On Feminine Sexuality Jacques Lacan, 1988 *The Cambridge Companion to Lacan* Jean-Michel Rabaté, 2003-07-31 This collection of specially commissioned essays by academics and practising psychoanalysts first published in 2003 explores key dimensions of Jacques Lacan's life and works Lacan is renowned as a theoretician of psychoanalysis whose work is still influential in many countries He refashioned psychoanalysis in the name of philosophy and linguistics at the time when it underwent a certain intellectual decline Advocating a return to Freud by which he meant a close reading in the original of Freud's works he stressed the idea that the unconscious functions like a language All essays in this Companion focus on key terms in Lacan's often difficult and idiosyncratic developments of psychoanalysis This volume will bring fresh accessible perspectives to the work of this formidable and influential thinker These essays supported by a useful chronology and guide to further reading will prove invaluable to students and teachers alike

The Phallus and the Mask Marina de Carneri, 2019-09-05T00:00:00+02:00 Psychoanalysts of all schools have generally dismissed and sometimes openly disapproved feminism and its critique of male universalism While other disciplines like sociology and anthropology have welcomed the contributions of feminist theory psychoanalysis remains hindered by its own unconscious which is patriarchal This book wants to cast light on the unthought of Freudian and Lacanian theory by way of an analysis of the concept of femininity The aim is to show how phallocentrism functions as a screen which obscures the real relations between the sexes the meaning of desire and the understanding of sexual difference

Jacques Lacan Sean Homer, 2004-11-04 Jacques Lacan is one of the most challenging and controversial of contemporary thinkers as well as the most influential psychoanalyst since Freud Lacanian theory has reached far beyond the consulting room to engage with such diverse disciplines as literature film gender and social theory This book covers the full extent of Lacan's career and provides an accessible guide to Lacanian concepts and his writing on the imaginary and the symbolic the Oedipus Complex and the meaning of the phallus the subject and the unconscious the real sexual difference Locating Lacan's work in the context of contemporary French thought and the history of psychoanalysis Sean Homer's Jacques Lacan is the ideal introduction to this influential theorist

Melancholy Acts Nouri Gana, 2023-08-01 CHOICE OUTSTANDING ACADEMIC TITLE How do the literatures and cultures of oppressed societies survive and flourish in spite of the overdetermining conditions of precarity and injustice of which they are a product and against which they protest Might the symptom of oppression become simultaneously the agent of its critique Melancholy Acts offers richly nuanced reflections

on these questions through a series of wide ranging engagements with Arab thought literature and film in the aftermath of the 1948 dispossession of Palestinians and the 1967 military defeat of Arab armies Melancholy Acts offers a psychoaffective theory of cultural production that arises out of the disjunction between political impoverishment and cultural resistance to colonial and neoliberal oppression Such a theory allows the author to trace the melancholy disposition of Arabic literary and filmic productions and to discern the precarious rhetorical modes of their critical intervention in a culture that is continually strained to its breaking point Across six chapters Melancholy Acts reads with rigor and sensitivity contentious topics of Arab contemporaneity such as secular modernity and manhood Arab nationalism and leftism literary and artistic commitment Islamism and martyrdom The book tracks the melancholy politics that inform the literary and cultural projects of a multitude of Arab novelists Ghassan Kanafani and Naguib Mahfouz poets and playwrights Mahmoud Darwish Nizar Qabbani and Saadallah Wannous filmmakers Nouri Bouzid Moufida Tlatli Youssef Chahine and Hany Abu Assad alongside the work of such intellectuals as Hussein Muruwwa Malek Bennabi Karima Lazali George Tarabishi and Fethi Benslama from within the Arab world as well as such non Arab thinkers as Freud Lacan Adorno Fanon Spivak Butler and i ek Melancholy Acts charts a fresh and bold new approach to Arabic and comparative literature that combines in interlaced simultaneity a high sensitivity to local idioms as they swerve between symptom and critique with nuanced knowledge of the geopolitics of theory and psychoanalysis

