Magic A Sociological Study:

Magic. A Sociological Study Hutton Webster, 1952 Magic, a Sociological Study, by Hutton Webster... Hutton Webster, **The Sociological Study of Religion** Betty R. Scharf, 2024-02-29 First published in 1970 The Sociological Study of Religion distinguishes the sociological from the philosophical or theological approach to religion It reviews the major theories relating to religious practice to social structure and analyzes the social functions of religion The contributions of Durkheim Marx Freud Troeltsch and Weber are examined from this point of view also the contribution of social anthropology and the studies of religion in industrial societies This book is a must read for students of sociology and religion

Magic Jamie Sutcliffe, 2021-12-14 The first accessible reader on magic's generative relationship with contemporary art practice From the hexing of presidents to a renewed interest in herbalism and atavistic forms of self care magic has furnished the contemporary imagination with mysterious and often disorienting bodies of arcane thought and practice This volume brings together writings by artists magicians historians and theorists that illuminate the vibrant correspondences animating contemporary art's varied encounters with magical culture inspiring a reconsideration of the relationship between the symbolic and the pragmatic Dispensing with simple narratives of reenchantment Magic illustrates the intricate ways in which we have to some extent always been captivated by the allure of the numinous It demonstrates how magical culture's tendencies toward secrecy occlusion and encryption might provide contemporary artists with strategies of remedial communality a renewed faith in the invocational power of personal testimony and a poetics of practice that could boldly question our political circumstances from the crisis of climate collapse to the strictures of socially sanctioned techniques of medical and psychiatric care Tracing its various emergences through the shadows of modernity the circuitries of ritual media and declarations of psychic self defence Magic deciphers the evolution of a magical critical thinking that productively complicates contradicts and expands the boundaries of our increasingly weird present Making Magic Randall Styers, 2004-01-15 Since the emergence of religious studies and the social sciences as academic disciplines the concept of magic has played a major role in defining religion and in mediating the relation of religion to science Across these disciplines magic has regularly been configured as a definitively non modern phenomenon juxtaposed to distinctly modern models of religion and science Yet this notion of magic has remained stubbornly amorphous In Making Magic Randall Styers seeks to account for the extraordinary vitality of scholarly discourse purporting to define and explain magic despite its failure to do just that He argues that this persistence can best be explained in light of the Western drive to establish and secure distinctive norms for modern identity norms based on narrow forms of instrumental rationality industrious labor rigidly defined sexual roles and the containment of wayward forms of desire Magic has served to designate a form of alterity or deviance against which dominant Western notions of appropriate religious piety legitimate scientific rationality and orderly social relations are brought into relief Scholars have found magic an invaluable tool in their efforts to define the appropriate

boundaries of religion and science On a broader level says Styrer magical thinking has served as an important foil for modernity itself Debates over the nature of magic have offered a particularly rich site at which scholars have worked to define and to contest the nature of modernity and norms for life in the modern world

Academic Study of Religions in a Cognitive, Anthropological and Sociological Perspective Tomáš Bubík, Jakub Havlíček, Silvie Kotherová, Dušan Lužný, Rudolf Havelka, 2021 The book deals with current issues of the study of religion as an academic discipline especially cognitive anthropological and sociological research of religious thought and behaviour Publikace pojednává o aktuálním problému religionistiky jako akademické disciplíny zejména o kognitivním antropologickém a sociologickém výzkumu náboženství

Magic: A Very Short Introduction Owen Davies, 2012-01-26 A wide ranging overview of how magic has been defined understood and practiced over the millennia introduces it in today's world as a real force that helps people overcome misfortune poverty and illness

The Realities of Witchcraft and Popular Magic in Early Modern Europe E. Bever, 2008-06-11 Exploring the elements of reality in early modern witchcraft and popular magic through a combination of detailed archival research and broad ranging interdisciplinary analyses this book complements and challenges existing scholarship and offers unique insights into this murky aspect of early modern history

The Social Scientific Study of Exorcism in Christianity Giuseppe Giordan, Adam Possamai, 2020-06-01 This book presents an academic analysis of exorcism in Christianity It not only explores the crisis and drama of a single individual in a fight against demonic possession but also looks at the broader implications for the society in which the possessed lives In recognition of this coverage includes case studies from various geographical areas in Europe North and South America and Oceania The contributors explore the growing significance of the rite of exorcism both in its more structured format within traditional Christian religions as well as in the less controlled and structured forms in the rites of deliverance within Neopentecostal movements They examine theories on the interaction between religion magic and science to present new and groundbreaking data on exorcism The fight against demonic possession underlines the way in which changes within the religious field such as the rediscovery of typical practices of popular religiosity challenge the expectations of the theory of secularization This book argues that if possession is a threat to the individual and to the equilibrium of the social order the ritual of exorcism is able to re-establish a balance and an order through the power of the exorcist This does not happen in a social vacuum but in a consumer culture where religious groups market themselves against other faiths This book appeals to researchers in the field

