Art-based Research Shaun McNiff, 1998-01-01 Art therapy and all of the other creative arts therapies have promoted themselves as ways of expressing what cannot be conveyed in conventional language Why is it that creative arts therapists fail to apply this line of thinking to research In this exciting and innovative book Shaun McNiff one of the field's pioneering educators and authors breaks new ground in defining and inspiring art based research He illustrates how practitioner researchers can become involved in art based inquiries during their educational studies and throughout their careers and shows how new types of research can be created that resonate with the artistic process Clearly and cogently

expressed the theoretical arguments are illustrated by numerous case examples and the final part of the book provides a wealth of ideas and thought provoking questions for research This challenging book will prove invaluable to creative art therapy educators students and clinicians who wish to approach artistic inquiry as a way of conducting research It will also find a receptive audience within the larger research community where there is a rising commitment to expanding the theory and practice of research Integrating artistic and scientific procedures in many novel ways this book offers fresh and productive visions of what research can be

Family Play Therapy Charles Schaefer, Lois J. Carey, 1994-10-01 Play therapy and family therapy both are well established therapeutic paradigms Often however play therapists have minimal contact with the nuclear family of which their child patient is a member Similarly family therapists frequently view young children as disruptive and exclude them from family sessions By combining both play and family treatment modalities as this unique book *Family Play Therapy* suggests all family members can participate in a therapeutic process which in its inclusion of everyone is more genuine and therefore successful *Family Play Therapy* encourages the blending of play therapy and family therapy by discussing and demonstrating various techniques and diverse theoretical approaches that will enable readers to broaden their repertoire when working with families and their young children Each author describes his or her own creative avenue of expression such as puppetry psychodrama and sandplay which facilitate the family's communication helping members to find new ways to hear each other Family play therapy and play therapy need not be exclusionary The two approaches actually can enhance and enrich each other While each therapist ultimately will use his or her own ideas in the critical combining of both methods *Family Play Therapy* offers various possibilities and as such helps therapists to help their family patients to be readily engaged in treatment and to experience therapy as a fun inclusive transforming time together