Dolls, Photography and the Late Lacan Rosalinda Quintieri, 2020-12-30 In this fascinating new book Rosalinda Quintieri addresses some of the key questions of visual theory concerning our unending fascination with simulacra by evaluating the recent return of the life size doll in European and American visual culture Through a focus on the contemporary photographic and cinematic forms of this figure and a critical mobilisation of its anthropological complexity this book offers a new critical understanding of this classical aesthetic motif as a way to explore the relevance that doubling fantasy and simulation hold in our contemporary culture Quintieri explores the figure of the inanimate human double as an inhuman partner reflecting on contemporary visuality as the field of a hypermodern post Oedipal aesthetic Through a series of case studies that blur traditional boundaries between practices photography performance sculpture painting documentary and between genres comedy drama fairy tale Quintieri puts in contrast the new function of the double and its plays of simulations on the background of the capitalist injunction to enjoy Engaging with new theories on post Oedipal forms of subjectivity developed within the Lacanian orientation of psychoanalysis Quintieri offers exciting analyses of still and moving photographic work giving body to an original aesthetic model that promises to revitalise our understanding of contemporary photography and visual culture It will appeal to psychoanalysts and researchers from Lacanian psychoanalysis visual studies and cultural theory as well as readers with an academic interest in the cultural history of dolls and the theory of the uncanny

Woman in Lars von Trier's Cinema, 1996-2014 Ahmed Elbeshlawy, 2016-10-11 This book discusses the figure of Woman in Lars von Trier's distinctive cinematic productions from 1996 to 2014 It takes the notorious legacy of violence

against women in von Trier's cinema beyond the perceived gender division elevating the director's image above being a mere provocateur. By raising fundamental questions about woman sexuality and desire, Elbeshlawy shows that Trier's cinematic *Woman* is an attempt at creating an image of a genderless subject that is not inhibited by the confines of ideology and culture. But this attempt is perennially ill-fated. And it is this failure that not only fosters viewing enjoyment but also gives the films their political importance, elevating them above both commendations and condemnations of feminist discourse.

The Shortest Shadow Alenka Zupancic, 2003-09-26. Restoring Nietzsche to a Nietzschean context, examining the definitive element that animates his work. What is it that makes Nietzsche Nietzsche? In *The Shortest Shadow*, Alenka Zupančič counters the currently fashionable appropriation of Nietzsche as a philosopher who was ahead of his time but whose time has finally come. The rather patronizing reduction of his often extraordinary statements to mere opinions that we can share, Zupančič argues, that the definitive Nietzschean quality is his very unfashionableness, his being out of the mainstream of his or any time. To restore Nietzsche to a context in which the thought lives on its own credit, Zupančič examines two aspects of his philosophy. First, in Nietzsche as Metapsychologist, she revisits the principal Nietzschean themes: his declaration of the death of God, which had a twofold meaning: God is dead and Christianity survived the death of God; the ascetic ideal and nihilism as ideas that are very much present in our hedonist postmodern condition. Then, in the second part of the book, she considers Nietzsche's figure of the Noon and its consequences for his notion of the truth. Nietzsche describes the Noon not as the moment when all shadows disappear but as the moment of the shortest shadow, not the unity of all things embraced by the sun but the moment of splitting when one turns into two. Zupančič argues that this notion of the Two as the minimal and irreducible difference within the same animates all of Nietzsche's work, generating its permanent and inherent tension.

A Feminist Mythology Chiara Bottici, 2021-10-21. A Feminist Mythology takes us on a poetic journey through the canonical myths of femininity, testing them from the point of view of our modern condition. A myth is not an object but rather a process, one that Chiara Bottici practises by exploring different variants of the myth of womanhood through first and third person prose and poetry. We follow a series of myths that morph into each other, disclosing ways of being woman that question inherited patriarchal orders. In this metamorphic world, story telling is not just a mix of narrative, philosophical dialogues and metaphysical theorizing; it is a current that traverses all of them by overflowing the boundaries it encounters. In doing so, *A Feminist Mythology* proposes an alternative writing style that recovers ancient philosophical and literary traditions from the pre-Socratic philosophers and Ovid's *Metamorphoses* to the philosophical novellas and feminist experimental writings of the last century.

