**The Disaster of the Third Princess** Royall Tyler, 2009-06-01

These seven essays by the most recent English translator of *The Tale of Genji* emphasize three major interpretive issues: What is the place of the hero Hikaru Genji in the work? What story gives the narrative underlying continuity and form? And how does the closing section of the tale, especially the ten Uji chapters, relate to what precedes it? Written over a period of nine years, the essays suggest fresh thought provoking perspectives on Japan's greatest literary classic.

**Literacy in the Persianate World** Brian Spooner, William L. Hanaway, 2012-03-19 Persian has been a written language since the sixth century B.C. Only Chinese, Greek, and Latin have comparable histories of literacy. Although Persian script changed first from cuneiform to a modified Aramaic, then to Arabic from the ninth to the nineteenth centuries, it served a broader geographical area than any language in world history. It was the primary language of administration and belles lettres from the Balkans under the earlier Ottoman Empire to Central China under the Mongols and from the northern branches of the Silk Road in Central Asia to southern India under the Mughal Empire. Its history is therefore crucial for understanding the function of writing in world history. Each of the chapters of *Literacy in the Persianate World* opens a window onto a particular stage of this history, starting from the reemergence of Persian in the Arabic script after the Arab Islamic conquest in the seventh century A.D. through the establishment of its administrative vocabulary, its literary tradition, its expansion as the language of trade in the thirteenth century, and its adoption by the British imperial administration in India before being reduced to the modern role of national language in three countries: Afghanistan, Iran, and Tajikistan in the twentieth century. Two concluding chapters compare the history of written Persian with the parallel histories of Chinese and Latin, with special attention to the way its use was restricted and channeled by social practice. This is the first comparative study of the historical role of writing in three languages, including two in non-Roman scripts, over a period of two and a half millennia, providing an opportunity for reassessment of the work on literacy in English that has accumulated over the past half century. The editors take full advantage of this opportunity in their introductory essay. PMIRC volume 4.

**The Red Thread** Bernard Faure, 1998-10-26 Is there a Buddhist discourse on sex? In this innovative study, Bernard Faure reveals Buddhism's paradoxical attitudes toward sexuality. His remarkably broad range covers the entire geography of this religion and its long evolution from the time of its founder, Xuyi, to the premodern age. The author's anthropological approach uncovers the inherent discrepancies between the normative teachings of Buddhism and what its followers practice. Framing his discussion on some of the most prominent Western thinkers of sexuality, Georges Bataille and Michel Foucault, Faure draws from different reservoirs of writings, such as the orthodox and heterodox doctrines of Buddhism and its monastic codes. Virtually untapped mythological as well as legal sources are also used. The dialectics inherent in Mahayana Buddhism, in particular in the Tantric and Chan Zen traditions, seemed to allow for greater laxity and even encouraged breaking of taboos. Faure also offers a history of Buddhist monastic life, which has been buffeted by anticlerical attitudes and by attempts to regulate sexual behavior from

both within and beyond the monastery In two chapters devoted to Buddhist homosexuality he examines the way in which this sexual behavior was simultaneously condemned and idealized in medieval Japan This book will appeal especially to those interested in the cultural history of Buddhism and in premodern Japanese culture But the story of how one of the world's oldest religions has faced one of life's greatest problems makes fascinating reading for all The Rise and Fall of Modern Japanese Literature John Whittier Treat, 2018-04-03 The Rise and Fall of Modern Japanese Literature tells the story of Japanese literature from its start in the 1870s against the backdrop of a rapidly coalescing modern nation to the present John Whittier Treat takes up both canonical and forgotten works the non literary as well as the literary and pays special attention to the Japanese state's hand in shaping literature throughout the country's nineteenth century industrialization a half century of empire and war its post 1945 reconstruction and the challenges of the twenty first century to modern nationhood Beginning with journalistic accounts of female criminals in the aftermath of the Meiji civil war Treat moves on to explore how woman novelist Higuchi Ichiyo's stories engaged with modern liberal economics sex work and marriage credits Natsume Soseki's satire I Am a Cat with the triumph of print over orality in the early twentieth century and links narcissism in the visual arts with that of the Japanese I novel on the eve of the country's turn to militarism in the 1930s From imperialism to Americanization and the new media of television and manga from boogie woogie music to Yoshimoto Banana and Murakami Haruki Treat traces the stories Japanese audiences expected literature to tell and those they did not The book concludes with a classic of Japanese science fiction a description of present day crises writers face in a Japan hobbled by a changing economy and unprecedented natural and manmade catastrophes The Rise and Fall of Japanese Literature reinterprets the end of literature a phrase heard often in Japan as a clarion call to understand how literary culture worldwide now teeters on a historic precipice one at which Japan's writers may have arrived just a moment before the rest of us **A Guide to Chinese Literature** Wilt Idema, Lloyd Haft, 1997 Selected for Choice's list of Outstanding Academic Books for 1997 A comprehensive overview of China's 3 000 years of literary history from its beginnings to the present day After an introductory section discussing the concept of literature and other features of traditional Chinese society crucial to understanding its writings the second part is broken into five major time periods earliest times to 100 c e 100 1000 1000 1875 1875 1915 and 1915 to the present corresponding to changes in book production The development of the major literary genres is traced in each of these periods The reference section in the cloth edition includes an annotated bibliography of more than 120 pages the paper edition has a shorter bibliography and is intended for classroom use *Language Change in East Asia* T.
