Barbierato, 2025-09-22 This book investigates the circulation regulation and interpretation of magical texts focusing on the Clavicula Salomonis Key of Solomon one of the most sought after and feared books of the time Drawing on inquisitorial records trial proceedings and archival sources Federico Barbierato uncovers how these texts were read copied and exchanged illuminating the blurred boundaries between religious orthodoxy scientific inquiry and the occult The Early Modern period was marked by a deep ambivalence toward books of magic which were revered as sources of hidden knowledge yet condemned as dangerous and subversive Nowhere was this tension more evident than in Venice a city where inquisitorial censorship clashed with a vibrant book culture At the heart of this volume lies a detailed exploration of the people who interacted with magical writings monks exorcists book dealers artisans and even suspected heretics revealing how these texts served multiple purposes from spiritual protection to financial speculation By examining how authorities sought to suppress reinterpret and sometimes co opt magical knowledge the book provides fresh insights into the dynamics of censorship literacy and power Barbierato moves beyond the history of forbidden books to reconstruct a network of exchanges that shaped Early Modern attitudes toward magic and heterodox knowledge In the Room of the Circles will appeal to scholars and students of Early Modern history book history religious studies and intellectual history as well as readers interested in the history of censorship and the relationship between knowledge and power Riccardo Muti Judith Karp
