alphabetically by country and then by subject cross referenced where necessary There is a separate section for guidebooks and comprehensive indexes Sarah Anderson founded the Travel Bookshop in 1979 and is also a journalist and writer on travel subjects She is known by well known travel writers such as Michael Palin and Colin Thubron Michael Palin chose her bookshop as his favourite shop and Colin Thubron and Geoffrey Moorhouse among others made suggestions for titles to include in the Travel Companion **Madagascar: The Eighth Continent** Peter Tyson, 2013-05-21 Madagascar is a land where lizards scream and monkey like lemurs sing songs of inexpressible beauty Known as the Great Red Island it is a place where fossa and tenrecs vangas and aye ayes thrive in a true Lost World alongside bizarre plants like the octopus tree and the three cornered palm And

where the ancestors of the Malagasy as the island's 18 tribes are collectively known come alive in rollicking ceremonies known as turning the bones. This natural and cultural history of Madagascar is an exploration of what makes the island so extraordinary. It is the only book that combines cutting edge science and conservation with adventure travel and historical narrative. Based on detailed fieldwork in Malagasy villages and a thorough archival investigation, *Isle of Fire* offers a detailed analysis of why Madagascar has always been aflame, why it always will be aflame, and ultimately, as Christian Kull argues, why it should remain aflame.
