Handbook of Scales for Research in Crime and Delinquency Stanley L. Brodsky, H. O'Neal Smitherman, 2013-06-29 In contrast to the great diversity of other crime and delinquency research measures those drawn from the CPI and the MMPI have much in common They are taken from standardized instruments administered under controlled conditions with known stimulus properties and validity indicators The CPI and MMPI measures will frequently be instruments of choice in research on personality and psychodynamics of offenders CHAPTER 6 Law Enforcement and Police This chapter encompasses a variety of scales that refer to law enforcement or police agencies Unfortunately in the case of many scales these terms are used simply with the assumption that the respondents understand the concepts and use them in the same way as researchers In other cases however specific policing functions are identified and described As noted in Chapter 3 a standard order of scale presentation is followed First the attitudes scales are presented followed by the behavior ratings per sonality measures milieu ratings prediction measures and finally the very broad category of description After the reviews are completed within each subcategory other scales in that category are listed See Chapter 2 for a description of the criteria that were used in deciding

upon whether a scale would be reviewed or simply listed Listed scales are presented by title and bibliographic reference followed by a very brief description

Assessing the Youthful Offender Robert D. Hoge, D.A. Andrews, 2013-06-29 Our society's preoccupation with crime and fear of crime appears to have shifted its focus to the juvenile offender Both electronic and print media continuously warn us that juvenile offenders are increasingly younger and more virulent The demographics of our population suggest that there will only be more juvenile offenders to fear in the near future All of these concerns arise in a social climate that is characterized by an ever increasing demand for stronger retributive measures against the offender The belief that only harsh justice will protect us from the ravages of juveniles has become dominant Increasingly perceptions and politics rather than scientific data dominate policy making with regard to youthful offenders In *Assessing the Youthful Offender Issues and Techniques* Robert D Hoge and D A Andrews make a restrained rational and ultimately persuasive argument for the use of standardized psychological assessments in the effective management of youth within juvenile justice systems They clarify how what we already know about the cause and management of youthful criminal activity can be incorporated into standardized testing and that the information obtained from testing can improve the administration of criminal justice Moreover this information is useful whatever the theoretical biases of those who administer the justice system The efficiency of policies of either retribution deterrence or rehabilitation is only enhanced by reliance on data

Justice, Crime, and Citizenship in Eurasia Erica Marat, Lauren A. McCarthy, 2022-08-18 What role does law play in post communist societies This book examines the law as a social institution in Eurasia exploring how it is shaped in everyday interactions between state and society organisations and individuals and between law enforcement and other government entities It bridges the gap between theoretically rich work on law in action and the empirical reality of Eurasia The

contributions in this volume include research on policing the legal profession public attitudes towards law regime support and oppositional mobilisation crime policy and property rights among others The studies shift away from the common perception that in Eurasia the law exists only as a tool for the state to enforce order and suppress dissent Instead they show through empirical analyses that citizens evade use reinterpret and shape the law even in authoritarian contexts sometimes containing state violence and challenging the regime and other times reinforcing state capture from below The chapters in this book were originally published as a special issue of the journal Europe Asia Studies
