establishment of the Church of Satan by carnival entertainer Anton Szandor LaVey Yet it is more than a collection of colorful characters and unlikely historical episodes The emergence of new attitudes toward Satan proves to be intimately linked to the ideological struggle for emancipation that transformed the West and is epitomized by the American and French Revolutions It is also closely connected to secularization that other exceptional historical process which saw Western culture spontaneously renounce its traditional gods and enter into a self imposed state of religious indecision Children of Lucifer makes the case that the emergence of Satanism presents a shadow history of the evolution of modern civilization as we know it Offering the most comprehensive account of this history yet written van Luijk proves that in the case of Satanism the facts are much more interesting than the fiction Katherine Tingley and Her Râja-Yoga System of Education Iverson L.