The Materiality of Magic Ceri Houlbrook, Natalie Armitage, 2015-12-31 The subject of magic has long been considered peripheral and sensationalist the word itself having become something of an academic taboo However beliefs in magic and the rituals that surround them are extensive as are their material manifestations and to avoid them is to ignore a prevalent aspect of cultures worldwide from prehistory to the present day The Materiality of Magic addresses the value of the material record as a resource in investigations into magic ritual practices and popular beliefs The chronological and geographic focuses of the

papers presented here vary from prehistory to the present day including numinous interpretations of fossils and ritual deposits in Bronze Age Europe apotropaic devices in Roman and Medieval Britain the evolution of superstitions and ritual customs from the voodoo doll of Europe and Africa to a Scottish wishing tree and an exploration of spatiality in West African healing practices The objectives of this collection of nine papers are twofold First to provide a platform from which to showcase innovative research and theoretical approaches in a subject which has largely been neglected within archaeology and related disciplines and secondly to redress this neglect The papers were presented at the 2012 Theoretical Archaeology Group TAG conference in Liverpool Magic and the Supernatural in Fourth Century Syria Silke Trzcionka,2006-11-22 Magic and the Supernatural in Fourth Century Syria presents an in depth investigation of a variety of magical practices with a focused study in the late antique Syria and Palestine Offering new research using both archaeological and literary sources and blending Classical Jewish and Christian traditions from both regions Silke Trzcionka examines a myriad of magical activities such as curses spells and amulets accusations related to chariot races love and livelihood methods involved in protection healing possession and exorcism The information is provided with clarity and theoretical sophistication which enables students to develop an understanding of these beliefs and their place within the social context of the time Altogether a useful enlightening and enjoyable book which students studying religion and or social history will find invaluable

Magic and the Millennium Bryan R. Wilson,1973 Thirty nine folktales from the Tartar region of Russia **Mind, Morality and Magic** Istvan Czachesz,Risto Uro,2014-10-14 The cognitive science of religion that has emerged over the last twenty years is a multidisciplinary field that often challenges established theories in anthropology and comparative religion This new approach raises many questions for biblical studies as well What are the cross cultural cognitive mechanisms which explain the transmission of biblical texts How did the local and particular cultural traditions of ancient Israel and early Christianity develop What does the embodied and socially embedded nature of the human mind imply for the exegesis of biblical texts Mind Morality and Magic draws on a range of approaches to the study of the human mind including memory studies computer modeling cognitive theories of ritual social cognition evolutionary psychology biology of emotions and research on religious experience The volume explores how cognitive approaches to religion can shed light on classical concerns in biblical scholarship such as the transmission of traditions ritual and magic and ethics as well as uncover new questions and offer new methodologies **A History of Witchcraft: Sorcerers, Heretics & Pagans (Third)** Jeffrey B. Russell,Brooks Alexander,2024-06-18 An authoritative and concise history of witchcraft from the ancient world up to the present day Witchcraft has always been a fluid and intriguing belief system that has enchanted and sometimes terrified humanity Now in its third edition A History of Witchcraft has established itself as the authoritative history of witchery and the occult Beginning with magic in the ancient world Jeffrey B Russell explores the definition of witchcraft in its many diverse forms from the worship of the Greek goddess of magic Hecate and the witch crazes of the fifteenth and sixteenth

centuries to the development of modern witchcraft by Aleister Crowley and Gerald Gardner in the early twentieth century Brooks Alexander analyzes the development of witchcraft and neo paganism in the present day charting the dissemination of modern witchcraft through media and the tensions that arise when a secretive cult becomes an open and recognized religion This updated edition features a new chapter exploring the challenges that witchcraft has faced in the past decade including the rise of social media platforms such as Instagram and TikTok the COVID 19 pandemic and new neo pagan groups

Jesus and Magic Richard A. Horsley, 2014-10-27 It has become standard in modern interpretation to say that Jesus performed miracles and even mainline scholarly interpreters classify Jesus's healings and exorcisms as miracles Some highly regarded scholars have argued more provocatively that the healings and exorcisms were magic and that Jesus was a magician As Richard Horsley points out if we make a critical comparison between modern interpretation of Jesus's healing and exorcism on the one hand and the Gospel stories and other ancient texts on the other hand it becomes clear that the miracle and magic are modern concepts products of Enlightenment thinking Jesus and Magic asserts that Gospel stories do not have the concepts of miracle and magic What scholars constructed as magic turns out to have been ritual practices such as songs incantations medicines potions and appeals to higher powers for protection Horsley offers a critical reading of the healing and exorcism episodes in the Gospel stories This reading reveals a dynamic relationship between Jesus the healer the trust of those coming for healing and their support networks in local communities Horsley's reading of the Gospel stories gives little or no indication of divine intervention Rather the healing and exorcism stories portray healings and exorcisms
