Mademoiselle Gorilla:

Mademoiselle Gorilla Simon Puttock, 2004 Mademoiselle Gorilla is different to the rest of her family They may tumble and whoop and eat bananas but she is a sensitive soul she is a poet Feeling forlorn and unappreciated Mademoiselle Gorilla decides to go to New York where fame and fortune await her But being the next big thing isn't everything and Mademoiselle Gorilla's sensitive soul soon begins to yearn for her family and the tumble and whoop of the jungle **Gorillas in the Mist** Farley Mowat, 2009-10-13 Originally titled *Virunga* this is the story of Dian Fossey the mountain gorillas greatest champion and martyr Based on Fossey's personal papers and on interviews with her colleagues friends and enemies *Gorillas in the Mist* reveals one woman's passion for life and the creatures who share it with us [Encountering Gorillas](#) James L. Newman, 2013-07-05 Gorillas the largest of the apes inhabiting our planet have been a source of fear awe and inspiration to humans In this book James L Newman brings a lifetime of study of Africa to his compelling story of the rich and varied interaction between gorillas and humans since earliest contact He illuminates the complex relationship over time through the interlinked themes of discovery exploitation understanding and continuing survival Tragically the number of free living gorillas facing habitat loss disease and poaching has declined dramatically over the course of the past century and the future of the few that remain is highly uncertain At the same time those in zoos and sanctuaries now lead much more secure lives than they did earlier Newman follows this transition highlighting the roles played by key individuals both humans and gorillas Among the former have been adventurers opportunists writers and scientists The latter include real gorillas such as Gargantua and Koko and fictional ones notably King Kong and Mighty Joe Young This thoughtful and engaging book helps us understand how our image of gorillas has been both distorted and clarified through culture and science for centuries and how we now control the destiny of these magnificent great apes **Missing Links** Jeremy Rich, 2012-01-01 Jeremy Rich uses the eccentric life of R L Garner 1848 1920 to examine the commercial networks that brought the first apes to America during the Progressive Era a critical time in the development of ideas about African wildlife race and evolution Garner was a self taught zoologist and atheist from southwest Virginia Starting in 1892 he lived on and off in the French colony of Gabon studying primates and trying to engage U S academics with his theories Most prominently Garner claimed that he could teach apes to speak human languages and that he could speak the languages of primates Garner brought some of the first live primates to America launching a traveling demonstration in which he claimed to communicate with a chimpanzee named Susie He was often mocked by the increasingly professionalized scientific community who were wary of his colorful escapades such as his ill fated plan to make a New York City socialite the queen of southern Gabon and his efforts to convince Thomas Edison to finance him in Africa Yet Garner did influence evolutionary debates and as with many of his era race dominated his thinking Garner's arguments for example that chimpanzees were more loving than Africans or that colonialism constituted a threat to the separation of the races offer a fascinating perspective on the thinking and attitudes of

his times Missing Links explores the impact of colonialism on Africans the complicated politics of buying and selling primates and the popularization of biological racism **The Horror on the Links** Seabury Quinn,2017-04-04 Today the names of H P Lovecraft Robert E Howard August Derleth and Clark Ashton Smith all regular contributors to the pulp magazine Weird Tales during the first half of the twentieth century are recognizable even to casual readers of the bizarre and fantastic And yet despite being more popular than them all during the golden era of genre pulp fiction there is another author whose name and work have fallen into obscurity Seabury Quinn Quinn s short stories were featured in well more than half of Weird Tales s original publication run His most famous character the supernatural French detective Dr Jules de Grandin investigated cases involving monsters devil worshippers serial killers and spirits from beyond the grave often set in the small town of Harrisonville New Jersey In de Grandin there are familiar shades of both Arthur Conan Doyle s Sherlock Holmes and Agatha Christie s Hercule Poirot and alongside his assistant Dr Samuel Trowbridge de Grandin s knack for solving mysteries and his outbursts of peculiar French isms grand Dieu captivated readers for nearly three decades Collected for the first time in trade editions The Complete Tales of Jules de Grandin edited by George Vanderburgh presents all ninety three published works featuring the supernatural detective Presented in chronological order over five volumes this is the definitive collection of an iconic pulp hero The first volume The Horror on the Links includes all of the Jules de Grandin stories from The Horror on the Links 1925 to The Chapel of Mystic Horror 1928 as well as an introduction by George Vanderburgh and Robert Weinberg
