imperfections are to be expected Medical Meddlers Mediums & Magician Keith Souter, 2011-11-30 The Victorians had a thirst for knowledge This drove them to explore the uncharted corners of the world plumb the unfathomable depths of science discover evolution and create some of the engineering and architectural marvels of the world Yet this open mindedness also at times made them utterly gullible Because of their closeness to disease and the ever present threat of their own mortality it was inevitable that they would be open to the claims of quacks who promised all kinds of panaceas and to mediums who offered a means of communicating with the dead So too did it make them eager for diversion and entertainment by the conjurers and illusionists of the great music halls Strangely it was through the magic making skill of the conjurers that the activities of many of the tricksters and fraudulent mediums finally came to be exposed **Medical Meddlers Mediums Magicians** is a box of delights for all students of Victoriana **Card Manipulations** Jean Hugard, 1973-01-01 Over 100 tricks that can be done with any pack of cards This rich collection has taught thousands of magicians how to perform dozens of eye catching yet really workable tricks Over 200 illustrations Practical Mental Magic Theodore Annemann, 1983-01-01 Outstanding collection of nearly 200 crowd pleasing mental magic feats requiring no special equipment Author offers insider s tips and expert advice on techniques presentation diversions patter staging and all else needed to make any trick a foolproof success Lucidly written thoroughly diagrammed book by one of magic s legendary figures **Sensationalism and the Genealogy of Modernity** Alberto Gabriele, 2016-11-15 This book maps out the temporal and geographic coordinates of the trope of sensationalism in the long nineteenth century through a comparative approach Not only juxtaposing different geographical areas Europe Asia and Oceania this volume also disperses its history over a longue dur e allowing readers to perceive the hidden and often unacknowledged continuities throughout a period that is often reduced to the confines of the national disciplines of literature art and cultural studies Providing a wide range of methodological approaches from the fields of literary studies art history sociology of literature and visual culture this collection offers indispensable examples of the relation between literature and several other media Topics include the rhetorical tropes of popular culture the material culture of clothing the lived experience of performance as a sub text of literature and painting and the redefinition of spatiality and temporality in theory art and literature **Non Linear Mathematics Vol. I** Thomas L., Saaty , Joseph, Bram, 2014-12-22 We are surrounded and deeply involved in the natural world with non linear events which are not necessarily mathematical the authors write For example the nonlinear problem of pedalling a bicycle up and down a hillside On a grand scale the struggle for existence between two species one of which preys exclusively on the other This book is for mathematicians and researchers who believe that nonlinear mathematics is the mathematics of today it is also for economists engineers operations analysts the reader who has been thus bemused into an artificially linear conception of the universe Nonlinear Mathematics is the first attempt to consider the widest range of nonlinear topics found in the scattered literature Accessible to non mathematics professionals as well as college seniors and

graduates it offers a discussion both particular and broad enough to stimulate research towards a unifying theory of nonlinear mathematics Ideas are presented according to existence and uniqueness theorems characterization e g stability and asymptotic behavior construction of solutions convergence approximation and errors *Secrets of the Sideshows* Joe Nickell, 2005-09-09 The carnival sideshows of the past have left behind a fascinating legacy of mystery and intrigue The secrets behind such daring feats as fire eating and sword swallowing and bizarre exhibitions of human oddities as Alligator Boys and Gorilla Girls still remain only grudgingly if ever given up by performers and carnival professionals Working alongside the performers Joe Nickell blows the lid off these mysteries of the midway The author reveals the structure of the shows specific methods behind the performances and the showmen s tactics for recruiting performers and attracting crowds He also traces the history of such spectacles from ancient Egyptian magic and street fairs to the golden age of P T Barnum s sideshows With revealing insight into the personal lives of the men and women billed as freaks Nickell unfolds the captivating story of the midway show Modern Enchantments Simon During, 2009-06-30 A history of secular or non supernatural or entertainment magic as an important but neglected constituent of modern culture Nicholas Daly Magic Simon During suggests has helped shape modern culture Devoted to this deceptively simple proposition During s superlative work written over the course of a decade gets at the aesthetic questions at the very heart of the study of culture How can the most ordinary arts and by magic During means not the supernatural but the special effects and conjurings of magic shows affect people Modern Enchantments takes us deeply into the history and workings of modern secular magic from the legerdemain of Isaac Fawkes in 1720 to the return of real magic in nineteenth century spiritualism to the role of magic in the emergence of the cinema Through the course of this history During shows how magic performances have drawn together heterogeneous audiences contributed to the molding of cultural hierarchies and extended cultural technologies and media at key moments sometimes introducing spectators into rationality and helping to disseminate skepticism and publicize scientific innovation In a more revealing argument still Modern Enchantments shows that magic entertainments have increased the sway of fictions in our culture and helped define modern society s image of itself Praise for Modern Enchantment During documents the extent to which magic and magical thinking have pervaded and continue to pervade secular life the author examines 19th and 20th century theatrical magic and commercial conjuring with great sensitivity to the social and cultural context in the Western world Equally fascinating is the analysis of magic and early film R Sugarman Choice A richly informed warmly argued addition to the growing number of books in which writers worry at the pervasive blurring of distinctions between act and appearance organic consciousness and artificial intelligence imagination and empirical experience illusion and thought reality TV and real life dreams and money Marina Warner Financial Times During moves confidently across three centuries of magic and covers aspects of a few more besides The sheer wealth of historical detail he provides is impressive but no less impressive is the subtlety of his argumentation and the suggestiveness of his claims This extremely