Inheritance in Psychoanalysis Joel Goldbach, James A. Godley, 2018-02-15. In contrast to the way inheritance is understood in scientific discourse and culture, more broadly, inheritance in psychoanalysis is a paradox. Although it's impossible, strictly speaking, for the unconscious to be inherited, this volume demonstrates how the concept of inheritance can occasion a rich reassessment and reinvention of psychoanalytic theory and practice. The collection enacts a

critical traversal of inheritance for psychoanalysis from the most basic assumptions of natural or biological inheritance such as innateness heredity evolution and ontogenesis to analysis of the ways cultural traditions can be challenged and transformed and finally to the reinvention of psychoanalytic practice in which the ethics of inheritance is fully realized as the individual's responsibility to transform the social bond Featuring strong interdisciplinary analysis rooted in both psychoanalysis and philosophy this volume further engages science politics and cultural studies and addresses contemporary political challenges such as autism and transgenderism

Topologies of Sexual Difference Louise Burchill, Rebecca Hill, James Sares, 2025-10-01 Brings together wide ranging interdisciplinary analyses of Luce Irigaray's rethinking of space with respect to sexual difference and the visual arts A rethinking of space is central to Luce Irigaray's philosophy of sexual difference *Topologies of Sexual Difference* is the first edited collection to focus on this task through a sustained consideration of both Irigaray's critique of the Western tradition's systematic conflation of femininity and space and her transvaluative topological redeployment of space in theorizing sexual difference Across thirteen chapters Irigarayan space is thematized as porous fluid continuous and self differentiating Contributors engage with the origins of life affect the aesthetics of the maternal and placental an Irigarayan morphology inclusive of trans embodiment and in a rare focus the expression of sexuate specificity in creative practice *Topologies of Sexual Difference* thus demonstrates the fundamental importance of Irigaray's rethinking of space for Western philosophy and the visual arts

Can Philosophy Love? Cindy Zeiher, Todd McGowan, 2017-12-20 How can we articulate a philosophy of love This volume stages encounters between contemporary understandings of love and philosophy It considers particular continental philosophers who think about love and its relation to desire and sexuality The essays in this collection contend with philosophy and psychoanalysis as lines of thought that expose love's role in all knowledge Drawing on the work of key thinkers such as i ek Badiou Lacan Hegel Vattimo Caygill Levinas Menshikov and Marx this book puts love to work as a way of understanding the subject of desire as a figure of knowledge shaped by the event of love

Global Brain Singularity Cadell Last, 2020-07-30 This book introduces readers to global brain singularity through a logical meditation on the temporal dynamics of the universal process Global brain singularity is conceived of as a future metasystem of human civilization that represents a qualitatively higher coherence of order To better understand the potential of this phenomenon the book begins with an overview of universal history The focus then shifts to the structure of human systems and the notion that contemporary global civilization must mediate the emergence of a commons that will transform the future of politics economics and psychosocial life in general In this context the book presents our species as biocultural evolutionary agents attempting to create a novel and independent domain of technocultural evolution that affords us new levels of freedom Lastly the book underscores the internal depths of the present moment structured by a division between subject and object The nature of the interaction between subject and object would appear to govern the mechanics of a spiritual process that is key to understanding the meaning of singularity inclusive of

observers Given its scope the book will appeal to readers interested in systems approaches to the emerging world society especially historians philosophers and social scientists *Skryabin, Philosophy and the Music of Desire* Kenneth M. Smith, 2017-07-05 Commentary on Skryabin has struggled to situate an understanding of the composer's music within his idiosyncratic philosophical world views Early commentators efforts to do so failed to establish a thorough or systematic approach And later twentieth century studies turned away from the composer's ideology focusing instead on the music itself with an analytic approach that scrutinized Skryabin's harmonic language in isolation from his philosophy This groundbreaking study revisits the questions surrounding the composer's music within his own philosophy but draws on new methodological tools casting Skryabin's music in the light not only of his own philosophy of desire but of more refined semiotic psychoanalytical theory and modern techniques of music analysis An interdisciplinary methodology corrects the narrow focus of Skryabin scholarship of the last century offering insights from New Musicology and recent music theory that lead to hermeneutical critically informed readings of selected works *Radical Intimacy in Contemporary Art* Keren Moscovitch, 2023-09-07 *Radical Intimacy in Contemporary Art* focuses on practices that operate at the edges of sexuality and its socially sanctioned expressions Using psychoanalysis and object oriented feminism Keren Moscovitch focuses on the work of several contemporary provocative artists to initiate a dialogue on the role of intimacy in challenging and reimagining ideology Moscovitch suggests that intimacy has played an under appreciated role in the shifting of social and political consciousness She explores the work of Leigh Ledare Genesis P Orridge Ellen Jong Barbara DeGenevieve Joseph Maida and Lorraine O Grady who through their radical practices engage in such consciousness shifting in elegant surprising and provocative ways Guided by the feminist psychoanalytic canon of Julia Kristeva throughout as well as being informed by the philosophy of Luce Irigaray and the critical theory of Judith Butler Moscovitch situates these artists in the emerging lineage of feminist new materialism She argues that the instability of intimacy leads to radical and performative objecthood in their work that acts as a powerful expression of revolt Through this line of argumentation Moscovitch joins a growing group of philosophers exploring object oriented theories and practices as a new language for a new era In this era the hegemony of subjectivity has been toppled and a new world of human ontology is built creatively expressively and in the spirit of revolt

