The Making of the New Japan IPS

Chiyoda-ku, Leslie Connors, Yasuhiro Nakasone, 2012-12-06 Yasuhiro Nakasone s rise to political prominence began under the watchful eye of the American occupation with which he had a direct and confrontational relationship arguing for the ending of the occupation and the restoration of sovereignty to Japan Nakasone argued for Japan s need to become a normal nation which in his view involved an enhanced international role for Japan and an enhanced role for the prime minister in domestic policy making Both ideas have come to win an increasingly broad acceptance although Nakasone s slow rise to the position of prime minister bears testament to the controversy aroused by his views These political memoirs chart the journey from his youth in the aftermath of the First World War to his appearance on the world stage at the side of President Reagan They conclude with his thoughts on the eve of the domestic upheavals which saw the fall of the LDP on the prospects for a third opening of Japan to rival the Meiji Restoration and the MacArthur reforms Now an adviser to a younger generation of politicians he is regarded by many as a modern day Genro for Japan

Making Tea, Making Japan Kristin Surak, 2012-11-28 The tea ceremony persists as one of the most evocative symbols of Japan Originally a pastime of elite warriors in premodern society it was later recast as an emblem of the modern Japanese state only to be transformed again into its current incarnation largely the hobby of middle class housewives How does the cultural practice of a few come to represent a nation

as a whole Although few non Japanese scholars have peered behind the walls of a tea room sociologist Kristin Surak came to know the inner workings of the tea world over the course of ten years of tea training Here she offers the first comprehensive analysis of the practice that includes new material on its historical changes a detailed excavation of its institutional organization and a careful examination of what she terms nation work the labor that connects the national meanings of a cultural practice and the actual experience and enactment of it She concludes by placing tea ceremony in comparative perspective drawing on other expressions of nation work such as gymnastics and music in Europe and Asia Taking readers on a rare journey into the elusive world of tea ceremony Surak offers an insightful account of the fundamental processes of modernity the work of making nations

The Making of Urban Japan André Sorensen, 2005-08-19 During the twentieth century Japan was transformed from a poor primarily rural country into one of the world's largest industrial powers and most highly urbanised countries Interestingly while Japanese governments and planners borrowed carefully from the planning ideas and methods of many other countries Japanese urban planning urban governance and cities developed very differently from those of other developed countries Japan's distinctive patterns of urbanisation are partly a product of the highly developed urban system urban traditions and material culture of the pre modern period which remained influential until well after the Pacific War A second key influence has been the dominance of central government in urban affairs and its consistent prioritisation of economic growth over the public welfare or urban quality of life Andr Sorensen examines Japan's urban trajectory from the mid nineteenth century to the present paying particular attention to the weak development of Japanese civil society local governments and land development and planning regulations

Making Common Sense of Japan Steven R. Reed, 2010-11-23 Common misconceptions about Japan begin with the notion that it is a small country it is actually larger than Great Britain Germany or Italy and end with pronouncements that the Japanese think differently and have different values they do things differently because that's the way they are Steven Reed takes on the task of demystifying Japanese culture and behavior Through examples that are familiar to an American audience and his own personal encounters with the Japanese he argues that the apparent oddity of Japanese behavior flows quite naturally from certain objective conditions that are different from those in the United States Mystical allegations about national character are less useful for understanding a foreign culture than a close look at specific situations and conditions Two aspects of the Japanese economy have particularly baffled Americans that Japanese workers have permanent employment and that the Japanese government cooperates with big business Reed explains these phenomena in common sense terms He shows how they developed historically why they continue and why they helped produce economic growth He concludes that these practices are not as different from what happens in the United States as they may appear

Making Japanese Heritage Christoph Brumann, Rupert A. Cox, 2009-12-16 This book examines the making of heritage in contemporary Japan investigating the ways in which particular objects practices and institutions come to be seen as forms of heritage which are ascribed public

recognition and political significance Arms Procurement Decision Making: China, India, Israel, Japan, South Korea and Thailand Ravinder Pal Singh, 1998 SCOTT copy 1 From the John Holmes collection **Japan Magazine**, 1925 **Japan's Foreign Policy Making** Karol Zakowski, Beata Bochorodycz, Marcin Socha, 2017-08-28 This book evaluates the impact of the 2001 central government reforms on effective foreign policy making in Japan. It puts a special focus on the evolution of the domestic institutional factors and decision making processes behind Japan's foreign policy while also analyzing the development of Japan's external relations with various other countries such as the US, China and North Korea. Adhering to the neoclassical realist approach, the authors show that thanks to a more independent Kantei based form of diplomacy, Japan's prime ministers were able to strategically respond to international developments and to pursue their own diplomatic endeavors more boldly. At the same time, they demonstrate that the effectiveness of this proactive posture was still heavily dependent on the decision makers' ability to form cohesive coalitions and select suitable institutional tools which enabled them to influence domestic and international affairs.

Kita Ikki and the Making of Modern Japan Brij Tankha, 2021-11-22 This important new study of Kita Ikki, one of Japan's influential pre-war ideologues, focuses on the twin poles of nationalism and socialism that inform his three principal works located always in the context of the dominance of Western imperialism at that time. The three works are *The National Polity and Pure Socialism* Kokutairon oyobi junsei shakai shugi in which he explores the nature of the modern Japanese state and its characteristics, *The Unofficial History of the Chinese Revolution* Shina kakumei gaishi written to correct what he perceived as Japan's misguided policy towards China, and *The Fundamental Principles for the Reorganization of Japan* Nihon kaizo hoan taiko which was said to have influenced the young army officers of the Imperial Way Faction who attempted the 26 February 1936 coup to bring about direct imperial rule. The coup failed and Kita was executed the following year for his involvement as the so-called intellectual inspiration. The second half of the book contains the first complete English translation by Brij Tankha of *The Fundamental Principles for the Reorganization of Japan*, providing the reader with an opportunity to hear the voice of an early twentieth century Japanese intellectual confronting the challenge of the West's domination and its implications for Japan. In so doing, Kita helped galvanize support for an agenda involving Japan's own imperial mission and the pathway to a new Japan.

Plus an extensive index.

The Making of Japanese Manchuria, 1904-1932 Yoshihisa Tak Matsusaka, 2020-03-23 In this history of Japanese involvement in northeast China, the author argues

that Japan's military seizure of Manchuria in September 1931 was founded on three decades of infiltration of the area. This incremental empire building and its effect on Japan are the focuses of this book. The principal agency in the piecemeal growth of Japanese colonization was the South Manchurian Railway Company and by the mid 1920s Japan had a deeply entrenched presence in Manchuria and exercised a dominant economic and political influence over the area. Japanese colonial expansion in Manchuria also loomed large in Japanese politics, military policy, economic development and foreign relations and deeply influenced many aspects of Japan's interwar history.

The Japan Financial and Economic Monthly, 1922 **Japan's Defense Policy and Bureaucratic Politics, 1976-2007** Takao Sebata, 2010-06-05 It is a well known fact that Japan spends only a small percentage of her gross national product on defense. What is not well known however is the fact that Japan's defense budget ranks among the top in the world and that her self defense forces are considered to be amongst the best conventional armed forces in the world. Since empirical studies concerning Japan's military expansion are rare both in Japanese and English the book takes up this neglected area. It examines Japan's military expansion and the decision making of her defense policy between 1976 and 2007 focusing on the National Defense Program outline and the guidelines for United States Japan Defense Cooperation. This book deals with how the bureaucratic politics model applies to the case of Japan's defense policy and demonstrates some similarities and differences between Japanese and United States decision making.
