**Purity and Contamination in Late Victorian Detective Fiction** Dr Christopher Pittard, 2013-05-28 Concentrating on works by authors such as Fergus Hume Arthur Conan Doyle Grant Allen L T Meade and Marie Belloc Lowndes Christopher Pittard explores the complex relation between the emergence of detective fictions in the 1880s and 1890s and the concept of purity The centrality of material and moral purity as a theme of the genre Pittard argues both reflected and satirised a contemporary discourse of degeneration in which criminality was equated with dirt and disease and where national boundaries were guarded against the threat of the criminal foreigner Situating his discussion within the ideologies underpinning George Newnes s *Strand Magazine* as well as a wide range of nonfiction texts Pittard demonstrates that the genre was a response to the seductive and impure delights associated with sensation and gothic novels Further Pittard suggests that criticism of detective fiction has in turn become obsessed with the idea of purity thus illustrating how a genre concerned with policing the impure itself became subject to the same fear of contamination Contributing to the richness of Pittard s project are his discussions of the convergence of medical discourse and detective fiction in the 1890s including the way social protest movements like the antivivisectionist campaigns and medical explorations of criminality raised questions related to moral purity

**Jews and Gender in Liberation France** K. H. Adler, 2003-08-07 This book takes a new look at occupied and liberated France through the dual prism of race specifically Jewishness and gender core components of Vichy ideology The imagining of liberation and the potential post Vichy state lay at the heart of resistance strategy Their transformation into policy at liberation forms the basis of an enquiry that reveals a society which while split deeply at the political level found considerable agreement over questions of race the family and gender This is explained through a new analysis of republican assimilation which insists that gender was as important a factor as nationality or ethnicity A new concept of the long liberation provides a framework for understanding the continuing influence of the liberation in post war France where scientific planning came to the fore but whose exponents were profoundly imbued with reductive beliefs about Jews and women that were familiar during Vichy

This book examines the developments in British serial detective fiction which took place in the seven years when Sherlock Holmes was dead. In December 1893 at the height of Sherlock's popularity with the Strand Magazine's worldwide readership, Arthur Conan Doyle killed off his detective. At the time he firmly believed that Holmes would not be resurrected. This book introduces and showcases a range of Sherlock's most fascinating successors, exploring the ways in which a huge range of popular magazines and newspapers clamoured to ensnare Sherlock's bereft fans. The book's case study format examines a range of detective series created by L. T. Meade, C. L. Pirkis, Arthur Morrison, Fergus Hume, Richard Marsh, Kate and Vernon Hesketh Prichard that filled the pages of a variety of periodicals from plush monthly magazines to cheap newspapers in the years while Sherlock was dead. Readers will be introduced to an array of detectives: professional and amateur, male and female, old and young, among them a pawn shop worker, a scientist, a British aristocrat, a ghost hunter. The study of these series shows that there was life after Sherlock and proves that there is much to learn about the development of the detective genre from the successors to Sherlock Holmes. In this brilliant incisive study of late Victorian detective fiction, Clarke emphatically shows us there is life beyond Sherlock Holmes. Rich in contextual detail and with her customary eye for the intricacies of publishing history, Clarke's wonderfully accessible book brings to the fore a collection of hitherto neglected writers simultaneously made possible but pushed to the margins by Conan Doyle's most famous creation. Andrew Pepper, Senior Lecturer in English and American Literature, Queen's University Belfast. Professor Clarke's superb new book, *British Detective: The Successors to Sherlock Holmes*, is required reading for anyone interested in Victorian crime and detective fiction. Building on her award-winning first monograph, *Late Victorian Crime Fiction in the Shadows of Sherlock*, Dr Clarke further explores the history of serial detective fiction published after the death of Conan Doyle's famous detective in 1893. This is a path-breaking book that advances scholarship in the field of late Victorian detective fiction while at the same time introducing non-specialist readers to a treasure trove of stories that indeed rival the Sherlock Holmes series in their ability to puzzle and entertain the most discerning reader. West is the first book to explore the entire corpus of her extraordinary seventy one year writing career The general introductory studies of West are outdated and do not take into account her posthumous publications or her large literary archive of unpublished letters and manuscripts Previous scholarly books have chopped West up into categories and genres instead of following the evolution of her career