A Lacanian Conception of Populism Timothy Appleton, 2023-09-01 *A Lacanian Conception of Populism* takes issue with traditional theories of populism which seek to equate populism with hegemony arguing that these are not only different but even incompatible logics Timothy Appleton contends that one of the main differences between populism and hegemony has to do with the social totality while hegemony absolutises it populism eviscerates it setting in its place an apparently paradoxical dispersion of singular instances of the people The book considers the work of Laclau Badiou and Rancière before arriving at a novel conceptualisation that Appleton dubs the populism of singularities In the second half of the book the author draws out the consequences of this concept for contemporary political theory the question of how to define left and right the

question of popular enthusiasm and affect truth versus post truth the question of leadership populism and nationalism and the relation between populism and political parties A Lacanian Conception of Populism will be key reading for academics and scholars of political theory political philosophy post Marxist thought discourse theory and psychoanalysis It will also be of interest to those working in the areas of populism studies cultural studies gender studies and queer theory *The New Heroines in Film and Television* Helena Bassil-Morozow, 2023-06-29 This thought provoking volume offers an overview of contemporary representations of prominent female characters as they appear in an array of moving image narratives from a Jungian and post Jungian perspective Applying a theoretical frame that is richly informed by the Jungian and post Jungian concepts of persona individuation and archetypes works including *Fleabag* 2016 2019 *Ladybird* 2017 and *The Queen's Gambit* 2020 as well as Disney productions such as *Brave* 2012 *Moana* 2016 and *Frozen* 2013 are contextualized and discussed alongside their non screen precedents and contemporaries including myths fairy tales and works of literature to closely examine new patterns of the female journey This book identifies how young female characters rebel against the female persona of previous eras through the trickster the shadow and other archetypes comparing the contemporary female protagonist with her predecessors to assess the new paths roles and milestones available to her Examining the construction of the female persona across time periods and mediums in an accessibly written yet academic style this book is the first of its kind With a fulsome account of the progressive developments in entertainment media and Jungian thought this book is essential reading for students and scholars of film as well as anyone with an interest in analytical psychology and wider feminist issues in contemporary culture *Sexual Politics of Desire and Belonging* Nick Rumens, Alejandro Cervantes Carson Cervantes C., 2007 Designed for students academics and the general reader alike *Sexual Politics of Desire and Belonging* provides theoretical and empirical insights into the linkages between sexualities and forms of desire and ways of belonging and relating to others in specific contexts and moments in time Opening with a substantial introduction by one of the editors this collection of thirteen essays is organised into three parts each section making important contributions to contemporary debates regarding the sexual politics of citizenship marriage friendship pornography intimacies eroticism and desire As such the essays introduce fresh perspectives for thinking about how individuals construct senses of belonging and modes of relating to others in their everyday lives within the disciplinary frameworks of sociology organisational analysis and cultural studies As well the volume analyses representations of desire and eroticism in British Pop Art trauma and feminist fiction polyamory self help literature Hollywood films and sociological and psychoanalytic theory Analytical insights offered within these essays will do much to stimulate debate about aspects of the socially and historically constituted relationship between desire and sexuality Because of the diverse approaches and conclusions it contains the volume will be essential reading for anyone interested in engaging with inter and multidisciplinary perspectives in order to understand the dynamics between constructions of desire and belonging and discourses of gender sex and sexuality
