Cultivating Cooperation Raymond A. Young, 1995 As one of the most successful farm organizations in the United States the Missouri Farmers Association brought together farm clubs from all over the state to serve as the central body through which farmer owned businesses could compete with investor owned businesses In *Cultivating Cooperation* Raymond A Young follows the fascinating history of MFA from its grass roots beginning in a schoolhouse in 1914 through the upheaval that led to only the second leadership change in the organization s history in 1979 William Hirth was responsible for the early success of MFA At the age of fifteen Hirth became interested in farming and started lecturing on the benefits of building a cooperative of farm clubs He continued to advocate this idea by publishing *The Missouri Farmer* a magazine that informed subscribers on legislative issues and farm club news and later became MFA s house organ Hirth believed that the farm clubs should capitalize not only on the economic advantages of joining together as a cooperative but on the political and social advantages as well Upon Hirth s death in 1940 Fred Heinkel took over leadership of MFA Under his guidance the cooperative grew at a feverish rate Supply companies such as oil refineries feed mills and seed plants were acquired or built whenever it proved advantageous to the farmers A sister cooperative was created to expand into neighboring states and a national alliance was created to establish a stronger representation in Washington D C MFA was also instrumental in securing a four year medical school in its hometown of Columbia in order to ensure medical care for farmers and their families in rural areas In addition MFA has played a role in helping Third World countries develop cooperatives of their own With intimate knowledge of the organization Raymond Young involves the reader in the intricacies of the formation and development of the Missouri Farmers Association enlivening his account with liberal use of anecdotes from the pages of *The Missouri Farmer* An introduction by Michael L Cook places the story of MFA within the context of the history of the cooperative movement nationwide Students and scholars of Missouri history as well as farmers and those interested in agriculture will find this comprehensive examination of MFA an invaluable resource

Nineteenth-Century British Literature Then and Now Simon Dentith, 2016-05-06 Envisioning today s readers as poised between an impossible attempt to read texts as their original readers experienced them and an awareness of our own temporal moment Simon Dentith complicates traditional prejudices against hindsight to approach issues of interpretation and historicity in nineteenth century literature Suggesting that the characteristic aesthetic attitude encouraged by the backward look is one of irony rather than remorse or regret he examines works by Charles Dickens George Eliot Anthony Trollope William Morris and John Ruskin in terms of their participation in significant histories that extend to this day Liberalism class gender political representation and notions of progress utopianism and ecological concern

as currently understood can be traced back to the nineteenth century Just as today's critics strive to respect the authenticity of nineteenth century writers and readers who responded to these ideas within their historical world so too do those nineteenth century imaginings persist to challenge the assumptions of the present It is therefore possible Dentith argues to conceive of the act of reading historical literature with an awareness of the historical context and of the difference between the past and the present while allowing that friction or difference to be part of how we think about a text and how it communicates His book summons us to consider how words travel to the reality of the reader's own time and how engagement with nineteenth century writers anticipation of the judgements of future generations reveal hindsight's capacity to transform our understanding of the past in the light of subsequent knowledge

Revolt of the Saints John F.

Collins,2015-05-01 In 1985 the Pelourinho neighborhood in Salvador Brazil was designated as a UNESCO World Heritage Site Over the next decades over 4 000 residents who failed to meet the state's definition of proper Afro Brazilianness were expelled to make way for hotels boutiques NGOs and other attractions In *Revolt of the Saints* John F Collins explores the contested removal of the inhabitants of Brazil's first capital and best known site for Afro Brazilian history arguing that the neighborhood's most recent reconstruction begun in 1992 and supposedly intended to celebrate the Pelourinho's working class citizens and their culture revolves around gendered and racialized forms of making Brazil modern He situates this focus on national origins and the commodification of residents' most intimate practices within a longer history of government and elite attempts to improve the citizenry's racial stock even as these efforts take new form today In this novel analysis of the overlaps of race space and history Collins thus draws on state citizen negotiations of everyday life to detail how residents respond to the attempt to market Afro Brazilian culture and reimagine the nation's foundations both illuminate and contribute to recent shifts in Brazil's racial politics

including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more **Remembering Masculinity in Early Modern Florence** Allison Mary Levy, 2006-01-01 This book nuances our understanding of commemorative portraiture in early modern Florence The author argues that male and female portraiture complexly generated within a discourse of male anxiety and pre mortuary mourning could pictorially console the subject against his own potentially unmourned death Merging early modern visual culture and critical theories of the body this book raises new questions about Renaissance portraiture and re configures our understanding of masculinity and mourning
