The Making of the Modern Refugee Peter Gatrell,2013-09-12 The Making of the Modern Refugee proposes a new approach to a fundamental aspect of twentieth century history by bringing the causes consequences and meanings of global population displacement within a single frame Its broad chronological and geographical coverage extending from Europe and the Middle East to South Asia South East Asia and sub Saharan Africa makes it possible to compare crises and how they were addressed Wars revolutions and state formation are invoked as the main causal explanations of displacement and are considered alongside the emergence of a twentieth century refugee regime linking governmental practices professional expertise and humanitarian relief efforts How and for whom did refugees become a problem for organizations such as the League of Nations and UNHCR and for non governmental organizations NGOs What solutions were entertained and implemented and why What were the implications for refugees These questions invite us to consider how refugees engaged with the myriad ramifications of enforced migration and thus the significance that they attached to the places they left behind to their journeys and destinations in short how refugees helped interpreted and fashioned their own history The Making of the Modern Refugee rests upon scholarship from several disciplines and draws upon oral testimony eye witness accounts and cultural production as well as extensive unpublished source material

Environmental Justice for Climate Refugees Francesca Rosignoli,2022-05-11 This book explores who climate refugees are and how environmental justice might be used to overcome legal obstacles preventing them from being recognized at an international level Francesca Rosignoli begins by exploring the conceptual and complex issues that surround the very existence of climate refugees and investigates the magnitude of the phenomenon in its current and future estimates Reframing the debate using an environment justice perspective she examines who has the responsibility of assisting climate refugees state vs non state actors the various legal solutions available and the political scenarios that should be advanced in order to govern this issue in the long term Overall Environmental Justice for Climate Refugees

presents a critical interrogation of how this specific strand of forced migration is currently categorized by existing legal ethical and political definitions and highlights the importance of applying a justice perspective to this issue Exploring the phenomenon of climate refugees through a multi disciplinary lens this book will be of great interest to students and scholars of environmental migration and displacement environmental politics and governance and refugee studies The Oxford Handbook of Refugee and Forced Migration Studies Elena Fiddian-Qasmiyeh, Gil Loescher, Katy Long, Nando Sigona, 2014-06-12 Refugee and Forced Migration Studies has grown from being a concern of a relatively small number of scholars and policy researchers in the 1980s to a global field of interest with thousands of students worldwide studying displacement either from traditional disciplinary perspectives or as a core component of newer programmes across the Humanities and Social and Political Sciences Today the field encompasses both rigorous academic research which may or may not ultimately inform policy and practice as well as action research focused on advocating in favour of refugees needs and rights This authoritative Handbook critically evaluates the birth and development of Refugee and Forced Migration Studies and analyses the key contemporary and future challenges faced by academics and practitioners working with and for forcibly displaced populations around the world The 52 state of the art chapters written by leading academics practitioners and policymakers working in universities research centres think tanks NGOs and international organizations provide a comprehensive and cutting edge overview of the key intellectual political social and institutional challenges arising from mass displacement in the world today The chapters vividly illustrate the vibrant and engaging debates that characterize this rapidly expanding field of research and practice **The Politics of Refugees in South Asia** Navine Murshid, 2013-10-01 Partition and post colonial migrations sometimes voluntary often forced have created borders in South Asia that serve to oppress rather than protect Migrants and refugees feel their real home lies beyond the border and liberation struggles continue the quest for freedoms that have proven to be elusive for many States scapegoat refugees as outsiders for their own ends justifying the denial of their rights while academic discourse on refugees represents them either as victims or as terrorists Taking a stance against such projections this book examines refugees struggles for better living conditions and against marginalization By analyzing protest and militarization among refugees the book argues that they are neither victims without agency nor war entrepreneurs Through interviews surveys and statistical analyses it shows how states have manipulated refugee identity and resistance to promote the ideal of the nation state thereby creating protracted refugee crises This is evident even in the most humanitarian state intervention in modern South Asia India s military intervention in East Pakistan now Bangladesh in 1971 The findings put forward provide the basis to understand the conditions under which violence can break out and thereby have implications for host countries donor countries and aid organizations in the formulation of refugee policy The book is of interest to scholars in the fields of South Asian studies comparative politics international relations refugee studies development studies security studies and peace studies *Midwifery - E-Book* Sally
