An, Esther June Kim, 2023-12-01 Asian American voices and experiences are largely absent from elementary curricula Asian Americans are an extraordinarily diverse group of people yet are often viewed through stereotypical lenses as Chinese or Japanese only as recent immigrants who do not speak English as exotic foreigners or as a model minority who do well in school This fundamental misperception of who Asian Americans are begins with young learners often from what they learn or do not learn in school This book sets out to amend the superficial treatment of Asian American histories in U S textbooks and curriculum by providing elementary teachers with a more nuanced thematically driven account In chapters focusing on the complexity of Asian American identity major moments in Asian immigration war and displacement issues of citizenship and Asian American activism the authors include suggestions across content areas for guided class discussions ideas for broader units and recommendations for children's literature as well as primary sources The Publishers Weekly ,1886

Citizenship on the Edge Nancy J. Hirschmann, Deborah A. Thomas, 2022-01-04 What does it mean to claim two decades into the twenty first century that citizenship is on the edge The questions that animate this volume focus attention on the relationships between liberal conceptions of citizenship and democracy on one hand and sex race and gender on the other Who counts as a citizen in today's world and what are the mechanisms through which the rights benefits and protections of liberal citizenship are differentially bestowed upon diverse groups What are the relationships between global economic processes and political and legal empowerment What forms of violence emerge in order to defend and define these rights benefits and protections and how do these forms of violence reflect long histories How might we recognize and account for the various avenues through which people attempt to make themselves as political subjects **Citizenship on the Edge**

approaches these questions from multiple disciplines including Africana Studies anthropology disability studies film studies gender studies history law political science and sociology Contributors explore the ways in which compounding social inequalities redound to the conditions and expressions of citizenship in the U S and throughout the world They give a sense of the breathtaking range of the ways that citizenship is controlled repressed undercut and denied at the same time as they outline people s attempts to claim citizenship in ways that are meaningful to them From university speech policies to labor and immigration policies to a rethinking of the security theatre to women s empowerment in the family and economy and a rethinking of marriage and the family we see slivers of possibility for a more inclusive and less hostile world in which citizenship is no longer so in doubt so on the edge for so many As a whole the volume argues that citizenship cannot be conceptualized as a transcendent good but must instead always be contextualized within specific places and times and in relation to dynamic struggle Contributors Erez Aloni Ange Marie Hancock Alfaro Nancy J Hirschmann Samantha Majic Valentine M Moghadam Michael Rembis Tracy Robinson Ellen Samuels Kimberly Theidon Deborah A Thomas *The Significance of Sibling Relationships in Literature* JoAnna Stephens Mink, Janet Doubler Ward, 1993 If one does not have them one is compelled to acknowledge and react to their non existence *Sight and Sound* ,2001 **TV Guide** ,1976 Catalog of Copyright Entries Library of Congress.
